

SIILI®

Cloud Advisory

Making your cloud real

Are you using the modern cloud solutions **effectively** to provide best possible value?

Are your business processes **compatible** with a modern cloud operating model?

Advisory Services

Are you using the modern cloud solutions effectively to provide best possible value?

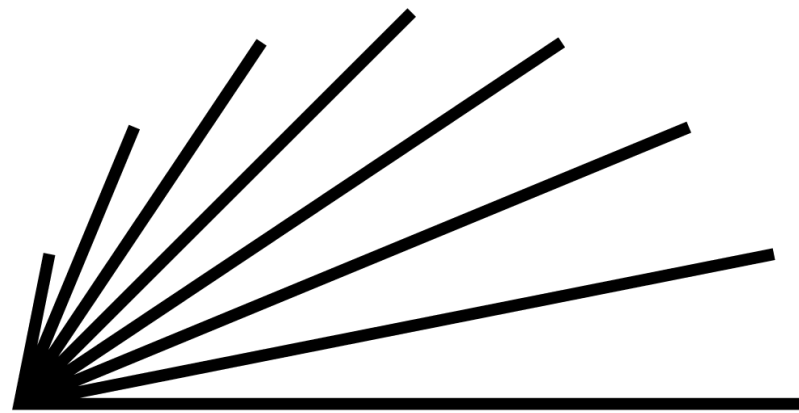

Are your business processes compatible with a modern cloud operating model?

Siili uses proven methodologies and tools to help you to assess the effectiveness of your environments, solutions, and ways of working.

Our advisors work with you for the big picture and roadmap, which will help you to make the right decisions in the right order to be successful in your cloud journey.

With up-to-date cloud operations and business models, you will increase your potential to have success in your cloud adoption journey.

SIILI®

We make it real

Siili is your Finnish full-service development partner for innovating, designing, building, and running digital services. We take your ideas from the drawing board to provide tangible value.

We are international

Over 1000 experts and a network of partners offer flexible solutions, from turn-key solutions to expert teams.

We embrace culture and learning

We prioritize honesty, professionalism, and employee satisfaction, investing in our people through learning communities to enhance their skills.

We deliver

We deliver quality solutions to valued clients across key industries. With a 93% retention rate and profitable growth since 2005, we are famous for problem-solving and cooperation.

Already there, how do I improve?

Optimize My Cloud

I'm not sure if the cloud is for me?

Design My Strategy

I'm ready, how do I start?

Build My Cloud

Design my strategy & vision

Understanding Your Business Needs:

The nature of your business forms the bedrock of our strategy formulation process.

Crafting a Winning Vision:

