**Getting The Best
From Microsoft.**

FLIGHT delivers consistent engineering resources against a budget & plan. Each FLIGHT partner works with a team of Architects, Engineers, and Project Manager to execute multiple projects in parallel, on-time, & on budget.

- 🐦 **Effortless Projects**
- 🐦 **Roadmap Focused Flexible Scope**
- 🐦 **Flat Monthly Rate**
- 🐦 **Architects & Senior Engineering**
- 🐦 **Collaborative**

Managed Roadmap

One of the key differentiators of FLIGHT is the managed roadmap. This roadmap is crafted in collaboration with our cloud consultants and your IT team. Our team of architects and engineers assess your business' needs and create a technical roadmap of the work required to achieve your goals, which helps to direct work, prioritize solutions, and provide both parties with a concrete path forward.

Project Management

Another distinguishing factor of FLIGHT is the dedicated project manager we assign to each client to manage multiple project disciplines and dependencies, track and adjust plans as needs are identified in collaboration sessions, and ensure all milestones are achieved on-time, on-budget, and aligned to your technical roadmap.

Working with the Best

Quickly scale up beyond your internal team to access the best engineering minds, without the hassle of going through a long and frustrating hiring process. Within FLIGHT, your expanded team leverages multiple disciplines and specialized skillsets to get it done right.
