Work Where You Want!

DYNAMIC DASHBOARD

- ✓ Get information on all locations, offices, departments, rooms and bookings with DeskNow
- ✓ Manage, offer and analyze workstations with DeskManager
- ✓ Make bookings with DeskBooking, no matter if its for an office or for coworking

EASY USABILITY

- ✓ Use it where you want! Applicable from any device
- ✓ Intuitive way of operating and clear layout
- ✓ Distribution of tasks to different admins

DeskNow

VISUAL FLOORPLAN

- ✓ Floor plans enable employees to visually book rooms via DeskBooking

- ✓ Whether a hot desk, meeting room or collaboration office, employees decide where, what and when they want to book.

- ✓ Assign specific areas to groups of people or departments for an optimal project collaboration.
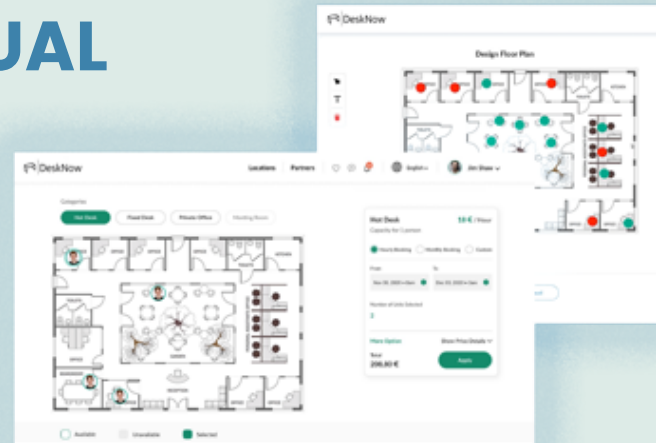

■ Social Distancing
Plan work areas with a specific minimum distance required

■ Tenant Screening
Verify visitors for workstation bookings

■ Workspace Management
Manage all sites and permissions from one place

■ Linked Systeme
Connect systems like MS Outlook or Google Calendar

■ Workspace Analytics
Full control over workstation utilization and usage

■ Coworking Marketplace
Publish unused workspaces for customers willing to pay
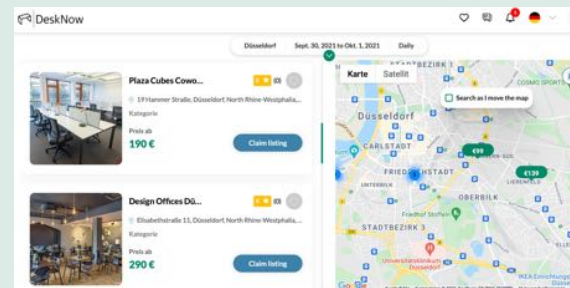

CLOUD- BASED DATA STORAGE

- ✓ Highly customizable thanks to automatic scaling and Elastic Load Balancing from AWS
- ✓ Hosting exclusively on European servers with the highest GDPR-standards
- ✓ AWS uses end-to-end encryption for a secure infrastructure and the secure exchange of sensitive data.

DeskNow
