Managed Sentinel

Fortytwo 2024

We Are Fortytwo

We solve our customers challenges. Problems. We are the solution. We are technology. Using the best tools, we ensure that our customers can rely on their operations, safely, securely, in the cloud.

We`re not just experts

We're like the cosmic hitchhikers of the cloud. Our squad, versed in DevOps, Cloud Native, Security, and beyond, is on a mission to turn challenges into victories across the galaxy.

We`re not just building cloud solutions

We're navigating the cosmic waves of innovation. Step into our realm, where the solutions we craft in the Microsoft Cloud ecosystem are as robust as they are out-of-this-world.

We`re not your ordinary service provider

We're intergalactic partners in your journey to success. Dive into collaboration, and unlock a galaxy of expertise to navigate the cloud with unwavering confidence.

Fortytwo Sentinel

Security

An always updated cyber security and threat management platform Fortytwo Managed Sentinel is a service that lets you focus on your core business. Our cyber security experts make sure your Microsoft Sentinel solution is always up to date with the latest threat detection mechanisms and properly integrated with other Microsoft security products, such as Microsoft 365 Defender.

Should an incident be reported, your incident responders will be notified and guidance on response will be provided through a workbook, to keep your environment safe.

Benefits

- Continuous Deployment from Fortytwo, always running the latest version of our recommended Microsoft Sentinel configuration.
- Large set of Detection rules and Incident creation logic added with incident enrichment for faster investigation
- An incident response workbook with detailed guidelines on how to respond to each incident.
- Configuration of recommended TAXII providers for threat information.
- Connector and log monitoring.

Sentinel Eyes-On

Add-on service to Managed Sentinel

- **Managed Sentinel** – Continuous detection rule updates and guided configuration support for data connectors and automation
- **Eyes-on** weekdays between 08-16:00 for incident triage (prioritization and initial investigation)
- **Active incident response** for critical incidents (based on incident triage)*
- **Alerting** on critical incidents within one hour (08-16:00)
- **Dialogue** with experts via Teams for coordinated incident handling
- **SecOps** checklists to follow-up security hygiene in Entra ID and Defender XDR suite

** Sentinel consumption cost not included*

** Hourly billing for active incident response*
