

Wipro's Carve-Out in a Box Solution: 2-week assessment by Wipro Experts

Wipro's carve-out solution is an out-of-the-box solution designed to considerably reduce cost and complexity during the carve-out transition and helps organizations proceed with minimal challenges.

Applicable for both buying and selling entities, the solution offers various capabilities to help build out target operating models within projected timelines, including the ability to define an alternative set of service delivery models and cost estimates to support the projected transition support agreement (TSA).

A Tailor-made Solution with Microsoft Stack

Wipro's carve-out solution is prepared by business-line experts to ensure all critical aspects of the carve-out process are considered. We couple Wipro's global presence and industry expertise to develop and implement a comprehensive plan for all organizational and cultural changes.

The solution works with Microsoft Dynamics 365, and provides buy-side and sell-side advisory in areas such as:

Divestiture services

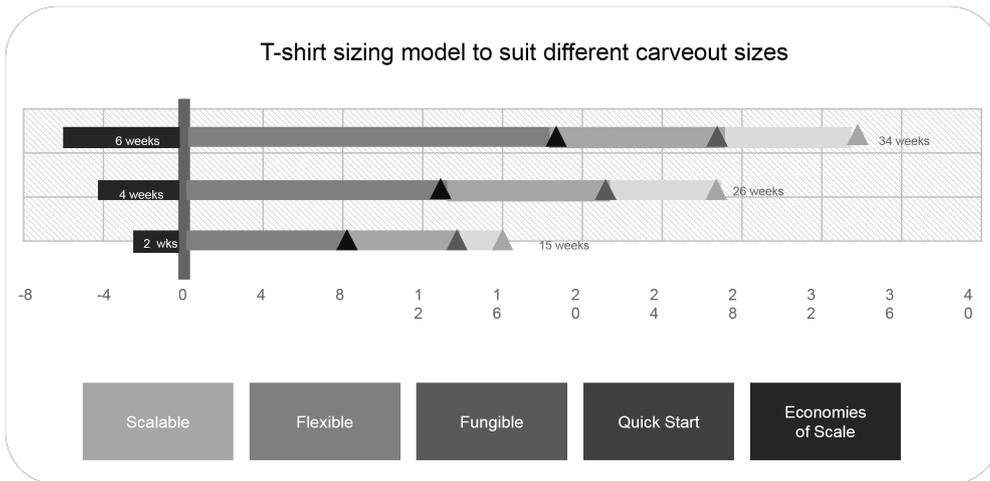

M&A integration services

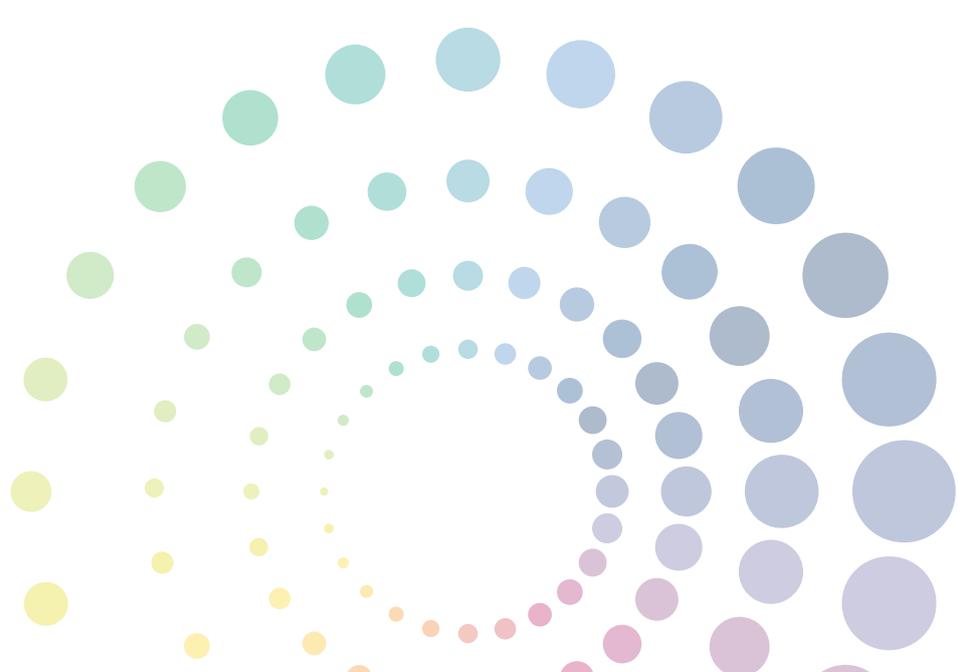

Build-out services

T-shirt sizing for carve-outs

- ✦ Current Tech environment
- ✦ Tech Debt & Tech needs
- ✦ Industry/ company variances
- ✦ Client Tech maturity Transformation Needs
- ✦ Parent vis-a-vis carve out size
- ✦ TSA parameters
- ✦ People/ skill transfer & training

- ✦ Service window requirements
- ✦ Industry/ company compliance needs
- ✦ Level of tech/process/people entanglement
- ✦ ISV licensing constraints
- ✦ Cost of own/ buy service
- ✦ Pre-existing contracts

Options for one, or many, applications

Customers may purchase a single application as a users' Base license. Users requiring multiple core business applications may purchase as many Attach licenses as needed at a reduced price.

