# About Us

Code Creators is a leading software development company and digital transformation consultancy based in Canada. We are committed to providing unique, innovative and customized software solutions that can connect, integrate and revolutionize your organization.

Code Creators was founded with a vision to create optimal and innovative digital work environments that enhance productivity, collaboration and information governance.

We specialize in highly customized SharePoint, Power Platform and Office 365 solutions using an intuitive and aesthetic design approach that transforms the way people work. Our digital solutions are purpose-built to enable your organization to securely share and manage content, knowledge, and applications that empower teamwork and seamless collaboration across the board.

# What is IntraSync?

IntraSync offers a comprehensive SharePoint Intranet Implementation Solution designed to revolutionize digital workplaces. Through collaborative discovery sessions, tailored solution design, and seamless deployment, IntraSync transforms organizations by centralizing communication, collaboration, and knowledge sharing. With intuitive interfaces, personalized dashboards, and automated workflows, IntraSync streamlines processes, enhances productivity, and fosters a culture of innovation.

From document management to project collaboration, IntraSync empowers businesses to thrive in the digital age by providing scalable, future-ready solutions that adapt to evolving needs. Moreover, IntraSync's commitment to showcasing real-world success is exemplified through the inclusion of case studies in the document, demonstrating how organizations have benefited from the implementation of IntraSync's SharePoint solutions. These case studies highlight the challenges faced, the solutions implemented, and the tangible outcomes achieved, providing valuable insights into the transformative power of IntraSync.

# Our Key Metrics

Global Reach: Operations span across North America and Asia.

---

01

Team Strength: Over 120 dedicated engineers driving innovation.

---

02

Tech Excellence: Specializing in the Microsoft suite and Data services.

---

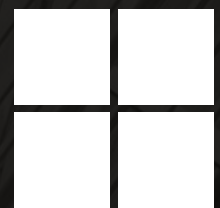

03

Expertise across SharePoint, Power Platform, PowerBI, and AI.

---

04

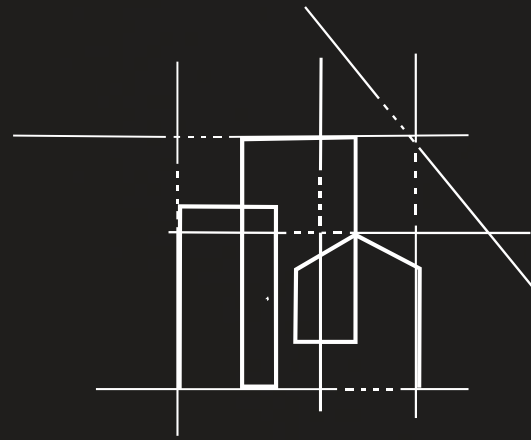

Solutions Partner with Microsoft Digital Apps & Innovation

05

# Code Creators: Pioneering Digital Excellence

Your global tech vanguard: Empowering businesses with strategic solutions.

**Foundation:**  
Established in 2018 with a global footprint.

**Client Portfolio:**  
Partnering with over 200 businesses across North America.

**Tech Deployments:**  
Proud of our 500+ successful implementations across our diverse technology stack.

**Specialization:**  
Leaders in data architecture, business process automation, and data insights.

# Our Services

## Office 365 Consulting

We offer holistic digital workplace solutions using Office 365 technologies.

## SharePoint Consulting

Maximize SharePoint's power with our expert consulting. From migration to optimization, we offer tailored solutions for secure collaboration. Partner with us for seamless integration and digital success.

## AI Implementations

Unlock AI's potential with our seamless implementation services. From strategy to execution, we tailor solutions for transformative results.

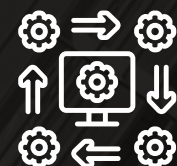

## API Integrations and Dashboards

We offer advanced API Integrations and Dashboards solutions to seamlessly connect your systems and deliver actionable insights for informed decision-making.

