

Age Estimation

Automatically determine an individual's age from a photo or video stream, accurately categorizing users into specific age groups with a confidence level of 95%. This ensures that access to adult content is restricted solely to users who meet the specified age requirements.

Trusted by Companies Worldwide

Ondato Age Verification

Employs an AI-powered age estimation system

Provides accurate user ages in seconds

Allows you to control access to age-restricted content

Creates robust processes for KYC compliance when combined with ID checks

OnlyFans Case Study

By verifying the age of content creators and their subscribers with Ondato's age estimation solution, OnlyFans ensures that all users are legally allowed to create, view and access content on OnlyFans, which may include adult content.

We worked closely with the OnlyFans legal and compliance teams to provide a solution with easy to understand and transparent information about the nature of the data we were collecting from users and how that data would be used by Ondato and by OnlyFans. Alongside OnlyFans, developers we adapted the infrastructure of our solutions to ensure the security of the onboarding process while maintaining user satisfaction.

OnlyFans

“Ondato is a trusted and valued business partner. Their market leading age and identity verification technology is a key element of OnlyFans' safety controls. We enjoy the close working relationship we have with their team and we know that they value our feedback and reflect this in their product roadmap.”

OnlyFans

What is Ondato?

Ondato is a tech company that streamlines KYC and AML-related processes for businesses. Our SaaS-based solutions offer AML compliance processes from an identity verification service and business onboarding to the entire client lifecycle and user-based management. Our culture is based on cooperation with our clients, and by solving their business problems, we're contributing a safer digital space for everyone.

Benefits:

- ✓ Global coverage for 192 countries
- ✓ 15,000+ AML sources available for most accurate data
- ✓ 24/7 support to answer any questions you may have
- ✓ Simple, easy-to-use process with no additional IT resources
