

# Fortifying Business Continuity with Azure Site Recovery

## Lotus Beta Analytics Nigeria

Lotus Beta Analytics Nigeria is a company leading the revolutionary approach to information technology (ICT) by redefining and reimagining strategic approach to solutions and service delivery. We are focused on professional world class service delivery, delivered according to global best practices, and customer satisfaction before and after. Our clients are Enterprise and SMB's spread across different industries in Nigeria.

### WHAT WE OFFER

#### PRODUCT DESCRIPTION :

LBAN\_Business\_Continuity\_Fortifier: This service is intended to help organizations fortify their business continuity plans in case of infrastructure failure or a disaster. This service uses ASR to replicate and recover VM's, physical servers, and workloads to a secondary location, ensuring minimal downtime and data loss.

#### MORE INFO :

Leverage LBAN\_Business\_Continuity\_Fortifier to ensure you can seamlessly continue your business activities without interruptions when there is an unplanned downtime due to infrastructure failures, natural disasters, or even cyber-attack. This approach minimizes operational disruptions and safeguards critical business functions even in the face of significant challenges.

#### KEY INFO:

LBAN\_Business\_Continuity\_Fortifier:

- Ensures business continuity
- Monitoring and alerting capabilities
- Simplified Management Platform
- Secure Channel for data in transit
- Automated failover and failback

This service uses Azure Site Recovery to mitigate the impact of unexpected events by providing automated failover and failback processes, ensuring data integrity, and application availability.

### WHAT OUR CUSTOMERS ARE SAYING

*"LBAN team has proven capability in deploying solutions that enhance productivity and further improved the effectiveness of our security application. within our business environment.*