## Contact Center Solutions

We provide state-of-the-art Contact Center Solutions designed to revolutionize customer experience, streamline operations, and drive business growth.

## Workflow Automation using Power Automate and Power Apps

We offer expertise in workflow automation, streamlining and automating HR workflows like onboarding and offboarding, and IT workflows like ticketing solutions.

## Business Intelligence

We augment vital business data with visual reporting tools including Dashboarding & Reporting, Power BI.

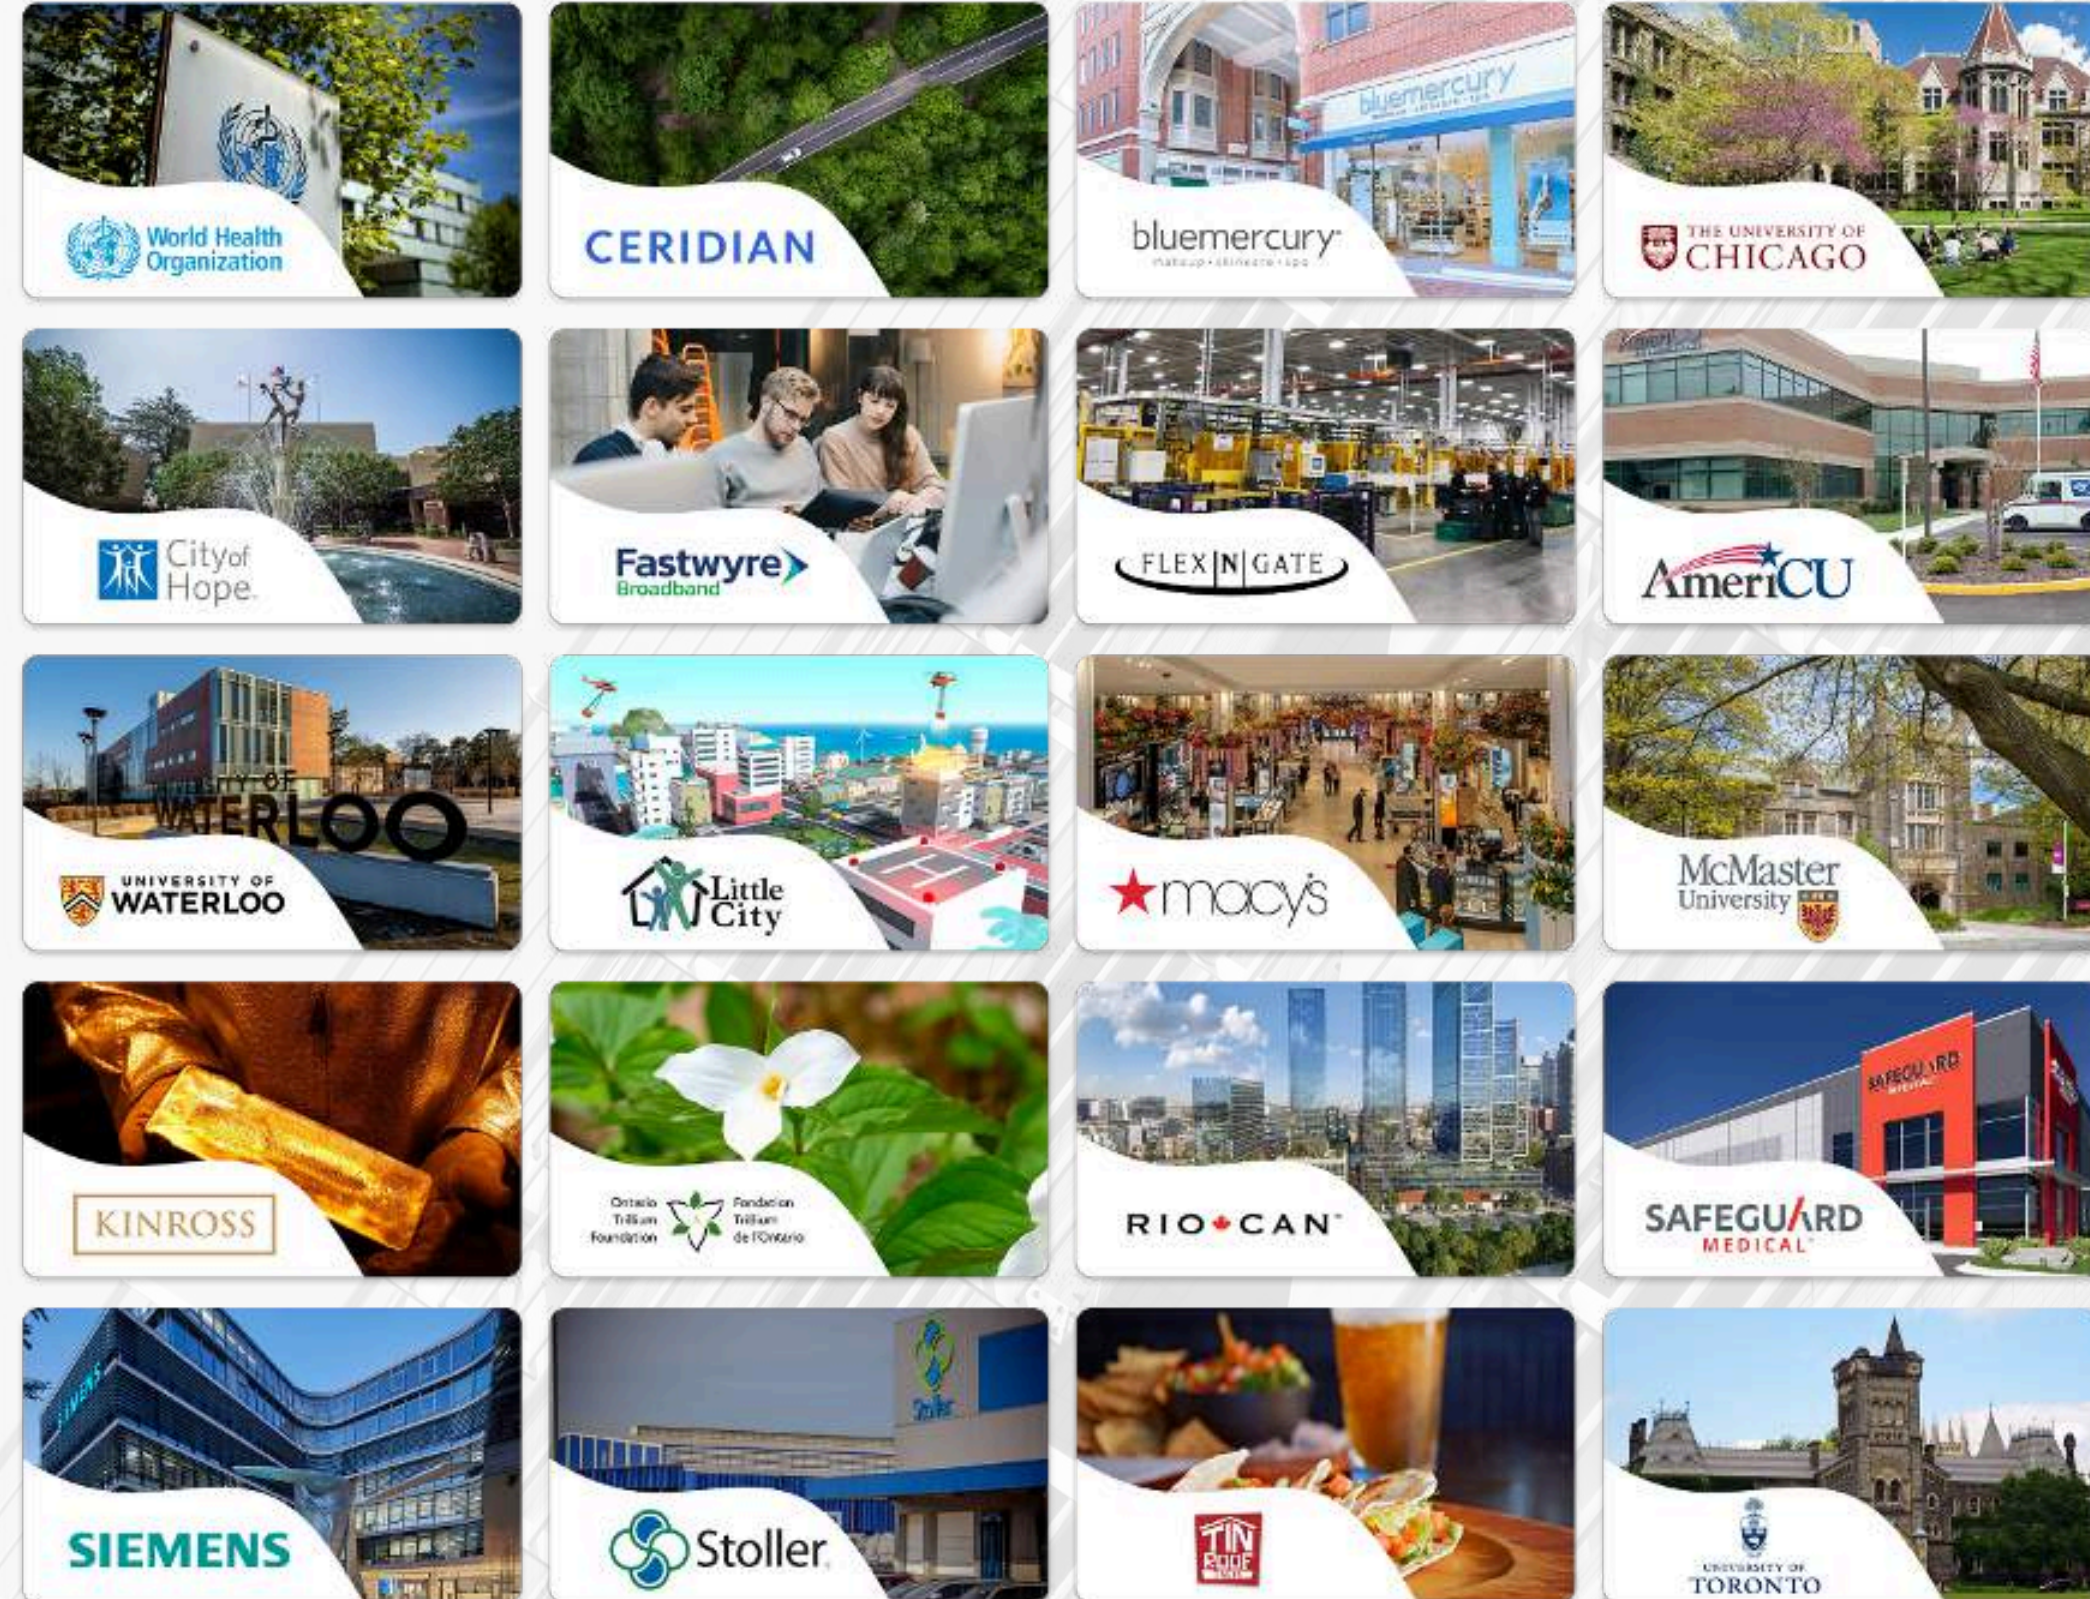

## Microsoft Dynamics Consulting

We offer CRM implementations to automate all key processes across marketing, sales and customer service.

# Our Clients

# Modern SharePoint Intranet Case Studies

Modern SharePoint intranets have transformed internal collaboration. Case studies reveal their impact: a multinational streamlined communication, a healthcare institution enhanced document management, and a tech startup fostered innovation. These examples showcase SharePoint's versatility and effectiveness in driving organizational success.

