Blueprint Connect-
Secure, SSO
integrated access

Blueprint Connect:

Specializing in Azure PaaS and website deployments, with our Azure Marketplace solution, integrating OpenVPN's robust encryption with seamless Single Sign-On (SSO) linked to your Active Directory (AD). Designed for content editors, this service ensures secure, streamlined access to your CMS, minimizing vulnerabilities and enhancing productivity..

What we offer

Blueprint Connect is a robust Azure-OpenVPN solution integrated with Single Sign-On (SSO), utilizing your existing Active Directory for secure and streamlined CMS access. Our service focuses on providing secure, encrypted CMS connections via OpenVPN, ensuring data protection and reducing cyber threats. The integration of SSO simplifies the authentication process, allowing content editors and administrators to use their existing credentials, enhancing both security and ease of use.

Leveraging Microsoft Azure's infrastructure, our solution offers high availability, scalability, and compliance, adapting effortlessly to your organization's size and needs. We prioritize minimizing the attack surface by limiting CMS access to secure VPN connections, significantly enhancing your digital security posture.
