

Microsoft 365. The way it should be.

Turn Microsoft 365 into the collaborative and secure environment it should be when you unpack and go with ShareGate. Your go-to Microsoft 365 management solution for big migrations and everyday Teams and SharePoint operations.

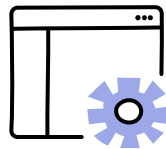

ShareGate, the true out-of-the-box Microsoft 365 management solution that just works.

Fast startup

Take a load off your IT team, get going quickly. Start migrating or actioning management best practices in minutes.

Put your controls in place

Guided by best practices, focus your efforts in the right places and build your migration or management strategy in record time.

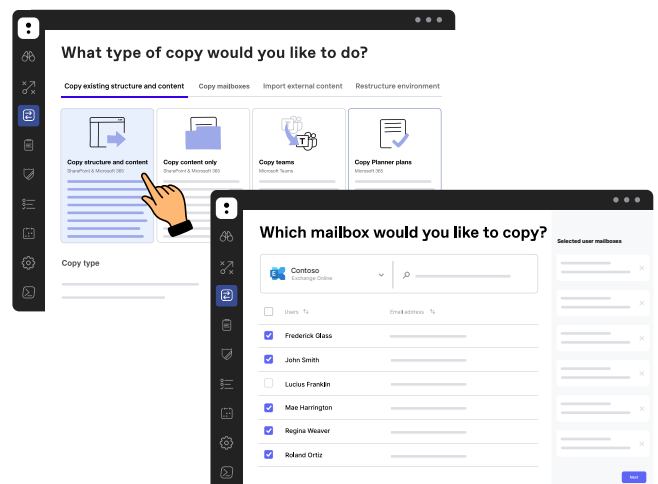

Future-proof management

Automate compliance to your policies in collaboration with users and get agile through change management.

SMOOTH MIGRATIONS

Migrate and organize your SharePoint or Teams environments with ease. Now supporting tenant-to-tenant mailbox migrations! **NEW**

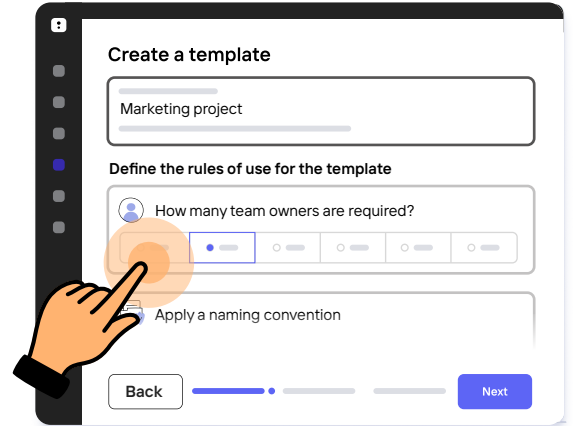

- ✓ **Easy-to-use** – with an intuitive UI and simple drag and drop functionality, get it done now or schedule the move anytime. Easy!
- ✓ **No data cap** – migrate and reorganize content as much as you want for one fixed price. Score!
- ✓ **Fully configurable** – lift and shift or customize, modernize, and restructure as you move content. You choose!

DYNAMIC PROVISIONING

Accelerate productivity with comprehensive provisioning templates that include customized and dynamic templates and guide end users to use the right tools, the right way, right from the start.

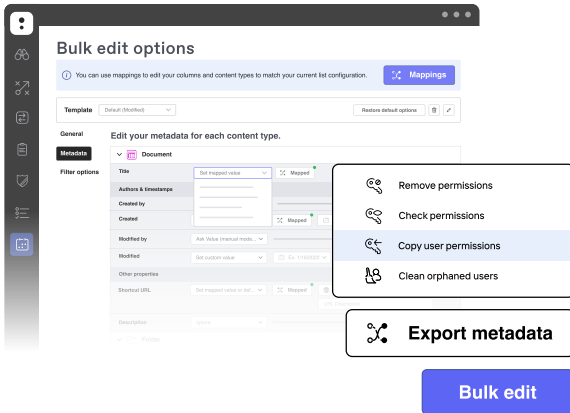

- ✔ **Get self-serve on your side** – enforce your policies and enable users the freedom to use Microsoft 365 the right way
- ✔ **Accelerate productivity** – with full circle provisioning automation and tailored team sites
- ✔ **Skip the scripts** – distribute work throughout your organization within minutes of set up, including approval of newly created workspaces

ADMINISTRATION

Stop fire fighting and move with agility through day-to-day Microsoft 365 operations.