# Organization-wide Intranet Overhaul

**The Challenge:** A large multinational corporation with dispersed teams across the globe struggled with outdated intranet systems that hindered communication and collaboration. Employees faced difficulties accessing information, navigating the intranet, and connecting with colleagues across different regions.

**The Solution:** Our team conducted extensive stakeholder interviews and user surveys to identify pain points and requirements. We designed and implemented a modern SharePoint intranet solution with a user-centric approach, featuring intuitive navigation, personalized dashboards, and social collaboration tools. Customized document libraries, news feeds, and team sites were created to streamline content management and foster cross-departmental collaboration.

# The Outcome

- **Significantly improved employee engagement and satisfaction:** The implementation of the dynamic SharePoint intranet solution led to a noticeable increase in employee engagement levels. Employees felt more connected to their peers and the organization as a whole, leading to higher job satisfaction and morale.
- **Streamlined communication and collaboration across departments and geographical locations:** The intranet solution facilitated seamless communication and collaboration among employees, regardless of their physical location or department. This streamlined flow of information fostered cross-departmental collaboration and innovation.
- **Enhanced knowledge sharing and transparency within the organization:** By providing easy access to discussion forums, employee directories, and social networking tools, the intranet platform encouraged knowledge sharing and transparency. Employees felt more empowered to share ideas, ask questions, and contribute to organizational initiatives.
- **Positive feedback from employees on the sense of community and engagement:** Employees expressed appreciation for the sense of community and engagement fostered by the new intranet platform. They felt more valued and connected to their colleagues, which positively impacted their overall job satisfaction and commitment to the organization.

# Digital Transformation with SharePoint

**The Challenge:** A mid-sized manufacturing company faced challenges with outdated legacy systems and siloed data, hindering agility and innovation. The lack of integration between disparate systems resulted in inefficiencies, manual processes, and delays in decision-making.

**The Solution:** Our team spearheaded a digital transformation initiative, leveraging SharePoint as the central platform for modernizing the organization's intranet and digital workplace. We integrated SharePoint with existing systems, including ERP and CRM solutions, to create a unified ecosystem for data management, collaboration, and business intelligence. Custom PowerApps and workflows were developed to automate routine tasks and streamline processes across departments.

# The Outcome

- **Increased operational efficiency and cost savings:** SharePoint intranet solutions automate tasks, streamline workflows, and optimize processes, resulting in improved efficiency and significant cost savings.
- **Improved data visibility and accessibility:** Centralizing data in SharePoint enhances visibility and accessibility, enabling better decision-making and strategic planning.
- **Enhanced agility and adaptability:** SharePoint intranet solutions facilitate quick responses to market changes, accelerating product development cycles and maintaining competitiveness.
- **Strengthened employee engagement and innovation:** By fostering collaboration and knowledge sharing, intranet solutions boost engagement and cultivate an innovative culture within the organization.
- **Greater scalability and future readiness:** Designed for scalability, SharePoint intranet solutions support growth and evolving business needs, ensuring readiness for future expansion.

# Streamlining Document Management

**The Challenge:** A mid-sized manufacturing company faced challenges with outdated legacy systems and siloed data, hindering agility and innovation. The lack of integration between disparate systems resulted in inefficiencies, manual processes, and delays in decision-making.

**The Solution:** Our team conducted a thorough assessment of the firm's document management workflows and identified opportunities for improvement. We customized SharePoint document libraries and metadata to enforce standardized naming conventions and facilitate easy categorization and searchability. Automated approval workflows and version control mechanisms were implemented to ensure document integrity and compliance with industry regulations.

