professionalism
with Pandai

Ways Pandai Teacher can help educators

Generate exercises and assessment materials **Quiz Builder**

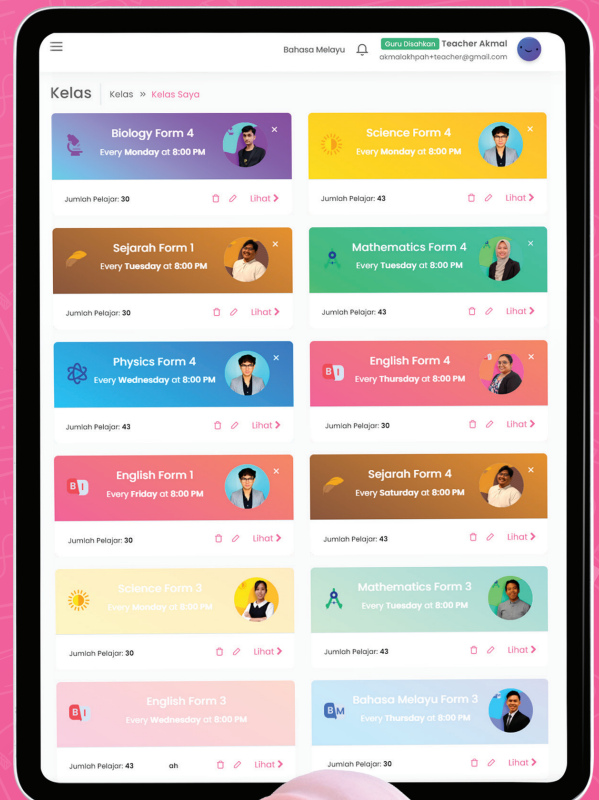

- Create custom sets from Pandai question bank according to mastery and difficulty level
- Automatic marking and recording of scores to generate direct report
- Can be shared online or printed for class distribution

Organise supplementary revision materials and class discussions in one platform with the **Class Dashboard**

- Monitor progress of students' online assignments
- best for flipped classroom approach with Announcement and Forum features to provide additional information and communication out of the classroom

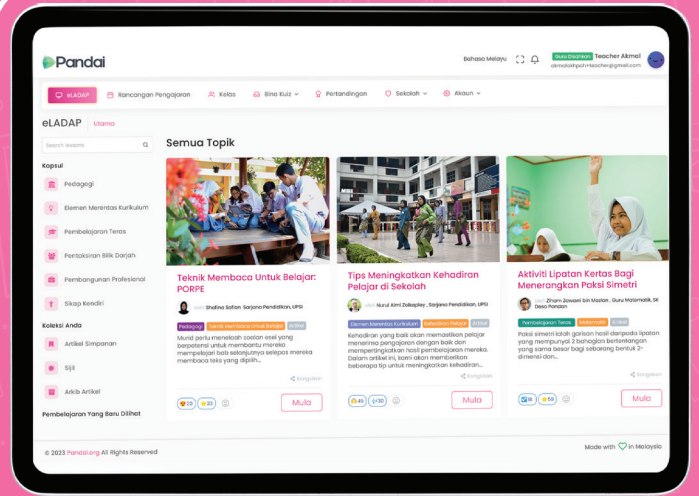

Build lesson plans using suggested learning activities based on topic objectives

- Selection of topics and learning objectives according to the national curriculum
- Selection of suggested teaching activities that are aligned with assessment standards
- Shareable via online link or be printed for filing

Strengthen skills and knowledge of the teaching profession with eLADAP

- Article or video contents prepared by teachers for teachers
- Clear, concise and practical to be applied in the classroom
- A digital certificate will be generated every time a teacher completes 10 revision materials

The Pandai Teacher app is designed to meet the needs of teachers and help them be more productive and professional.

Among our effort is to form a Professional Learning Community (PLC) through teacher empowerment programmes in collaboration with Pandai Education Advisor, **Profesor Emeritus Dato' Dr. Noraini binti Idris**.

“

Pandai Teacher helped me prepare quizzes at different difficulty levels to check my students' mastery level in each class taught. Teachers only need to select a chapter, level and print; or share with students to answer online. I hope this app will continuously flourish to assist teachers in the current dynamic and challenging world of education.

Encik Firhan Asilin

Teacher of Sekolah Rendah, Sabah

“

Pandai has been a saviour for the students taking SPM 2021 in my school, which is located in the rural area, when the Covid-19 pandemic hit. The flood, which happened 3 times, destroyed students' notes and textbooks causing them to feel stressed and demotivated. Grateful to have found Pandai, we got back on our feet to appear as the 'Top School' at national level for 6 times. Our SPM results? All praise to Allah, it was great!

Puan Azhani Abdul Rahman