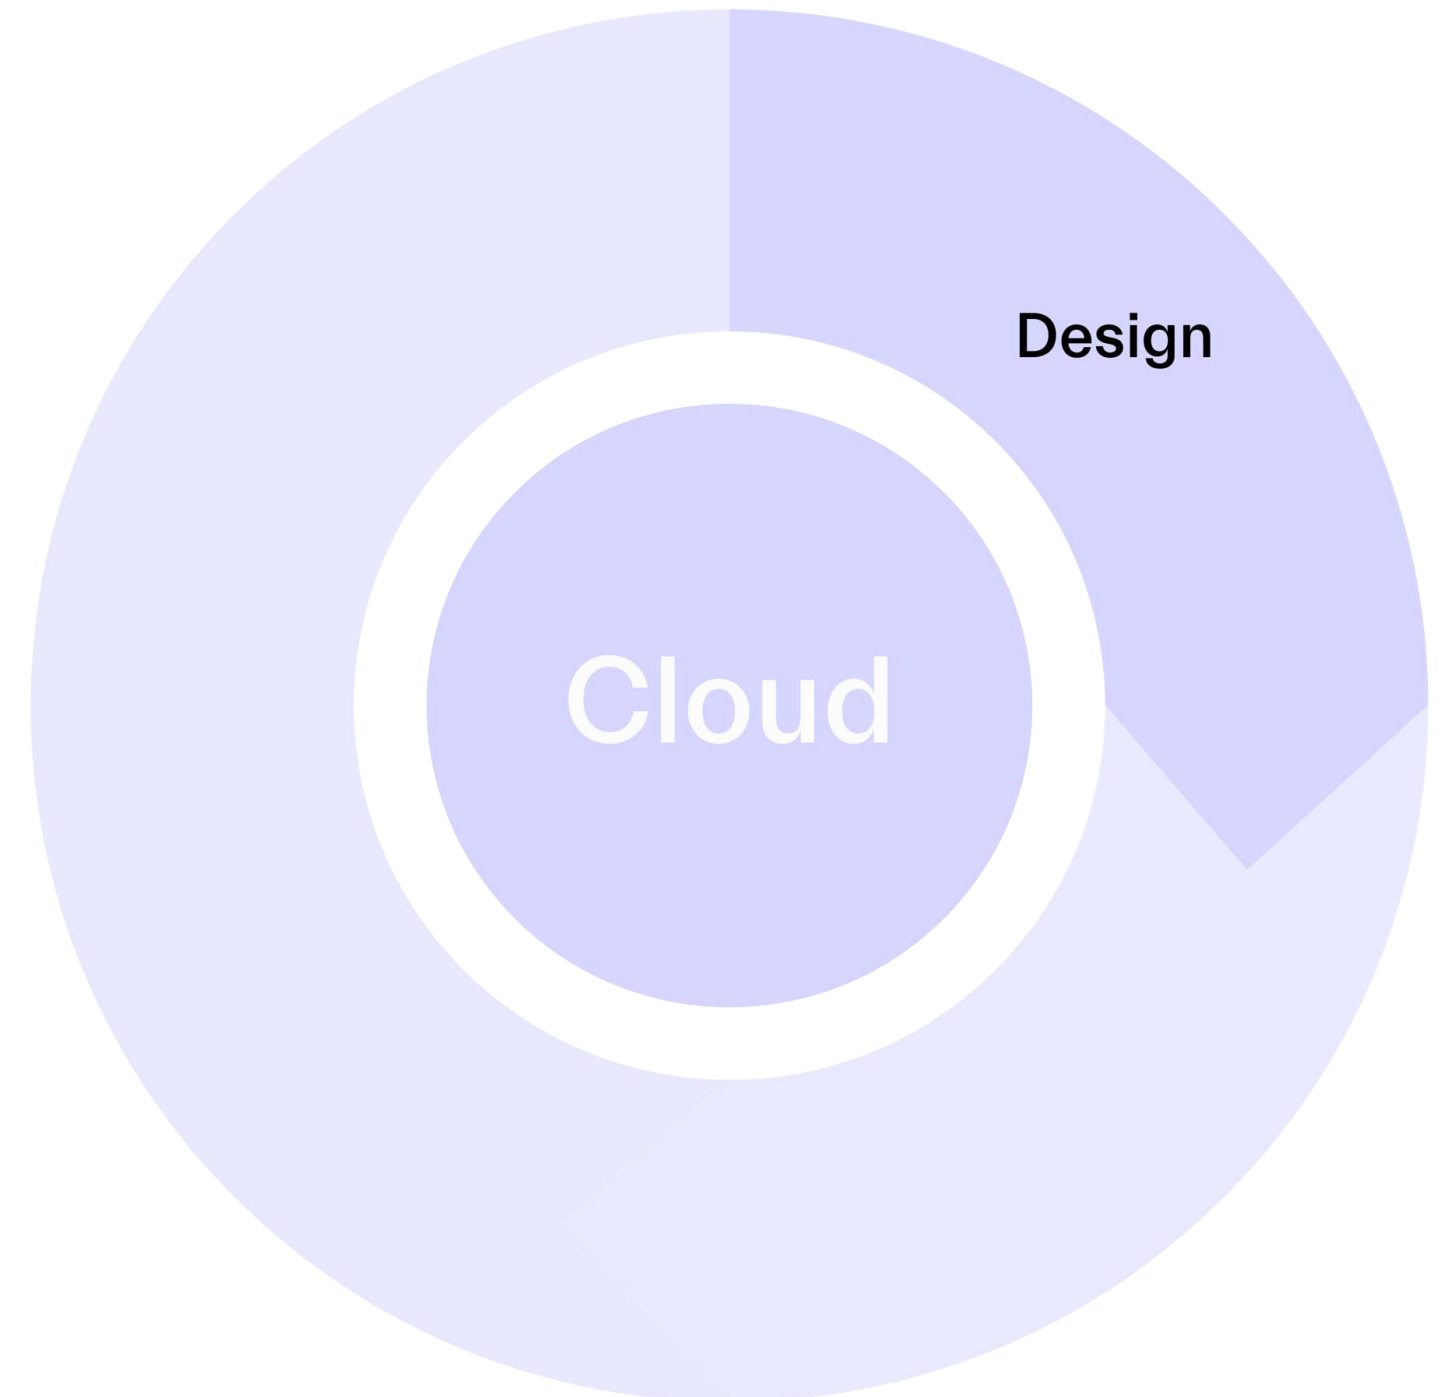

Together, we confront and overcome challenges, resulting in a cloud vision that's actionable and transformative.

From vision to strategy and beyond:

As times change, so do product value creation norms. Together we will create a strategy that can expand and accommodate changes in your business.

Concrete:

The strategy we craft will guide you on how to best leverage the public cloud, how to start and where to go from there.

Design my strategy & vision

Outcomes

Cloud Assessment Executive Summary

Objectives of the assessment, key findings, recommended actions.

Current State Analysis

On-premise and cloud infrastructure, data storage solutions, automation and expected lifecycles. Utilization and cost analysis. Compliance review.