# The Outcome

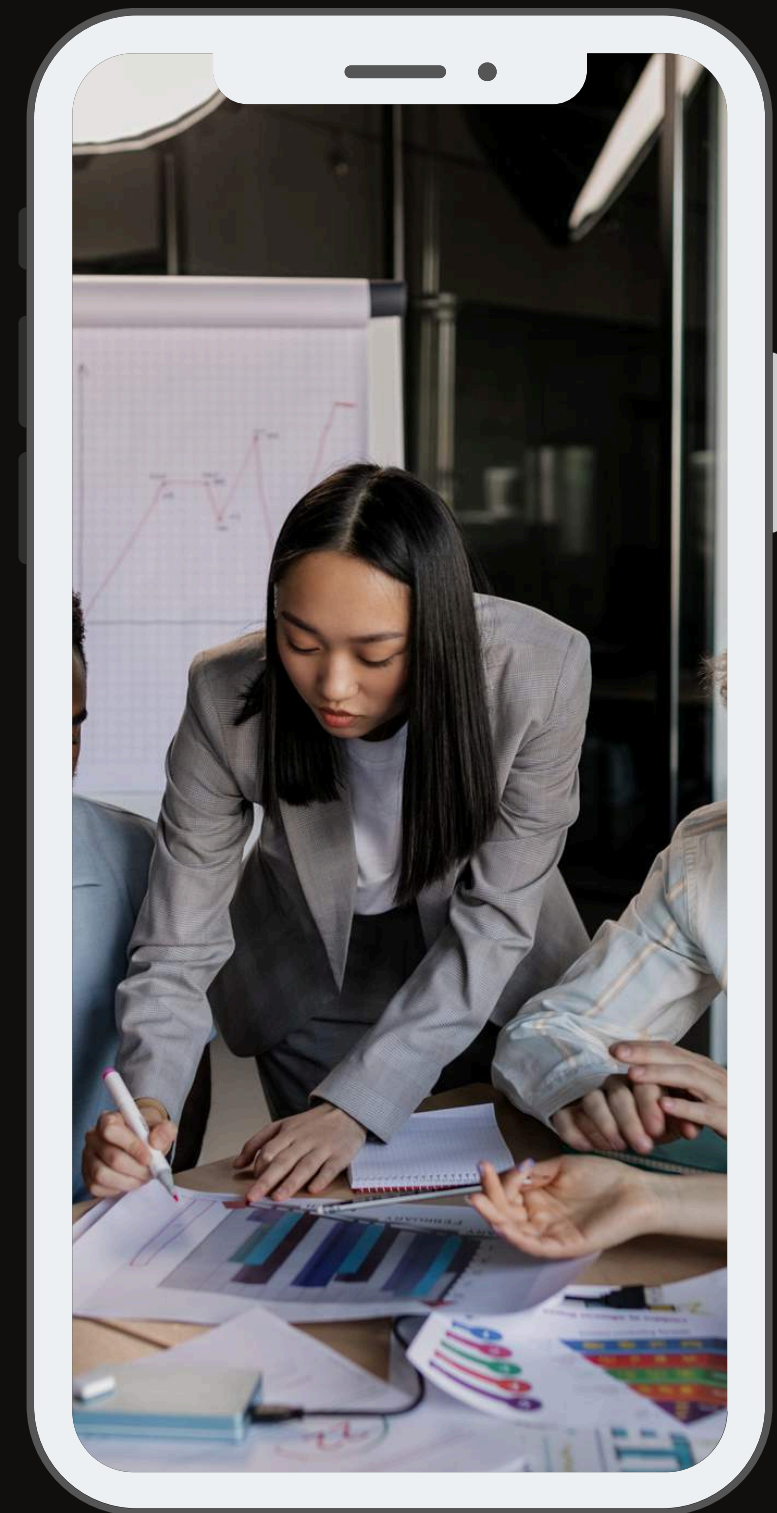

- **Drastic reduction in document retrieval times and errors:** SharePoint document management systems drastically reduce the time spent searching for documents and minimize errors through centralized storage, intuitive search, and version control.
- **Enhanced compliance with regulatory requirements and industry standards:** SharePoint ensures compliance with regulations by offering features like versioning, access controls, and audit trails, fostering trust and reducing the risk of non-compliance penalties.
- **Improved collaboration and knowledge sharing:** SharePoint facilitates seamless collaboration and knowledge sharing among teams with real-time access to documents and collaboration tools, fostering innovation and competitiveness.
- **Increased productivity and time savings:** Automation of manual tasks and streamlined workflows in SharePoint document management systems free up employees' time for strategic activities, boosting productivity and enabling faster decision-making.
- **Positive stakeholder feedback:** Stakeholders praise the efficiency and effectiveness of SharePoint document management systems, appreciating features like improved search, compliance, and productivity, leading to widespread adoption and satisfaction.

