The dark reality of companies

Employees

Complicated use of the ERP

Confusion due to the diversification of softwares

Isolated attendance & time control

Easily distracted by requests made to HR (payslips, contracts...)

Managers

Complicated use of the ERP

Continuous acceptance of uninformed requests

Challenging workforce planning: presence & absence are not integrated

Distracted by employees' requests to HR

HR

Diversification of softwares: high cost

No visibility over working hours & vacation days

Tough management of remote teams & high rotation

Wasted time in resolving incidents

We are living in the age

Time & Attendance

Optimize time management and people at work.

- Digital clock-in & out for employees from our app, web & mobile
- Integrations through our API with biometric devices or any other clock-in device
- Reports on actual worked hours
- Unlimited variety of fixed, flexible, and rotative schedules...
- 100% in compliance with local laws & regulations

- Along with the vacation module, it is our most popular feature
- We have verified that it can save up to **93%** of the time invested in time and attendance management
- Save **60%** of the costs derived from this process

Holidays & Absences

Seamlessly request for time off at any given time

- Holiday and absence requests in 3 clicks
- Validation with full info on one single screen
- *Anytime, Anywhere* (web & mobile)
- Employees are fully aware of their remaining holidays
- Managers have a centralized view of their team

- It is our first and most used module
- Has proven to save **85%** of time spent on absence & vacation management
- This module alone, represents **55%** financial savings on time management.

The screenshot displays the Woffu web application interface. At the top, there is a navigation bar with the Woffu logo, a search bar, and user information. The main content area is divided into several sections:

- Solicitar (Request):** A form for requesting a holiday or absence. It features a large number '4' indicating the number of available requests. Below this, there are fields for 'Vacaciones (a)', 'Fecha inicio', and 'Fecha fin'. A green 'Solicitar' button is prominently displayed.
- Mi calendario (My calendar):** A calendar view showing the months of September, October, and November 2019. The calendar uses color-coding to indicate the status of days: green for available, blue for pending, and red for consumed.
- Mis solicitudes (My requests):** A list of requests with columns for status (e.g., 'Aceptadas - pendiente disfrute', 'Disfrutadas') and actions like 'Editar' and 'Cancelar'.

An overlay window is shown in the foreground, displaying a request for 9 days of vacation for Nuria Badia, an Especialista SEO/SEM in Sevilla. The window includes a summary of the request, a table showing the status of the request (0.0 Accepted, 13.0 Pending, 10.0 Available), and a yellow warning message: 'Como administrador puedes aceptar la solicitud pero deberia ser el responsable.' At the bottom, there are 'Rechazar' and 'Aceptar' buttons.
