Azure Assessment: Cost Optimization

aptum

Agenda

01 Getting the most out of your Azure environment

02 Roadmap for Azure optimization

03 How the Azure Assessment Works

aptum

Azure Assessment: Cost Optimization

Get the most out of your Microsoft Azure environment

- Control Rising Azure Costs

- Gain insights that will deliver benefits right away

Areas of concern or opportunity

Visibility
Gain insight into deployed resources and costs

Control
Budget and manage costs

Accountability
Organizational ownership

Optimization
Optimize workloads for cloud

aptum

Azure Assessment: Cost Optimization

Roadmap for Microsoft Azure Optimization

- Foundational knowledge on governing your costs

- Valuable cost and deployment insights

- Action plan to optimize your Azure environment

Educate
Educate on cost governance/best practices

Discovery
Discover/Access the environment

Analysis
Analyze the environment to gain insights

Recommendation
Detailed reports and documentation

Plan
Optimization Action Plan to align with Azure best practices

aptum

Azure Assessment: Cost Optimization

How it works:

Over just 10 days, Aptum's Professional Services team turns large volumes of data into actionable insights!

Assess

Survey your Microsoft Azure environment

Analyze

Analyze and report on your data

Recommend

Recommendations for foundational optimizations

Consult

Debrief to shape an action plan with next steps
