

## Focus on the « Annotation » feature

Communication agencies, freelance videographers, you are tired of going back and forth with your clients on video projects? Are you looking for an alternative to the multiple tools (file exchange, emails, phone calls), which result in long, imprecise and unproductive exchanges?

**Offer your customers to annotate projects on Eolementhe, our collaborative web platform!**

**EolePreview** is one of the key features of the Eolementhe web video studio, which allows you to create, enrich, subtitle, validate and deliver your videos/audios very easily!

### Upload your video

All file formats are supported.

### Invite your client to annotate it

Simply indicate the email(s) of your client.

### Make the requested changes

Make the changes, upload the new version of the video, until final validation!

### Image capture & video markers

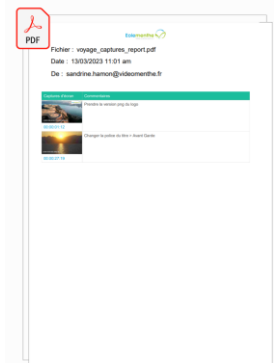

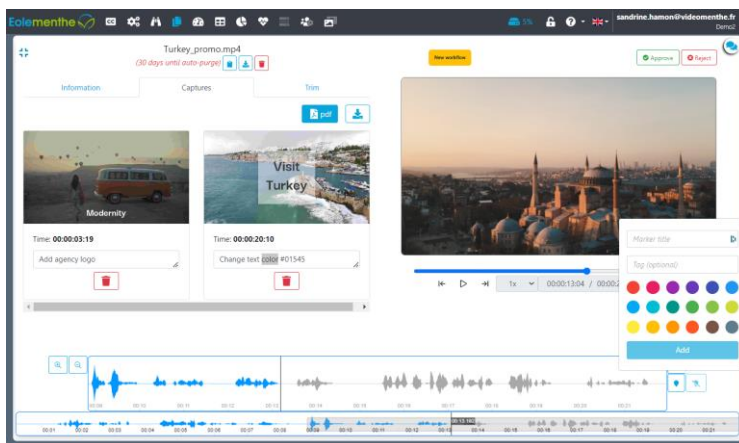

Annotate the video directly at the right place & insert video markers

### Live chat

Discuss the current production with your customer, directly in the interface.

### PDF report

Download the PDF report of the corresponding annotations and images!
