Migrate your Microsoft Access database to an Azure cloud environment with IT Impact

ABOUT IT IMPACT:

IT Impact is a Microsoft Gold partner that specializes in Microsoft Access. We assist companies with all of their Access needs and help them securely migrate to Microsoft Azure. Our founder, Juan Soto, is one of only 17 Microsoft Access MVPs in the world.

See what customers are saying:

"IT Impact changed the way we do business. I believe my office is more advanced and efficient than any other Labor Union office in the U.S. and Canada. Before my new system, I had to go to seven different places to change one address."

– Laura Melphy, Secretary, Labor Union of Colorado

WHAT WE OFFER

We know that you've invested a lot of time and effort in creating a great Microsoft Access solution that works for your organization. So, why throw it away to start from scratch with a web app? Our team of Microsoft Access experts will meet with you to review your database and make sure it's ready to be migrated to the cloud.

We'll work with you to correct any issues—such as slow speeds or poor performance—before the migration. Then, we'll migrate your data to a Microsoft Azure SQL Database environment and use techniques and strategies we've developed over the years to ensure that it runs at optimum speed.

Our team will enforce encryption to and from the cloud to avoid man-in-the-middle attacks. We can also enable Azure VPN for added security where needed. Once your data is in the cloud, you can continue to use Access via Office 365, backed by the security, flexibility, and scalability of Azure.

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simply, monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.

Key use cases

Business-class email
Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

Cloud storage
Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

Meet online
Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

Collaborate, chat privately
Accelerate your mobile app development by using a backend hosted on Microsoft Azure.
