ICICLE

Icicle ERP moves food & beverage businesses forward.

- ✓ into compliance
- ✓ into new markets
- ✓ into improved profitability
- ✓ into advanced automation
- ✓ into operational excellence
- ✓ into the **future**

The Icicle ERP system elevates food businesses to global standards. Our technology bridges the gap between the needs of your business and regulators, delivering an intelligent cloud-based system to manage the entire food production process – all in one place.

Icicle ERP began from the belief that value chain compliance needed to be simplified.

- ✓ Safe Foods for Canadians Regulations (SFCR)
- ✓ Food Safety Modernization Act (FSMA)
- ✓ GFSI Certifications such as SQF, BRC
 - ✓ HACCP, FSEP
 - ✓ HARPC, VACCP, TACCP

“To be honest, I don’t think we could have achieved SQF certification without Icicle. In less than a year, we implemented Icicle into all our plans and processes, and collected the data we needed for the auditor. I was really happy that we were able to quickly and easily do that.”

- TERRY GOULAH, CO-FOUNDER & VP OPERATIONS, FREEYUMM FOODS

- ✓ Strengthen your **competitive advantage**

"As we grow, seeing what we have in Icicle – it's modular, it's evolving, it's growing with us. It removes the complexity and gives us simplicity. I think for growing companies who really want to make things more manageable, Icicle is definitely an enabler and I think the big benefit is the user-friendliness and service."

- PATRICK O'SULLIVAN, PLANT MANAGER,
BIG MOUNTAIN FOODS

"We love what it can do. I think it brings a lot of value to our organization and gives us the assurance and better insight into what we are doing and making sure that we're doing it right."

- CHRIS LEROHL, CO-FOUNDER & CEO,
HONEST DUMPLINGS

"I would definitely recommend Icicle. It's affordable to implement, easy to for your team to learn how to use. The team is incredibly responsive, and very personable. Overall it really, really simplifies our ability to do things consistently well. For that reason it is very much worth the investment."

- DEAN BLIGNAUT, CO-FOUNDER & PRESIDENT,
TRMW FOODS