Cloud Readiness Report

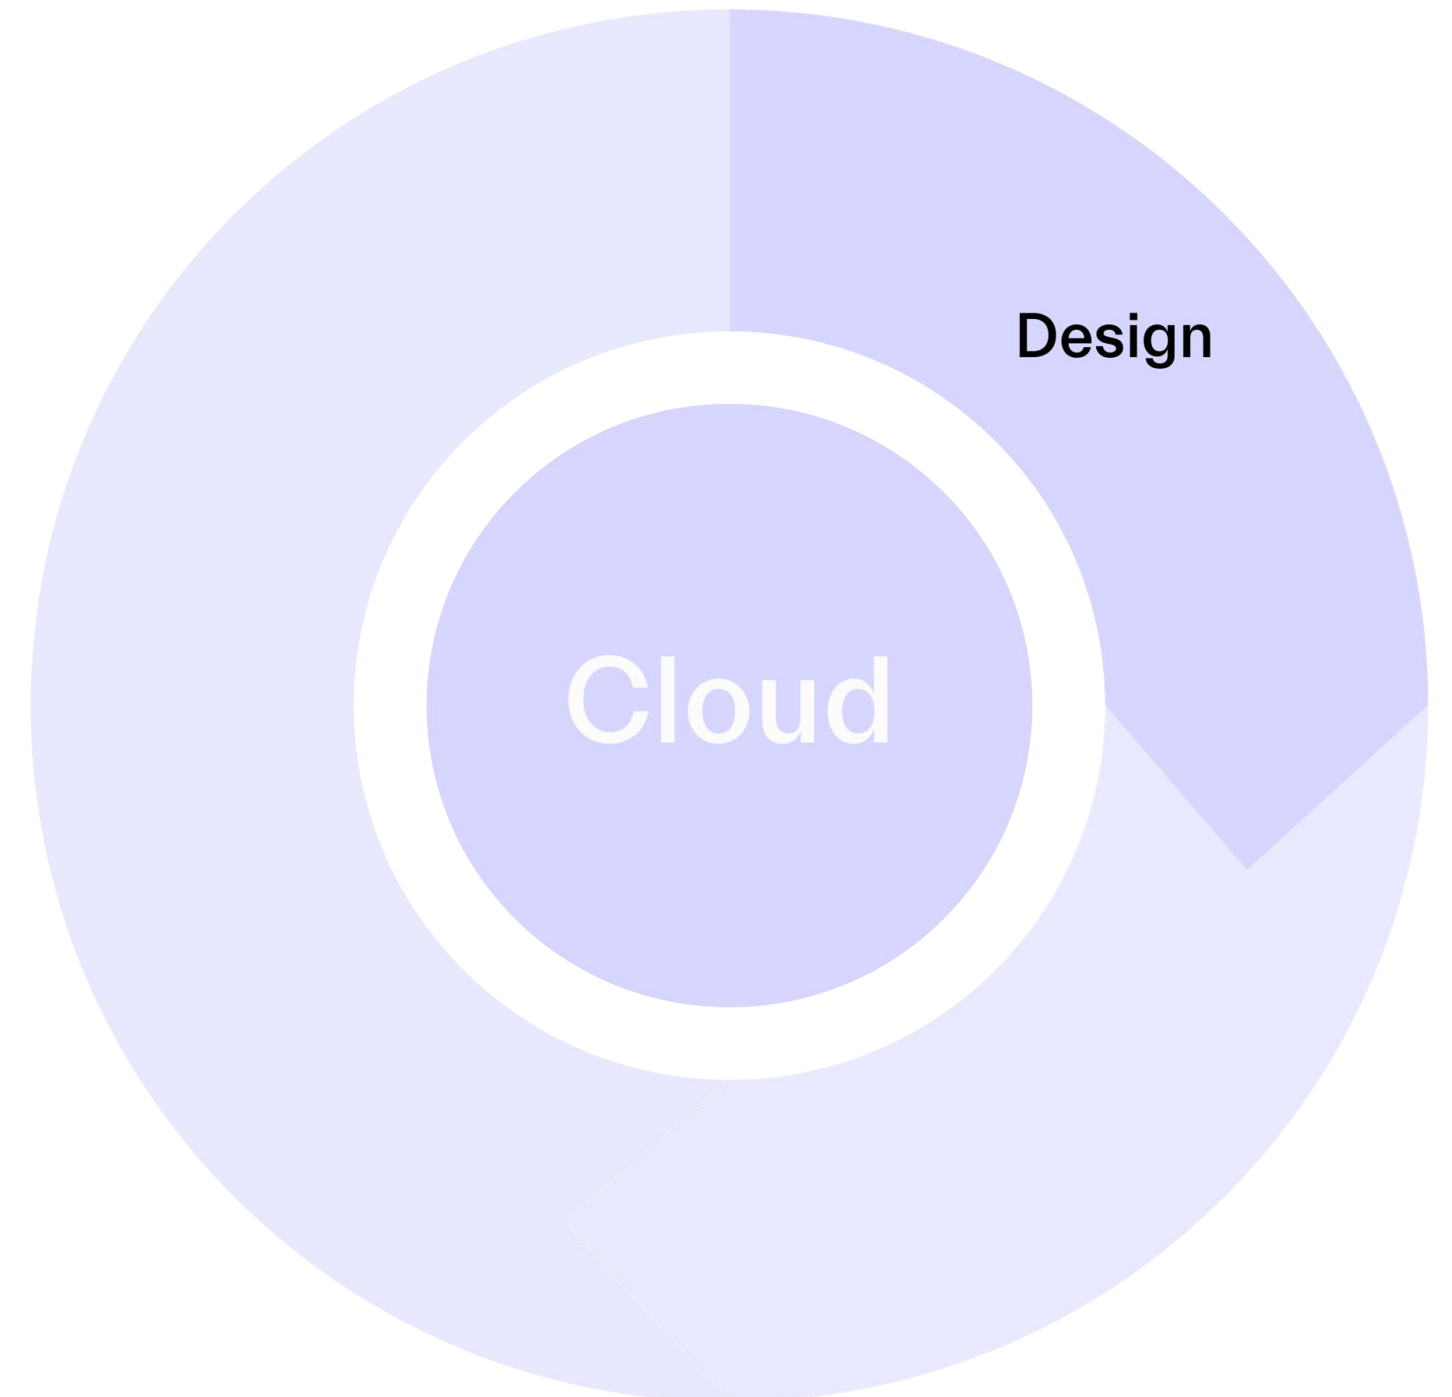

Compatibility analysis, skillset evaluation, security & compliance, governance model analysis.

Cloud Strategy & Roadmap

Migration strategies, optimization recommendations, timeline & milestones, governance model recommendations.

Risk Management & Mitigation

Risk and threat analysis, mitigation strategies.

Build my cloud

Getting started:

Whether it's a migration initiative or a fresh start, Siili ensures that your journey is marked by strategic foresight, safety, and cost-efficiency.

Best Practices & Custom Solutions:

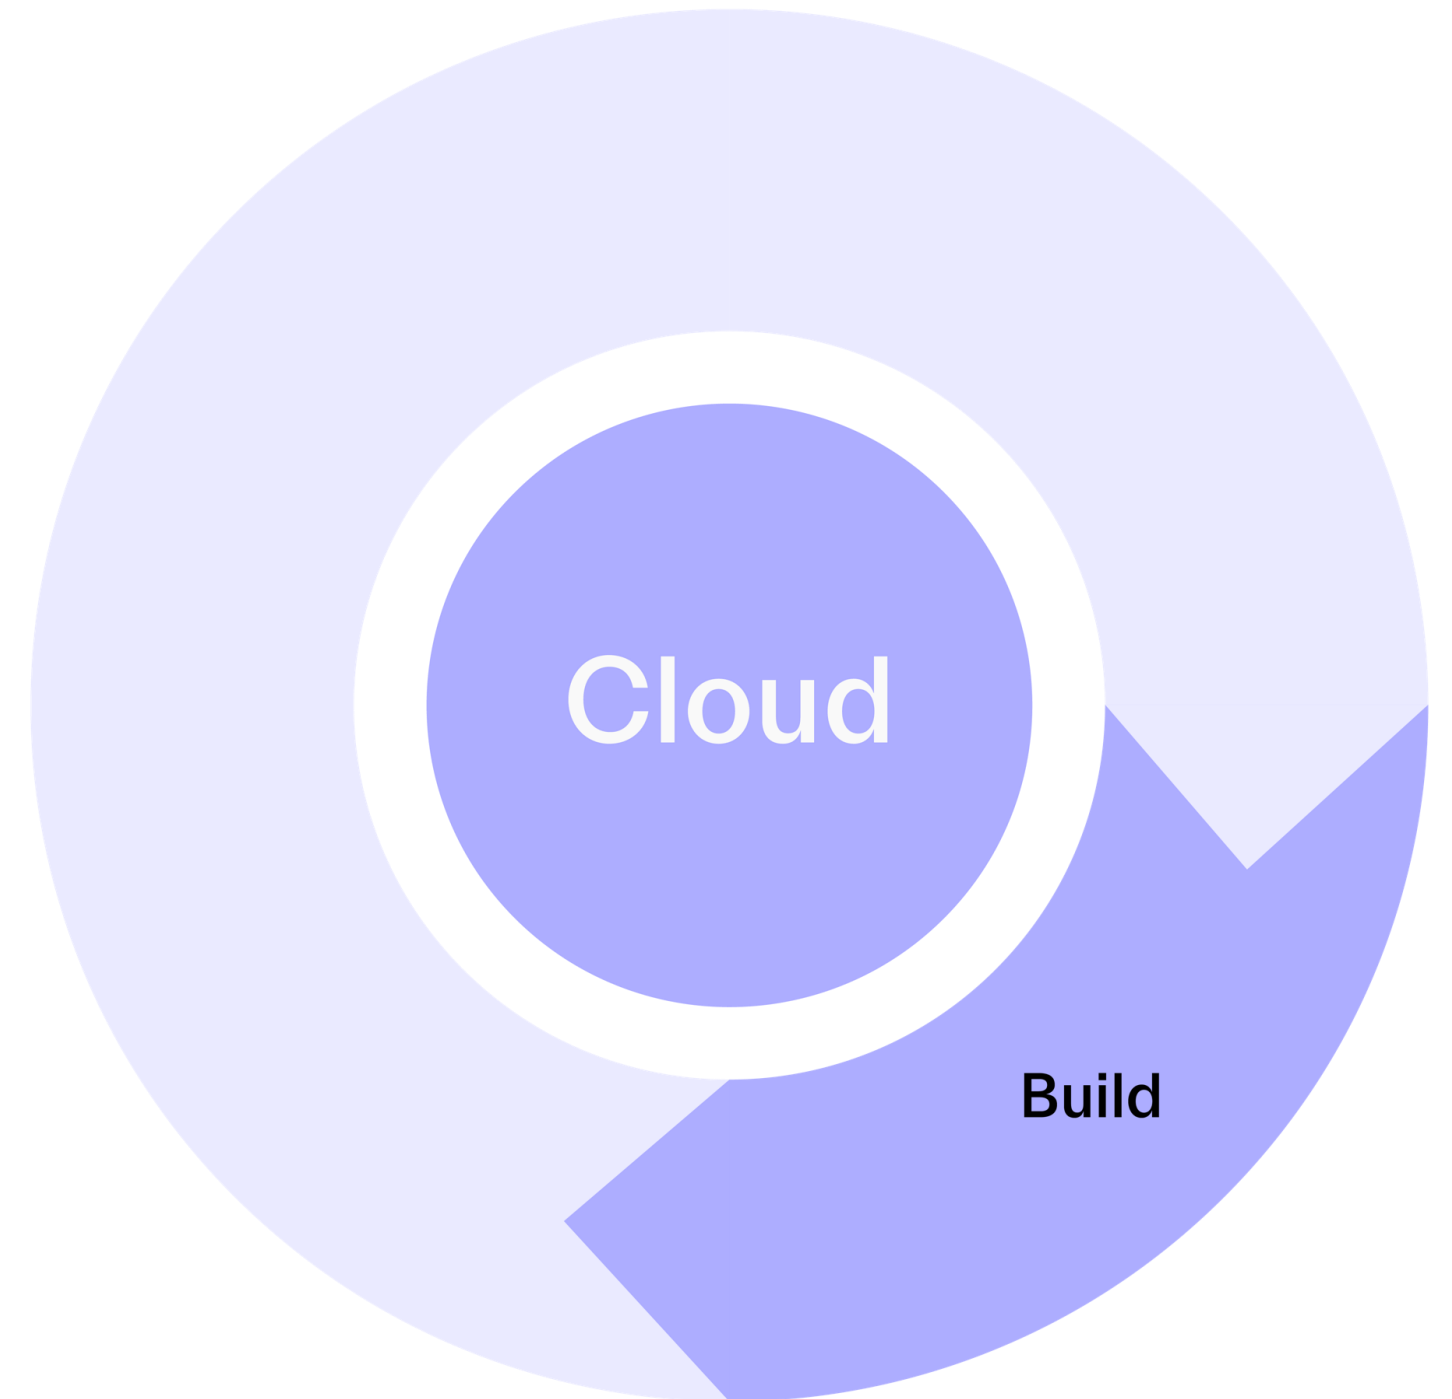

We use vendor-recommended best practices spanning infrastructure, security, and DevOps.

Comprehensive Support:

Whether you need hosting, servicing, building, or maintenance, Siili ensures your cloud is always up and running.

Actionable:

Together we will create plans that can be immediately put to work to produce high quality migrations or new software.

