

Levridge for Agriculture

Growing Agribusiness Through Technology

Reap the Benefits of Integrated Systems

- Levridge joins your systems for procurement, supply chain management, warehousing, plant operations, accounting, and commodity market risk in one interconnected, comprehensive solution.
- The free flow of data among your business systems eliminates all the manual data entry and miscues caused by older, disconnected applications.
- Built-in access to Microsoft Power BI leverages this information to generate accurate, actionable, real-time insights into every aspect of your agribusiness.

Lay the Foundation for the Future

- We use AgXML to facilitate and automate transactions with your business partners.
- Levridge is built on Microsoft's next-generation Dynamics 365 platform, provides native integration with Microsoft 365 apps like Outlook and Excel and with the no/low-code tools on Microsoft's Power Platform.
- You're also ready to implement smart technologies—AI, machine learning, and automation—for supply chain traceability, plant operations, or equipment maintenance. The future of agribusiness is here.

Commodity Accounting

Operate confidently with our complete solution for commodity procurement, processing, and risk management. Extend Microsoft Dynamics 365 F&O with these features:

- Procurement
- Sales Contracts
- Risk Management
- Settlements
- Inventory Management
- Real-Time Reporting

Invoices

Industries We Serve

Ethanol Plants

Levridge's connected, cloud-based software handles the complexities of ethanol contracts, load-based distiller grains contracts, and invoicing. Track your daily position report (DPR) and long/short hedge

Soy Processing

Settle contracts and issue payments with ease using our settlement wizard. The system tracks advances, liens, discounts, fees, and splits.

Milling Operations

With Levridge, you can track purchase and sales contracts, oversee plant operations, and manage outbound shipments and freight.

Ag Retailers

With our Ag Sales solution, you can set up billing splits, track prepayments, offer volume discounts, apply seed zone pricing, manage retail locations, and much more.

Food Processors

No matter what crop you're handling, Levridge enables lot tracking across your entire supply chain—from the field of origin to products headed out the door.

Cooperatives

Manage equity allocations, patronage refunds, and historic equity revolvments all in one place. The member platform allows growers to check equity balances and vote for board members.

Grain Elevators

Track your daily position report (DPR) and long/short hedge and mark-to-market in real-time.
