# EXECUTIVE NAVIGATOR, POWERED BY GENAI

**Solution Overview** 

3rd January 2024

# PROBLEM STATEMENT

Executives can receive up to 200 emails per day, leading to decision fatigue – McKinsey & Company

Only 30% of executives allocate time for strategy and new org skills, despite the rapid pace of change in the business environment. – World Economic Forum

# **EXECUTIVE SUMMARY**

### **CATALYSING EXECUTIVE ACTION WITH AI**

#### **DESCRIPTION**

Unveiling the Executive Navigator, a pioneering platform transcending traditional boundaries to not only inform but catalyse actionable insights for today's top-tier leaders. Seamlessly integrating AI to automate mundane tasks, expedite data access, and initiate workflows, revolutionizing executive task management and decision-making processes.

#### **BUSINESS VALUE – Why use AI/GenAI?**

#### Three Main Pillars:

Personal Navigator | Business Automation | Real-Time Insights |

#### Key Benefits include:

- Task Efficiency: Streamlines tasks for strategic focus.
- **Business Automation**: Automates critical functions for informed decisions.
- Real-Time Insights: Immediate data access for informed decisions.
- Agile Workflows: Customized workflow initiation via voice or text.

**Data Driven Executive Decisions** 

#### **TARGET**

- CEO
- CFO
- C Suite including Chief Supply Chain Officer, Chief Operation Officer
- Global/ Regional Business Leaders

# **UNVEILING THE EXECUTIVE NAVIGATOR**

### FROM PASSIVE INSIGHT CONSUMPTION TO PROACTIVE ACTION INITIATION

# **Personal Navigator**

Effortlessly initiate and manage tasks in your familiar Microsoft ecosystem. For instance, it can automatically generate a meeting summary in Teams, distribute action items via Outlook, schedule follow-up meetings, and update project timelines.

**M365 Office Suite** 

# **Business Functions Navigator**

Automates key business functions in HR, Supply Chain, Finance, and Sales. For example, it autotriggers inventory audits based on supply chain data or initiates performance reviews using HR metrics, streamlining executive decision-making.

# **External Business Navigator**

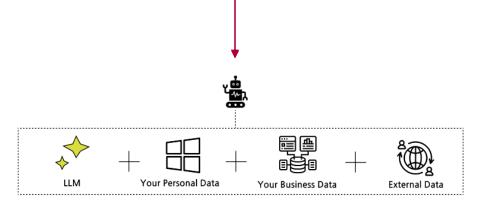

Real-time sync with external data such as Bloomberg, BBC, and patent databases.

Auto-triggers workflows for risk assessment or competitive analysis based on live events, ensuring timely and informed executive decisions.

PitchBook.

# **TECH STACK - MICROSOFT BASED**

Azure OpenAl	Facilitates natural language queries and provides real-time natural language commentary. Maintained by Microsoft, OpenAI has no access to the data ensuring data privacy.	
Microsoft Azure	<ul> <li>Azure Data Factory: Data integration service used to extract data from various sources, transform it, and load it into a destination.</li> <li>Azure Blob Storage: Cloud storage solution for unstructured data; to be used as a destination for data extracted and transformed by ADF.</li> <li>Azure Cognitive Search: Allows to ingest, enrich, and index data from various sources. With its powerful natural language processing capabilities, it can understand user intent and provide more relevant search results.</li> </ul>	
Power Platform	<ul> <li>Power Pages: Allows users to create and publish low-code websites and portals.         Can be used to create a user interface for displaying and hosting data from various sources, including Power BI reports and dashboards.</li> <li>Power BI: A business analytics service by Microsoft that provides interactive visualizations and business intelligence capabilities.</li> </ul>	

# AI INJECTIONS ACROSS THE EXECUTIVE NAVIGATOR

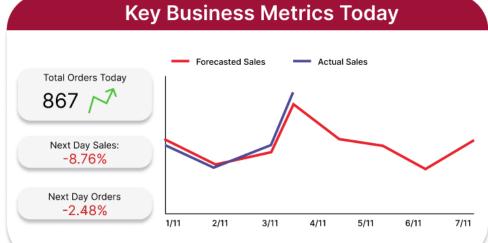

Predictive capabilities	<ul> <li>Future prediction of Key Business KPIs included in the Business navigator enabled by Data science and Machine Learning</li> <li>A recommendation engine for the next best actions</li> </ul>	
Azure OpenAl / LLM integration	<ul> <li>Enable executives to prompt the data behind the Navigator with natural language – results back could be one of 2: either a sentence back or a small new dashboard created.</li> <li>Enable executives to launch a workflow/ action via the Navigator, launched using natural language</li> </ul>	
Generative AI / NLG	Add natural language commentary (short sentences) to events within the Navigator in real-time

# CASE STUDY DAY IN THE LIFE OF AN EXECUTIVE

# DAY IN THE LIFE SUPPLY CHAIN

Meet
our Chief Supply
Chain Operations
Officer, a driving force
behind a globally
renowned multibillion-dollar company,
steering a diverse
portfolio of consumer
brands.

The **Business Navigator** dives into action, analysing the implications.

The inventory alert triggers the activation of the **Personal Navigator**, advising our Chief to set up an immediate call with the Head of Production along with possible solutions.

The External
Navigator alerts him
about an unforeseen
disruption in global
shipping routes,
particularly impacting
imports from key
suppliers.

An alert surfaces through the **Business Navigator**, highlighting the potential decrease in imports and its direct impact on inventory levels.

# DAY IN THE LIFE

## **TECH CONSULTING**

Meet our CEO of a leading a billion-dollar company specializing in consulting, innovative technologies and digital services.

Navigator suggests including a dedicated section on regulatory compliance, ensuring that ongoing projects align seamlessly with the evolving regulatory landscape.

By incorporating regulatory compliance into the project plan and prioritizing a meeting with the project team, the company is strategically aligned with evolving industry regulations, ensuring continued success and resilience in the dynamic tech landscape.

The External
Navigator identifies a
critical regulatory
change that could
significantly impact a
client's industry.

The **Personal Navigator** recommend s prioritizing a meeting with the project team to ensure alignment with the new regulatory priorities.

# THANK YOU