Build my cloud

Outcomes

General guidance on

Governance model, technical implementation cookbook, compliancy

Cost & ROI Projection

Projected costs, ROI analysis

Cloud Adoption Framework Alignment

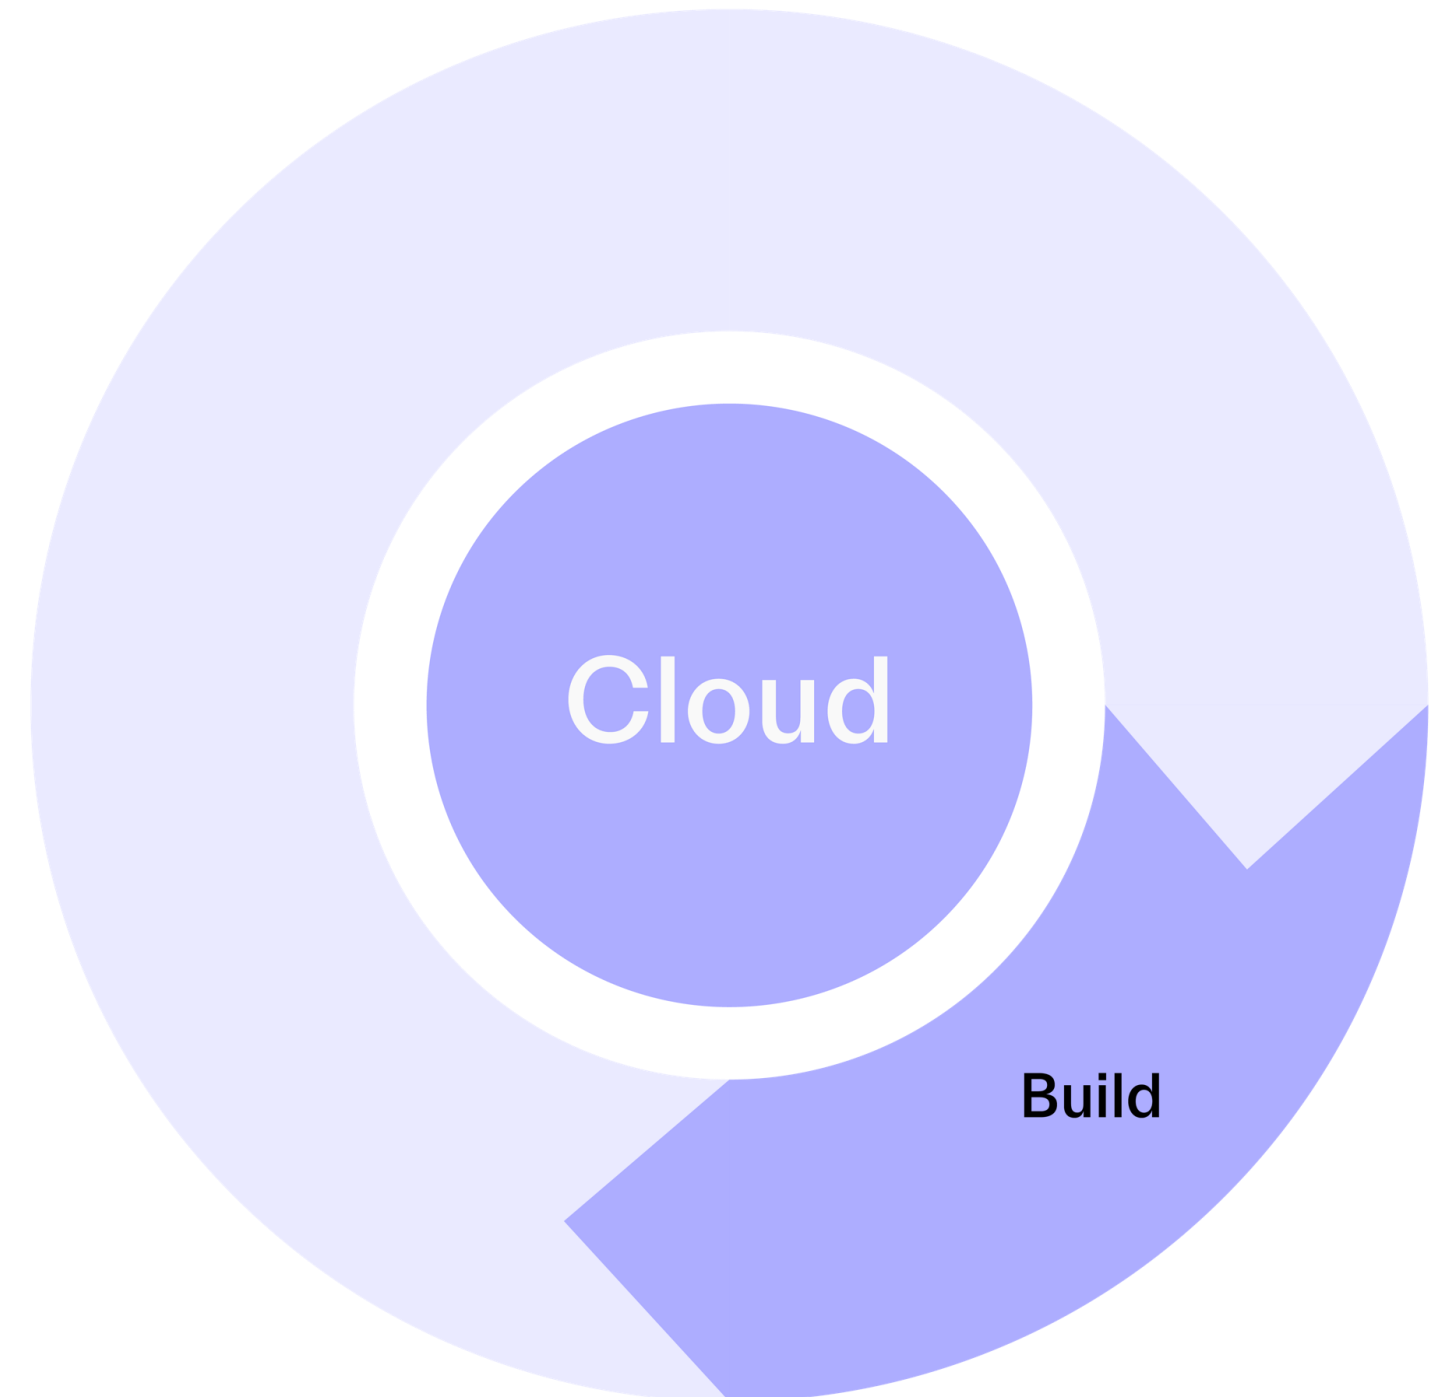

CAF pillars analysis, gap analysis

Training & Skill Development Plan

Skill gap analysis, training resources & recommendations

Implementation & Follow-Up Schedule

Migration & implementation schedule, review checkpoints

Optimize my cloud

Cost optimization:

Resource optimization and automation are crucial to ensuring that your cloud infrastructure is not just robust but also cost-effective.

