

Smart Documentor Cloud

The **smart** way to process your **data**

Extract and process all your data on a single platform

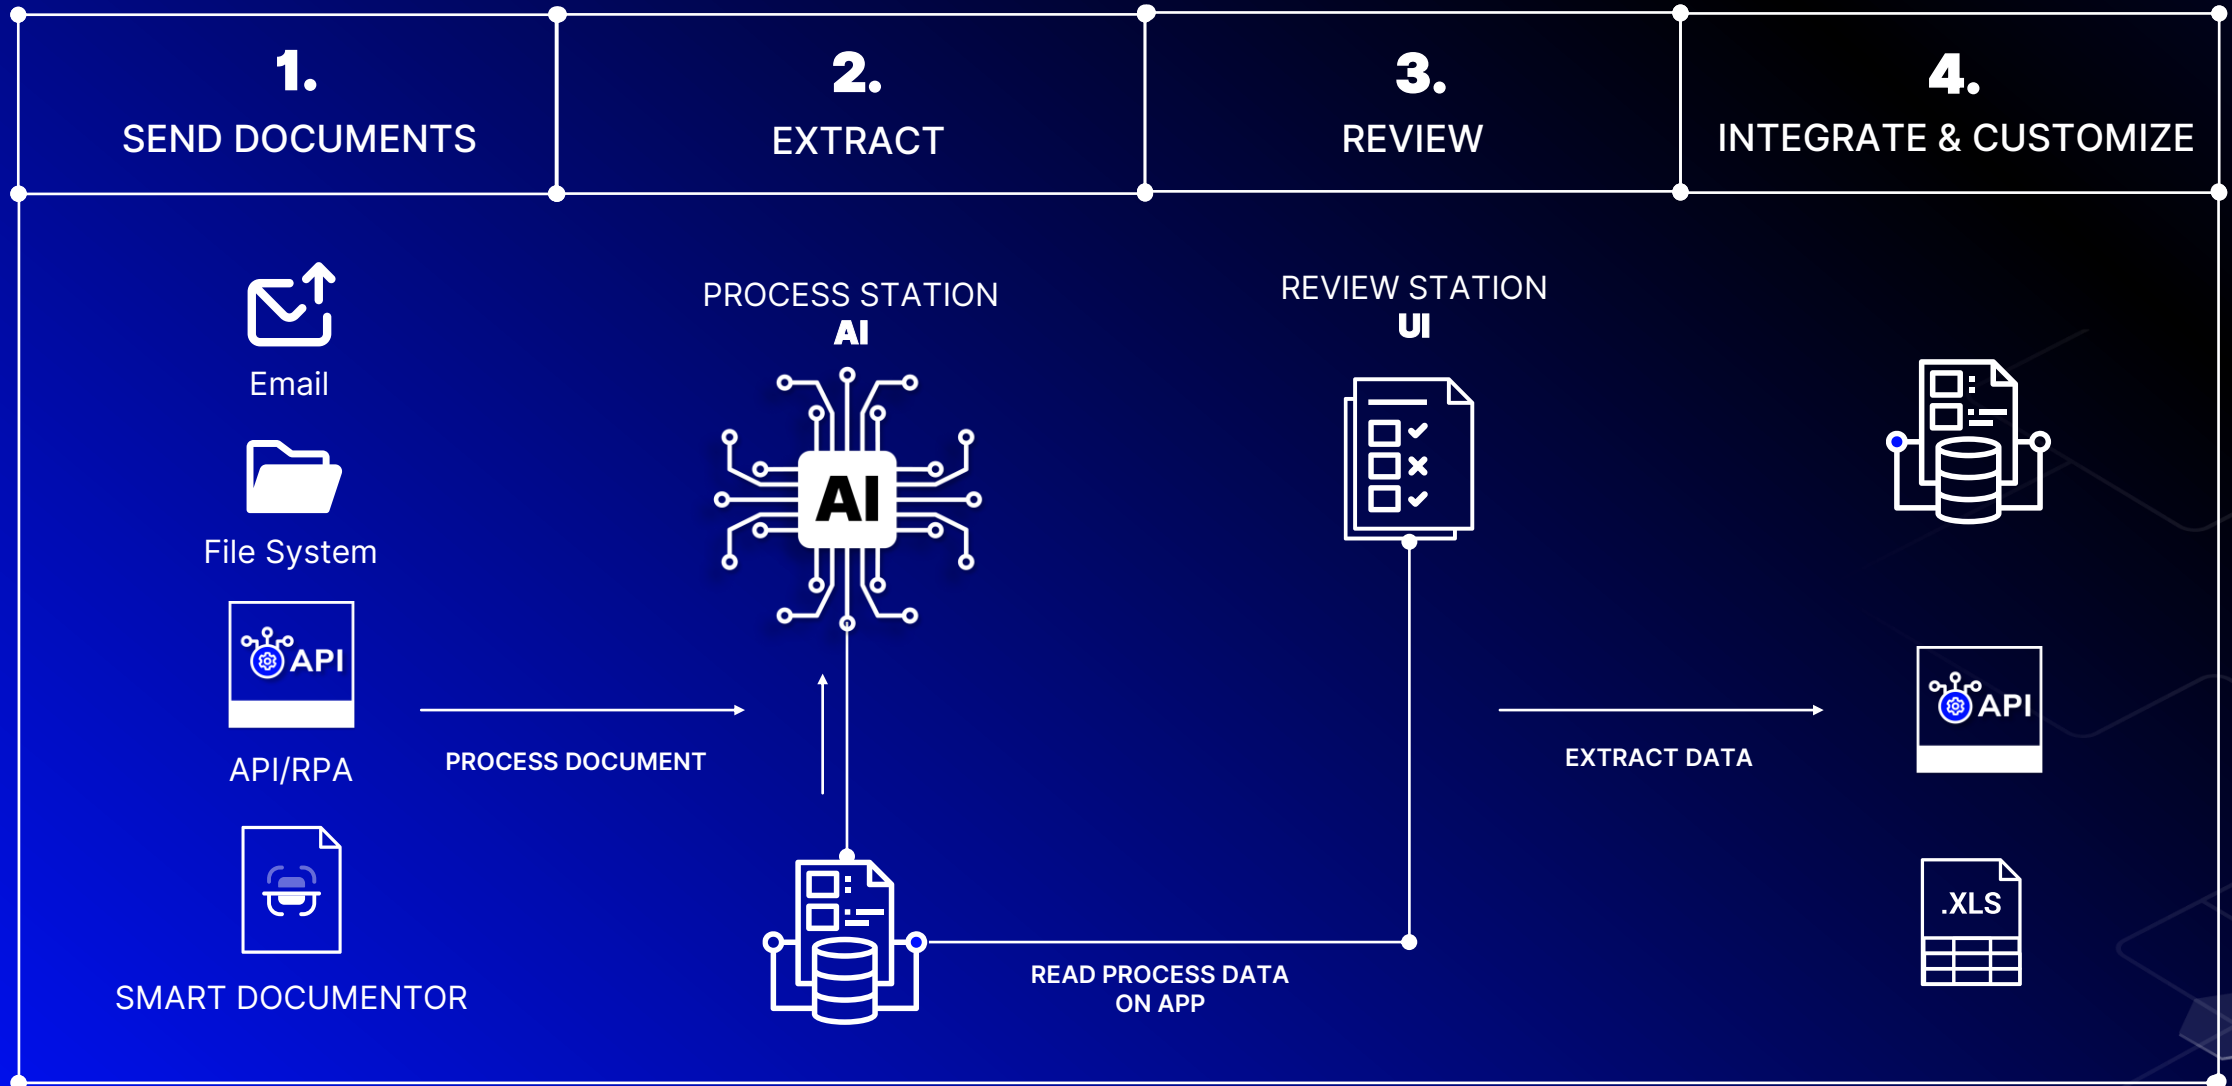

SmartDocumentor Cloud takes away the trouble of manually extracting data from business invoices, bills, and expenses, written documents or even audio and video files.

Powered by **Microsoft Azure Cognitive Services**, SmartDocumentor Cloud uses AI to pre-validate, process, and integrate data in your company's system, greatly reducing your organization's operational costs and cutting time spent on these tasks by up to 99%.

Audio & video to text

Extract text from audio and video files and reduce time spent transcribing by over 99%*.

- ✓ Use AI to transcribe audio and video to text with high accuracy.
- ✓ Different speakers in the same recording are automatically recognized, even when multiple people speak at the same time.
- ✓ Edit the extracted text on your browser using an intuitive text editor.
- ✓ Split the extracted text into multiple parts and have different employees collaborating in the revision process.
- ✓ Use Export the transcription as a .docx file.

*Compared to manual transcription.

Think smart

dev>scope

Save time and money

Reduce the time spent processing documents and entering data by up to 70%. Free employees to do more meaningful tasks and save money.