Choices for any type of user

Full users

Access to the full, feature-rich business applications functionality

Additional users

May consume data or reports from line-of-business systems, complete light tasks (time/expense entry, HR record updates), or be heavier users of the system, but not require full user capabilities

Devices

Any number of users can access a licensed device without the need for separate User SLs.

Using any Dynamics 365 application

- Share knowledge across the organization.
- Provide all users with valuable insights.
- Execute basic customer and business processes.

Carve-out launch readiness

Wipro's carve-out solution is a tailor-made package with Microsoft stack, suitable for different industries of various sizes.

Approach: Early view of prioritized building blocks of our 'Business-backed Technology Diagnostic' (BTD) to baseline your current state

We use a comprehensive framework and business-backed technology diagnostic to drill down into three key areas: business, functions, technology.

Organization Strategy

01

- Target operating model
- Location strategy
- Policies & procedures (organizational, strategy, functional areas)
- Communications strategy
- People & organization (structure, roles)

Business Capabilities

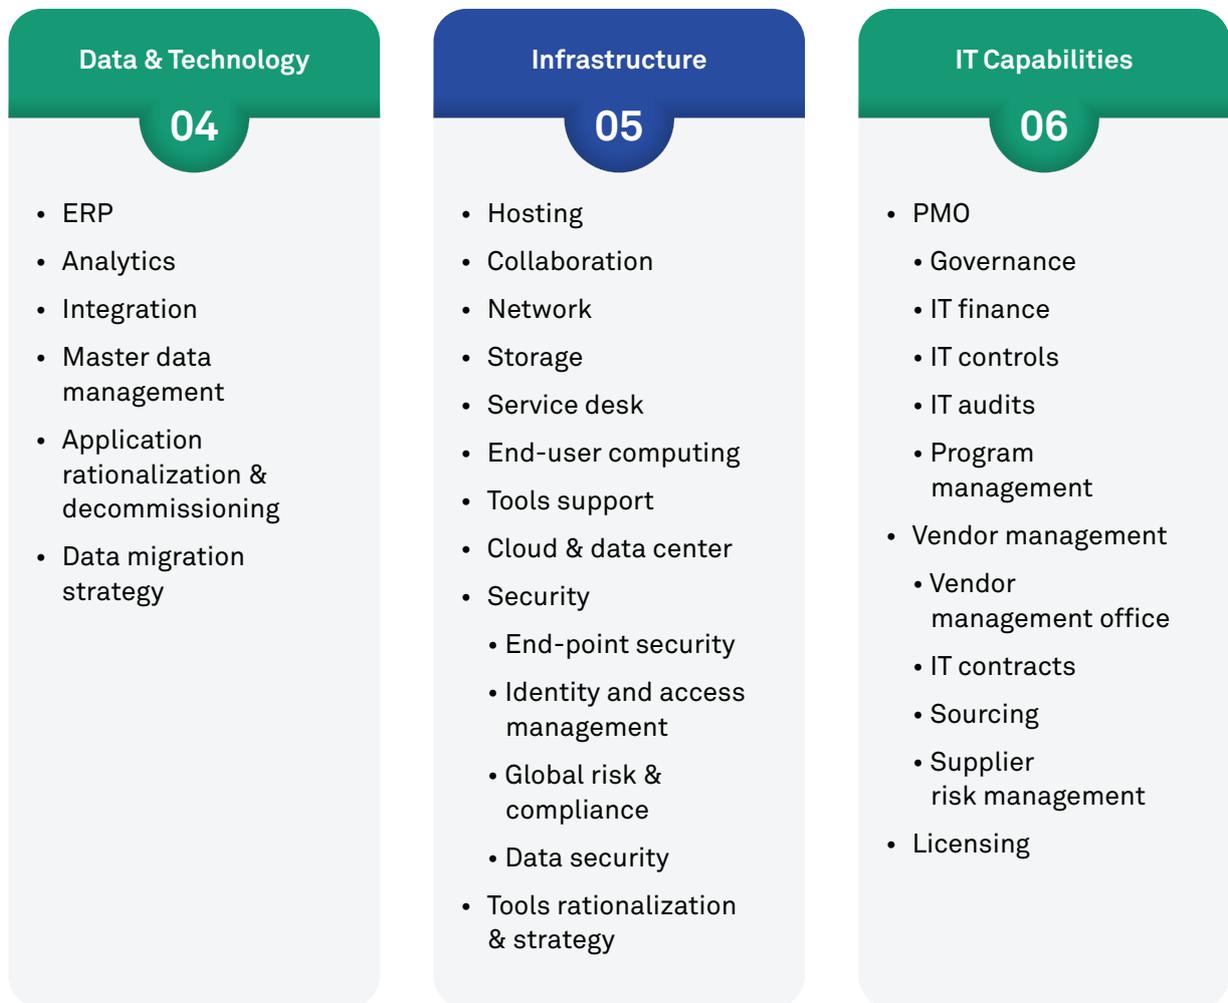

02

- Sourcing
- HR
- Finance
- Legal
- CRM

Business Operations

03

- Shared services operations
- Finance
- HR
- Legal
- Content

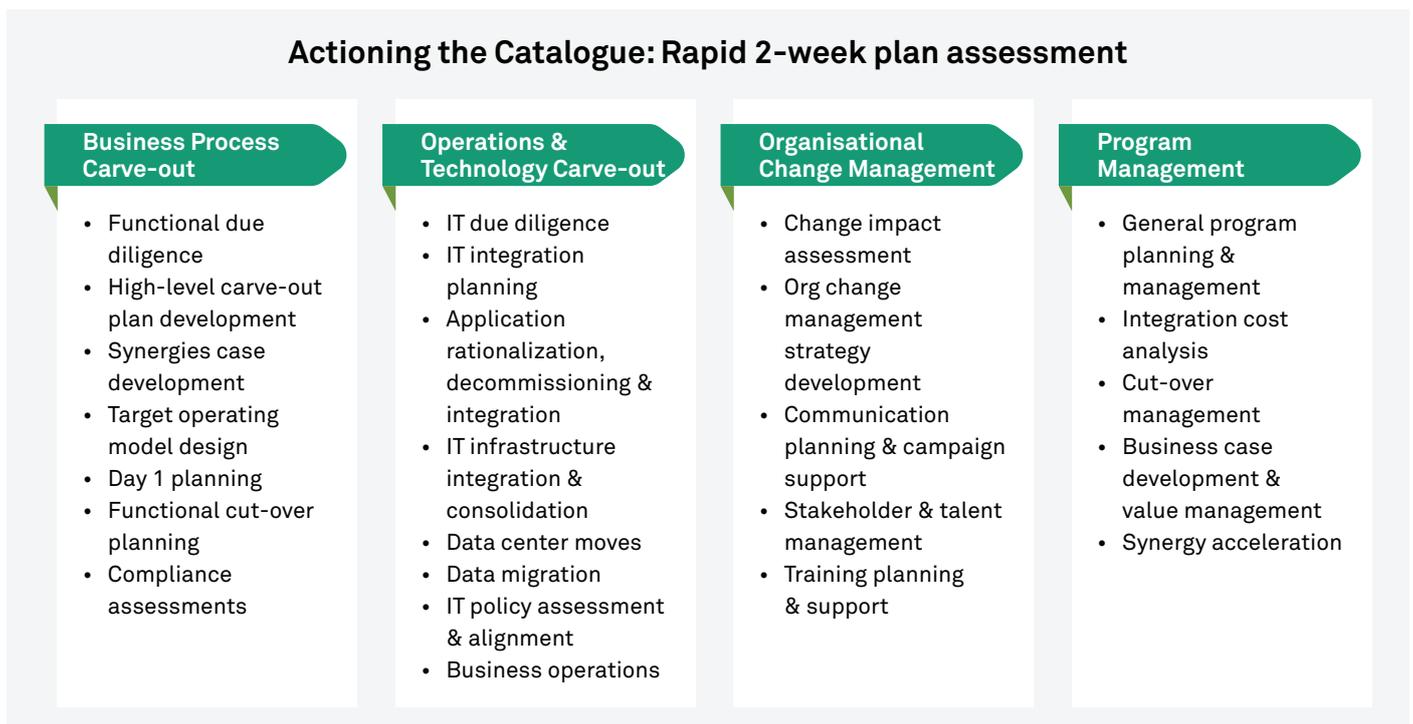

We will jointly refine the diagnostic scope with you to best meet your business and technology needs

Actioning the catalogue

Wipro works with the divested entities, assesses various parameters, and presents a model within two weeks. Our assessment includes the high-level plan outlined below.
