

Rapid

PLATFORM

Save Time, reduce errors and automate your business

A tool built by Microsoft Consultants

OUR STORY

Over 8 years ago, we became fascinated with the idea of **agile**, but witnessed a major problem: nowhere does agile mention or help with 'perfectly scoped projects'.

Striving for a '**perfectly scoped project**' is nearly impossible as no-one fully understands the solution in detail and the only way to actually get that **extra** detail is to start trying to **solve** the problem.

Everything you Need in One Place

Turn your ideas into a reality, in a matter of clicks. Be it data design and management, process description and automation or even documentation, Rapid Platform can cover it all."

What is the Rapid Platform?

Rapid is a business management solution built from the ground up with native process and analytics support. Rapid solves the problem of IT systems falling behind a business with its cutting edge user driven customization.

One web application to replace them all

**Built on top of Microsoft
and only getting better
from there**

Office 365

Native User and Group support means you only need to configure security once

Power BI

Embed Power BI reports directly where you need them

Outlook

Keep email conversations organized with native Outlook integration

Azure

Single Microsoft Sign-on no matter how many tenants.

SharePoint

Keep your files securely stored with SharePoint.

Microsoft at the core

We bring together the whole
Office 365 suite

No-Code Environment

With an intuitive no-code environment, users can easily drag and drop elements to create unique layouts, configure and design fields, link documents and much more!

History at a Glance

Dive into the details and keep track of your information with Rapids' built-in Audit Tracking. Compare items, identify differences and merge changes. Navigate to and restore data history in a matter of clicks.

Support when you need it most

We're here to help!

We will cover all **basic support requests
with our**

****Technical** Support Team.**

Rapid

PLATFORM
