

Launch Microsoft Viva Engage across your business

ENGAGE SQUARED 

Services overview

The Viva Engage launch engagement is designed to support organisations who are wanting to foster a connected and inclusive workplace culture.

The adoption of an Enterprise Social Network (ESN) like Viva Engage is pivotal for modern work. It acts as a bridge, connecting the workforce in a dynamic and interactive environment. It's not just about communications, it's an opportunity to enhance knowledge sharing, foster a sense of community and encourage collaboration between employees and leaders alike.

During this engagement we showcase the art of the possible with Viva Engage and share insights on how you can harness the power of an Enterprise Social Network to transform employee engagement. Together we'll unpack the challenges and pain points you're facing today, identify opportunities and prioritise use cases to support a more connected and engaged workforce.

Our approach

Using a three-step approach, we'll enable your organisation to adopt the capability of Viva Engage.

We'll begin by undertaking a series of discovery activities to understand your objectives, current state and vision for implementing an Enterprise Social Network (ESN).

Taking our findings, we'll support you to configure and implement Viva Engage in line with your project objectives, community architecture, and governance recommendations.

To support ongoing growth and success of your Viva Engage Network we'll support you to implement activities that can help drive ongoing adoption of the platform.

Expected outcomes

- **Viva Engage enabled** and available to employees across your business
- **A network of champions** who understand the value of Viva Engage and can sustain the change
- **Improved internal communication** that fosters a connected and inclusive workplace culture
