

Power Platform Starter Kit

Empower your employees to analyze data and create solutions that will have an immediate impact on your business

4-week implementation

This engagement is designed to jump-start your projects while helping your organization to become self-reliant over the long term. In this spirit, the Starter Kit can be tailored to your specific needs and involves both building solutions and sharing core skill-sets and guidance.

Depending on your requirements, our time together can be spent on one or all parts of the Power Platform – including Power BI, Power Apps, Power Automate, and Power Virtual Agents. As a longstanding Microsoft Gold Partner with multiple competencies, our team has the breadth of experience in data analytics, cloud, and app development to help your organization get the most out of the suite of Power Platform tools.

Expected outcomes

- ✓ A working environment where both data and applications can be combined with agility
- ✓ Access to a data-fueled dashboard surfacing key insights and analyses
- ✓ Concrete, foundational skills to build experiences that can power a modern enterprise