Regular Audits:

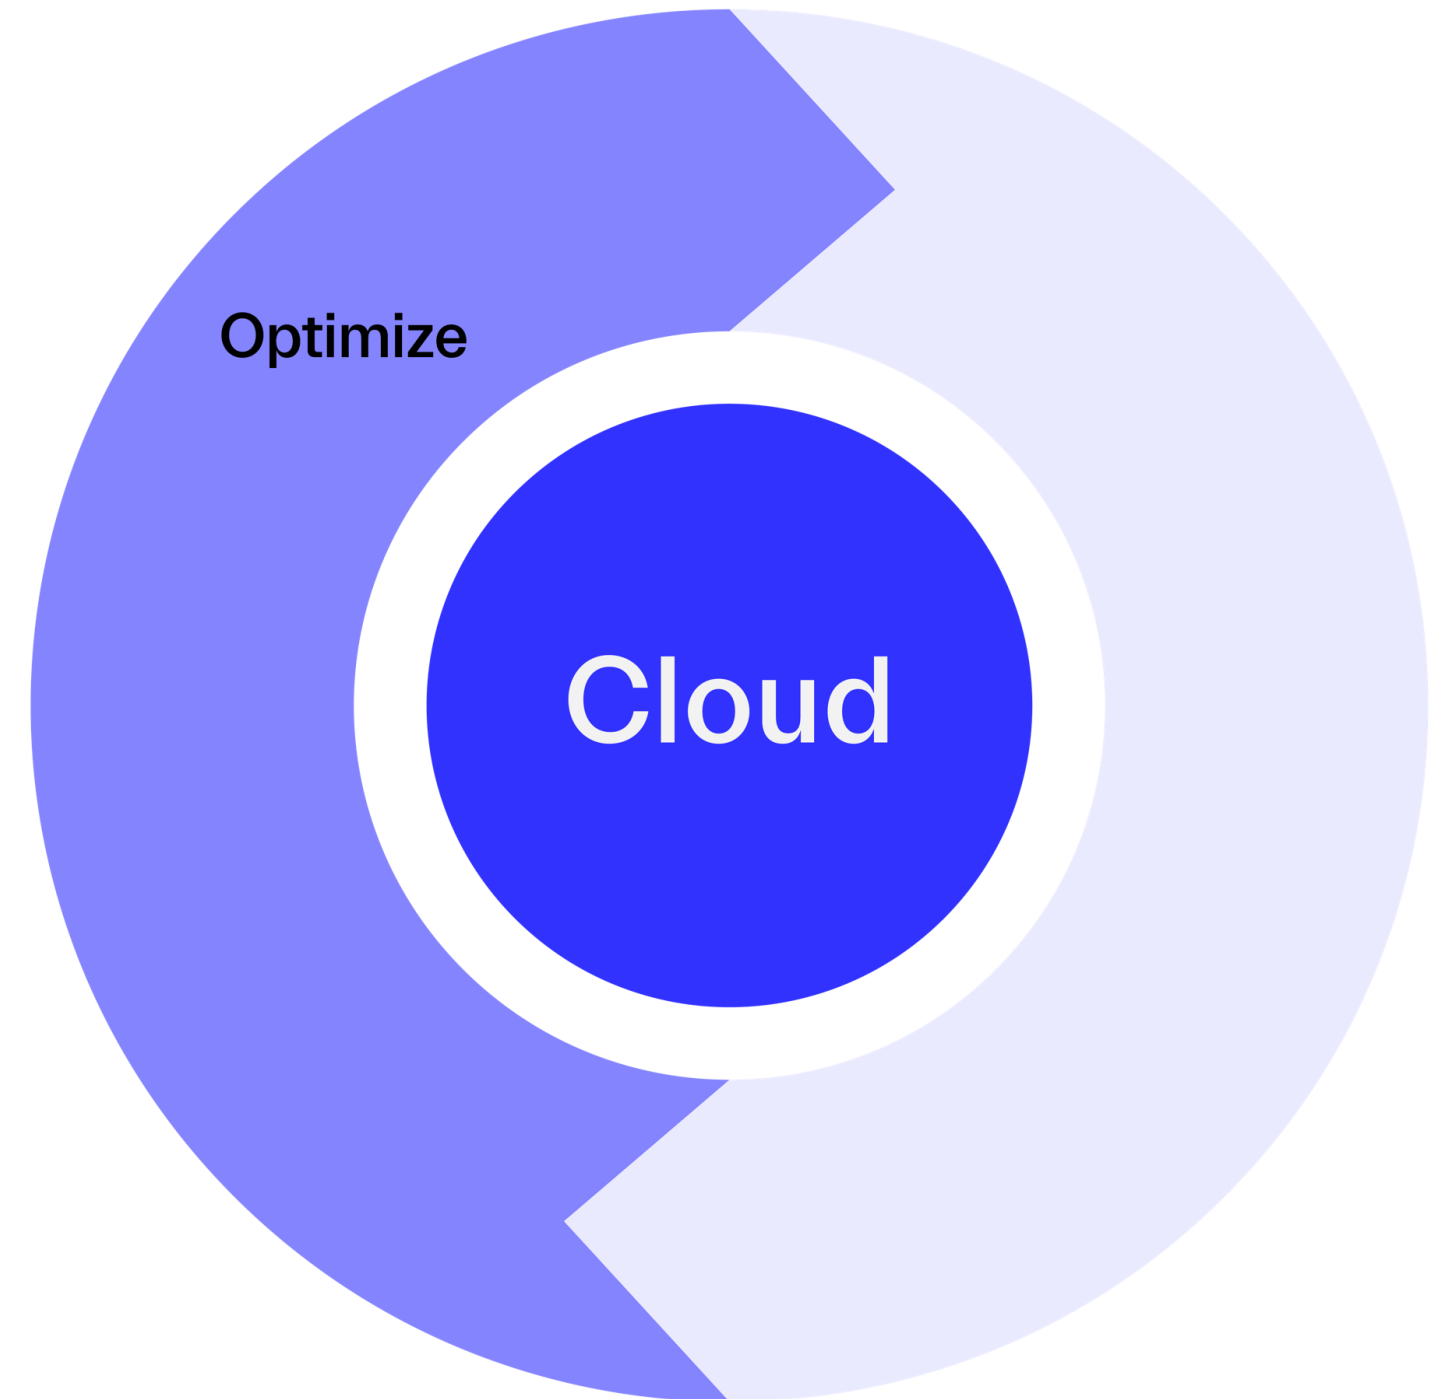

Essential to guaranteeing services align with best practices, our audits are tailored to your needs.