# Enhancing Employee Engagement

**The Challenge:** A medium-sized technology company noticed a decline in employee engagement and collaboration, leading to reduced productivity and innovation. With a dispersed workforce spanning multiple locations, employees struggled to stay connected, share knowledge, and participate in company-wide initiatives.

**The Solution:** Our team conducted a series of focus groups and surveys to understand the root causes of low employee engagement. Leveraging SharePoint's social collaboration features, we designed and implemented a dynamic intranet solution that fostered community-building, knowledge sharing, and employee recognition. Discussion forums, employee directories, and social networking tools were integrated to facilitate connections and foster a sense of belonging.

# The Outcome

- **Improved Employee Morale and Satisfaction:** Modern SharePoint intranets significantly enhance employee morale and satisfaction by streamlining communication channels and providing enhanced accessibility to resources. This fosters a more cohesive work environment where employees feel more connected and engaged with their work and colleagues.
- **Increased Participation in Company-Wide Initiatives and Knowledge-Sharing Activities:** With modern SharePoint intranets, organizations experience a notable increase in employee participation in company-wide initiatives and knowledge-sharing activities. The intuitive interface and robust features of these platforms drive collective learning and engagement, empowering employees to contribute their insights and expertise across the organization.
- **Enhanced Collaboration and Innovation Culture:** SharePoint intranets serve as centralized hubs for collaboration and innovation culture, transcending departmental and geographical boundaries. By providing a platform for seamless idea exchange, project collaboration, and cross-functional communication, these intranets foster a dynamic environment where collaboration thrives and innovative ideas flourish.
- **Strengthened Employee Retention and Loyalty:** Organizations leveraging modern SharePoint intranets observe strengthened employee retention and loyalty. Improved communication channels and recognition mechanisms on the intranet platform nurture a sense of belonging among employees, enhancing their commitment to the organization's goals and values.

# Mobile Intranet Accessibility

**The Challenge:** A growing retail chain with a large workforce of frontline employees struggled with limited access to intranet resources on mobile devices. Store managers and sales associates faced challenges in accessing important updates, training materials, and operational documents while on the go, leading to communication gaps and operational inefficiencies.

**The Solution:** Recognizing the need for mobile accessibility, our team developed a mobile-responsive SharePoint intranet solution tailored to the needs of frontline employees. Leveraging SharePoint's mobile app capabilities, we redesigned the intranet interface to ensure seamless access to critical resources, such as product information, sales reports, and shift schedules, from any device. Custom PowerApps were created to enable offline access and data capture, empowering employees to stay connected even in areas with poor network coverage.

# The Outcome

- **Improved Communication and Information Access for Frontline Employees:** Frontline employees benefit from enhanced communication channels and easier access to information, leading to faster decision-making and problem-solving.
- **Enhanced Operational Efficiency and Productivity:** Mobile-enabled workflows and task management tools boost operational efficiency and productivity, streamlining processes across the organization.
- **Increased Employee Satisfaction and Engagement:** Frontline staff feel more connected and supported by the organization, resulting in increased satisfaction and engagement among employees.
- **Reduced Training Time and Onboarding Costs for New Hires:** Training materials and resources readily accessible on mobile devices decrease training time and onboarding costs for new hires, optimizing the onboarding process.
- **Positive Feedback on Convenience and Usability of Mobile Intranet Solution:** Store managers and sales associates praise the convenience and usability of the mobile intranet solution, highlighting its effectiveness in enhancing their work experience.

# Partner with Code Creators to unlock the full potential of your Organization!
