Azure Virtual Desktop Implementation

Deploy and scale your virtual desktops and apps on Azure in minutes. Benefit from built-in security and compliance features.

AVD is a comprehensive desktop and app virtualization service running in the cloud. It's the only virtual desktop infrastructure (VDI) that offers:

- **Simplified Management:** Manage desktops centrally for ease and efficiency.

- **Multi-session Windows 11:** Provide a seamless experience even with multiple users.

- **Optimizations for Microsoft 365 ProPlus:** Enhance productivity with a smooth integration.

- **Support for Remote Desktop Services (RDS) environments:** Extend your existing infrastructure.

Our AVD Offering Includes:

- Assessment and migration acceleration tools to streamline your transition.

- Access to the private preview of AVD Azure Portal (for customers who choose the AVD Native solution).

- Dedicated AVD Design and Deployment Helpdesk to assist with any technical questions.

Benefits of AVD:

- Increased employee flexibility and productivity.

- Enhanced data security through Azure's robust features.

- Scalability to meet your evolving business needs.

- Cost optimization by paying only for the resources you use.

Contact KiZAN today and discover how AVD can transform your remote work strategy!