Continuous Improvement:

From refining delivery routines to suggesting infrastructure modifications, our goal is to amplify your cloud's value proposition through reviews.

Open recommendations:

you will receive documents detailing the recommendations which you can implement independently.

Optimise my cloud

Outcomes

Well-architected review

Cost optimization – FinOps

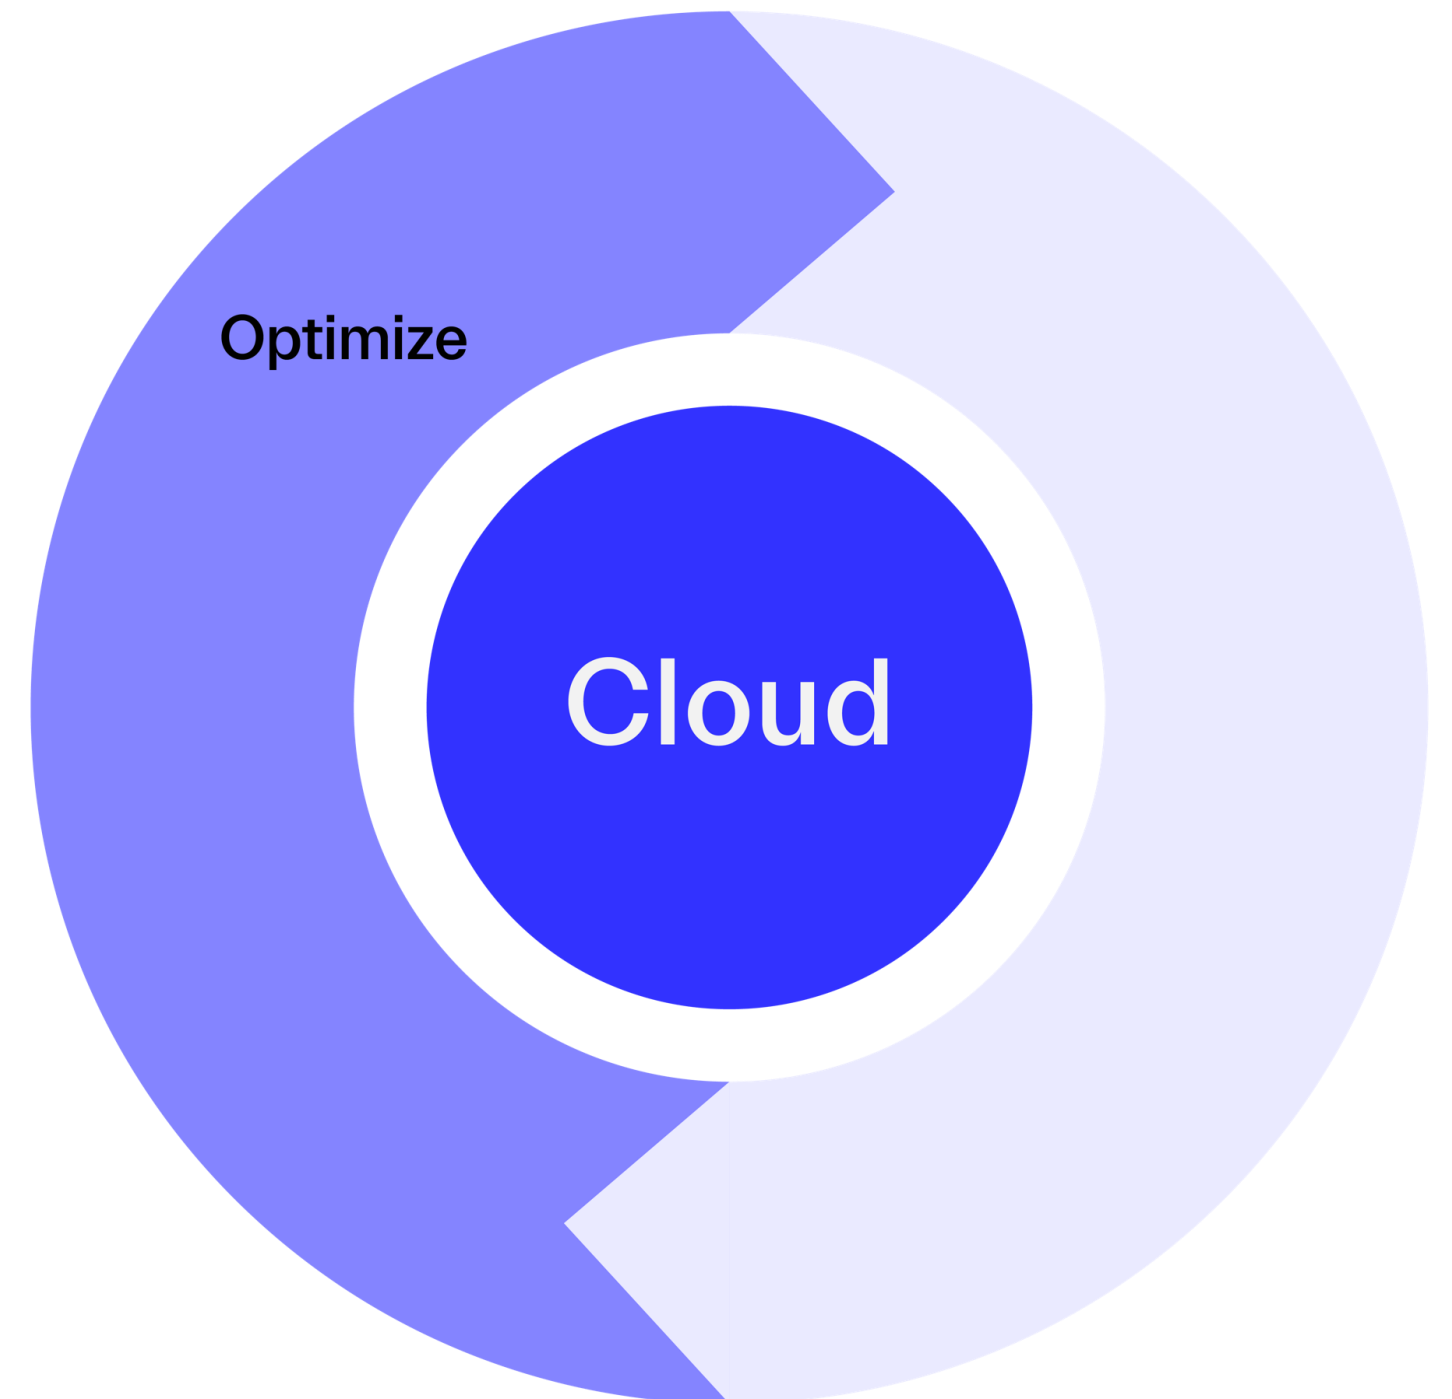

Security posture improvement – DevSecOps

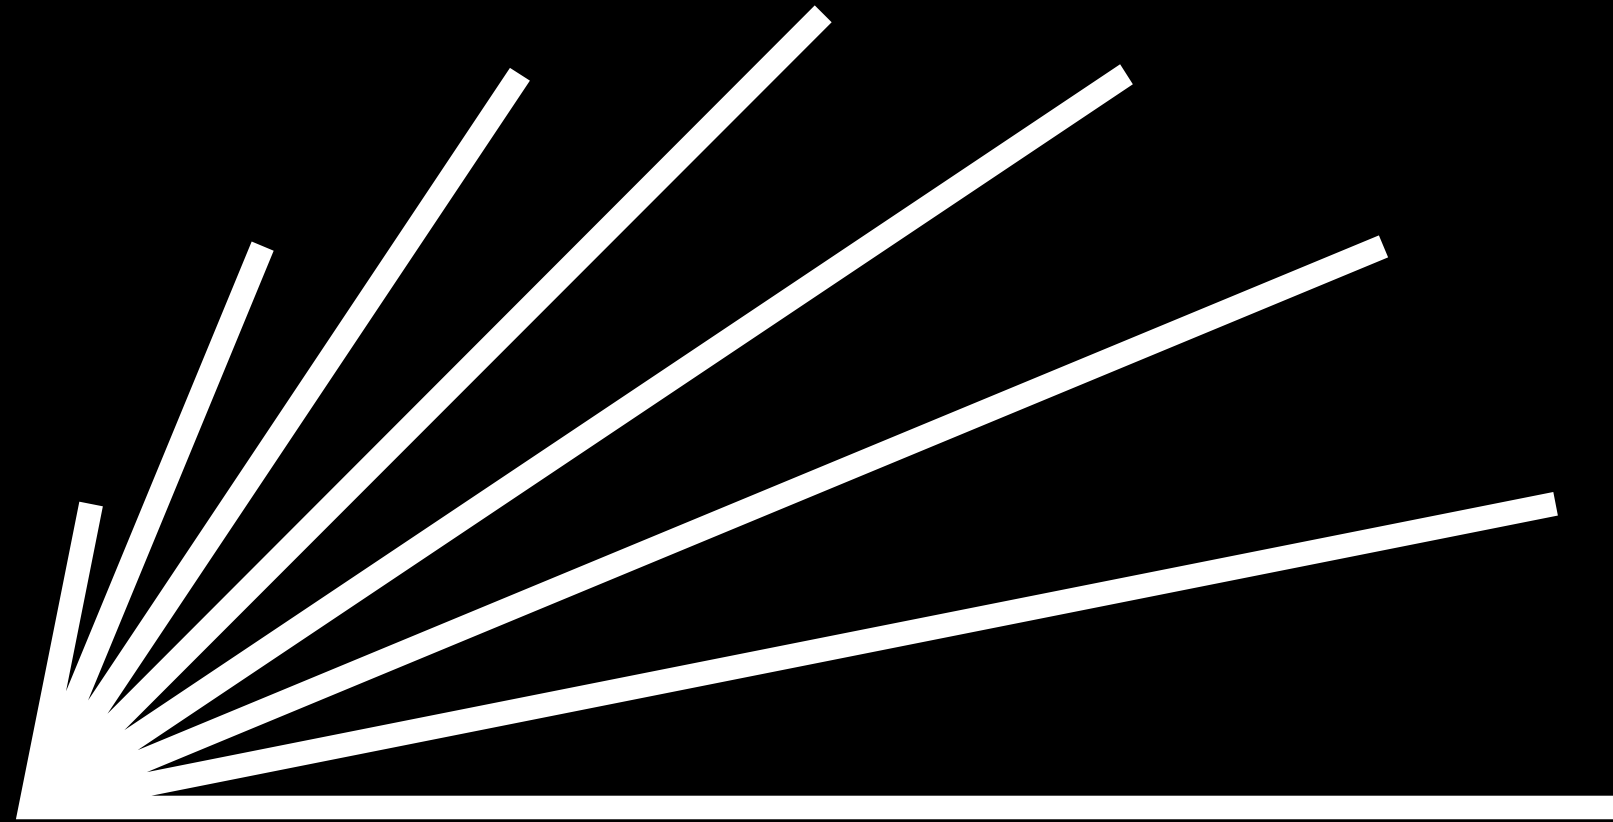

Operational posture improvement

Reliability and resiliency optimizations

Sustainability optimizations

Compliancy