Improve accuracy

SmartDocumentor Cloud has an accuracy of over 75% and improving. If you find any errors during validation, you can teach SmartDocumentor Cloud how to avoid them in the future.

Work collaboratively

Create workspaces to have employees work as a team on the data reviewing process. Split transcribed texts into multiple parts and assign them to different people to speed up the revision process.

Pay only for what you use

Pricing is volume-based so you only pay according to the number of documents, audio files or videos you process. We also offer discount tiers to organizations that process large amounts of data.

Integrate with ease

Integrate SmartDocumentor Cloud into your organization's data processing workflow using an HTTP REST POST endpoint and make it part of your inbound and outbound processes.

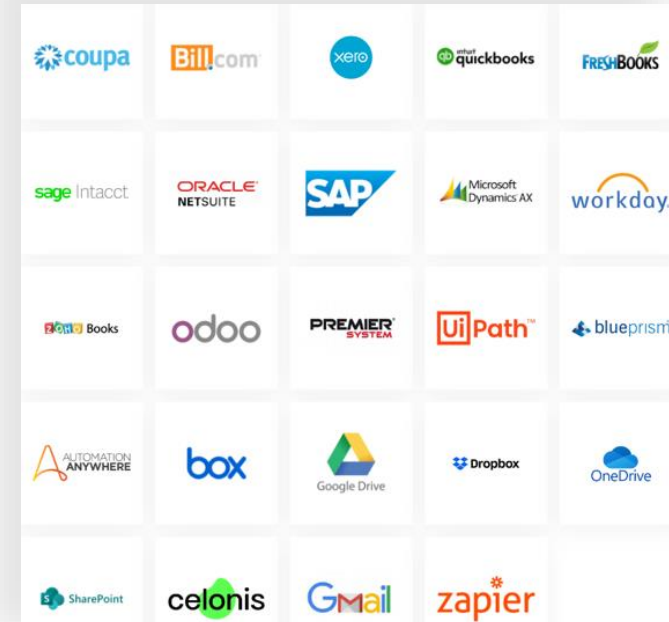

Process data safely

SmartDocumentor Cloud abides by the highest Microsoft Azure Cognitive Services security standards to protect your information and ensure the privacy and safety of your data.

Automate & Integrate

SmartDocumentor Cloud integrates into any organization's data processing workflow with ease using an HTTP REST endpoint, becoming part of your data inbound and outbound processes.

SmartDocumentor Cloud is compatible with the most popular external systems available.