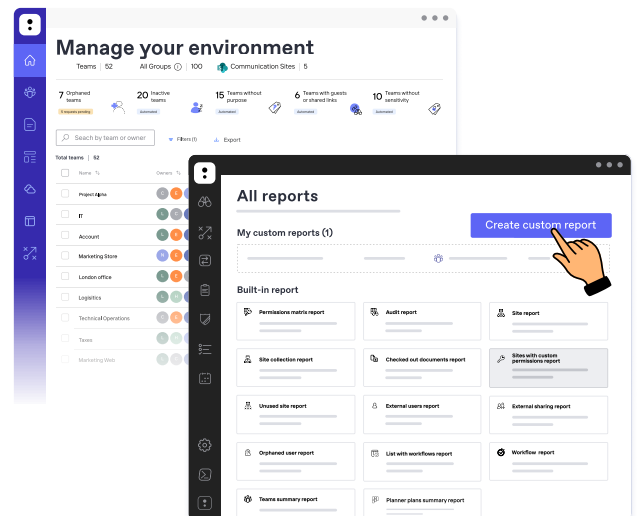

- ✔ **Transform** - maintain optimum productivity for your users and IT team with simple edits to metadata and permissions.
- ✔ **Cloud copy** – move Teams content, whenever, wherever, with the convenience of web access.
- ✔ **Content management** – keep your organization working in the right space using copy actions for SharePoint, Teams, and Planner (no data cap!).
- ✔ **Bulk edits** – modify all your metadata and content types within a list or library in one simple procedure. Boom!

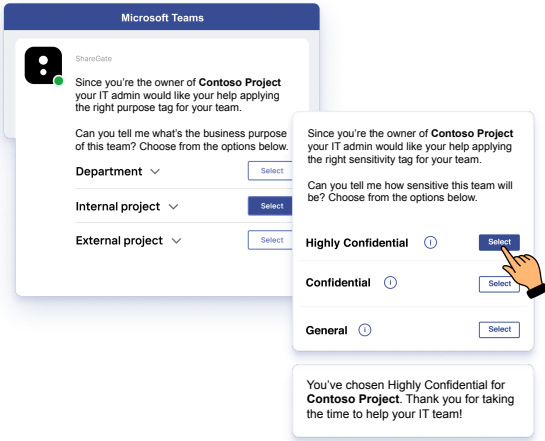

ACTIONABLE REPORTS

Built with Microsoft 365 management best practices in mind, monitor your environment in real-time with built-in custom reports and course correct before things go wrong.

- ✔ **Centralized view** – no need to jump from one Microsoft 365 admin center to the next. Nice!
- ✔ **Fast fixes** – if an issue is found, jump to tips for resolutions direct from reports. Fix it and forget it!
- ✔ **Built-in and custom reports** – reports designed to deliver inventory, security, usage, and permissions data.

CLOSE-THE-LOOP AUTOMATIONS

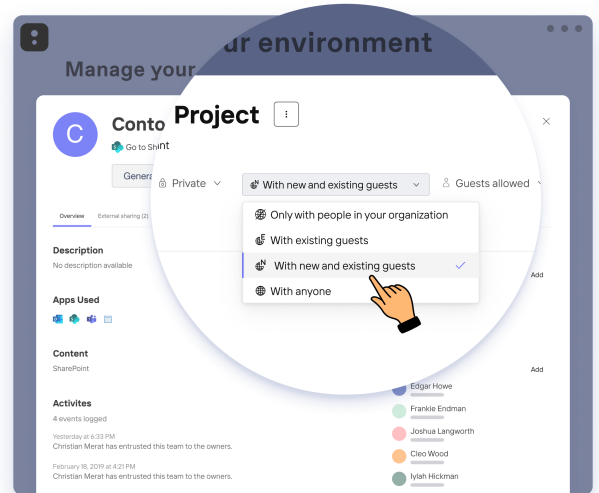

You can automate interactions with teams and group owners to clean up, organize, and govern your tenant.

- ✔ **Faster investigations** – ShareGate highlights the gaps for you without the need for Azure AD Premium. Sweet!
- ✔ **Faster resolutions** – team owners hold the keys to set things like purpose and sensitivity. ShareGate automates collaboration with owners to close those gaps. Hands free!
- ✔ **Automations include** – collecting purpose and sensitivity for teams, cleaning up inactive teams (identify, qualify, maintain/delete/archive), external links and guest management.

FLEXIBLE PERMISSIONS MANAGEMENT

Ensure the right people have access to the right things so you can protect sensitive data.

- ✔ **Manage in bulk** – copy permissions from one or multiple users to others or apply list and library content permissions from one user to another - then quickly make adjustments. Fast and simple!
- ✔ **Granular control** – right-size your permissions to the needs of each team based on its level of sensitivity. Slam dunk!
- ✔ **Permissions Matrix Report** – a single report provides a complete view of your permissions architecture and configuration – all in one place. Easy peasy!

Overall, utilizing ShareGate has helped us increase IT efficiency and allowed us to put more time where we are needed most.
