Data Security: Copilot for Microsoft 365

Why KMicro's Data Security for M365 Copilot?

When it comes to Generative AI or any Artificial Intelligence, the results you get are only as good as the data you provide the tools. This is why KMicro has gone all in on helping organizations understand their M365 Data Landscape and the security that it entails. Within Microsoft there are awesome tools like Microsoft Purview, Microsoft Defender for Cloud Applications, Microsoft Defender and Microsoft Sentinel that all play a part in organizations understanding, visualizing, protecting AND using their data effectively! As part of this workshop Customers will review and pilot tools across the Microsoft 365 Data Security Landscape:

- Microsoft Purview
- Microsoft Defender for Cloud Applications
- Microsoft Sentinel
- Microsoft Azure
- Microsoft Insider Risk Management

Microsoft Services Covered
