

# Dynamics 365 Finance and Supply Chain Management QuickStart

## ACCELERATOR SOLUTION

### Begin your ERP Journey on Dynamics 365 Finance and Supply Chain Management

For growing organizations looking to quickly move from a legacy accounting system (Dynamics AX, SL, GP, NAV) to a comprehensive ERP, finding a scalable system while staying on budget can be a tall order. With Dynamics 365 Finance and Supply Chain Management QuickStart, you can alleviate the strain on your resources and implement a fully functional ERP system—all in a matter of weeks.

## BENEFITS

### Speed

Detailed assessment completed within a matter of weeks

### Efficient Configuration

Pick core modules that fit your current needs and make better-informed decisions on what can be added later

### Immediate Training

Get training from the start, allowing you to flatten the learning curve and help your team quickly adapt to the solution

### Ongoing Support

Continued assistance is available after go-live for your growing organization's evolving needs

## HIGHLIGHTS

### Robust ERP Capabilities

Manage complex business processes while improving compliance and securing workflows

### Streamlined Ecosystem

Leverage full benefits of the Microsoft ecosystem through integration with Microsoft 365 apps

### Enhanced Tracking

Create an established, robust audit trail that better protects your business against errors and employee theft

### Unlimited Records

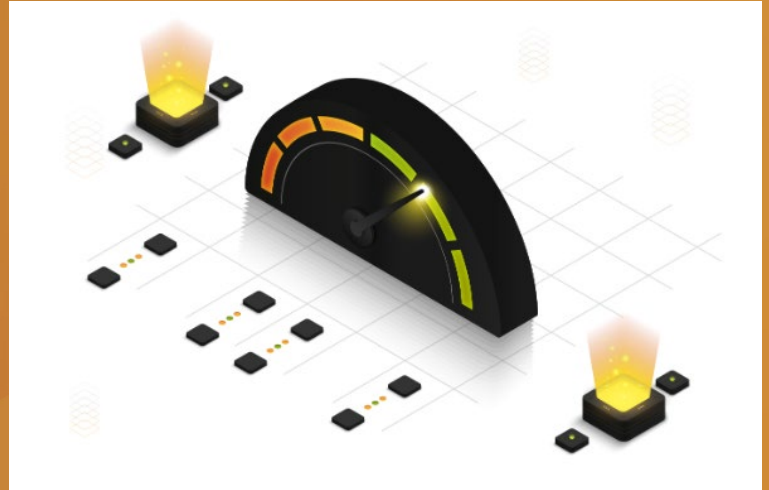

Take advantage of limitless records – and say goodbye to losing capital each time you had to cap your maximum

## ACCELERATOR SOLUTION

Dynamics 365 Finance and Supply Chain Management QuickStart migrates your team from your legacy accounting solution to a robust ERP

All along the Microsoft Dynamics implementation, Armanino was there for us. They were able to come right on board, take over the situation and walk us through everything. They did the discovery, spent time helping us understand our options, pointed out best practices, and provided ideas on areas where we could make changes that would benefit us. They handled every situation that we threw at them.
