Ondato OCR technology

Eliminates human error to ensure smooth processes

Creates accessible processes for various languages and alphabets

Allows for quick document processing, minimising onboarding time

Provides the most accurate information when combined with registry checks

Benefits

Global accessibility, covering 186 countries

99.8% accuracy in less than a second

Reads QR codes, VIZs, PDF417 barcodes, and MRZs with no issue

Data Security & Compliance

GDPR COMPLIANT

Data can be stored only on your servers once the process is complete. Ondato will not store anything. If needed for audit purposes, Ondato can offer a cloud repository for storage.

ISO 27001 CERTIFIED

Ondato specialises in ID documents only, unlike other OCR vendors, which gets us the maximum accuracy rates, coverage, and availability. New document types are being added weekly, so you do not need to worry about new or outdated document supportability.

Ooredoo Case Study

Ooredoo uses Ondato services to onboard clients with two distinct flows. The first verification flow was managed by us from start to finish, allowing Ooredoo to minimise the load of their KYC team.

The second verification flow was a hybrid solution which included matching the selfies of customers to the national state registry. This allowed the second flow to be completely automated with our OCR and biometric face match technology, allowing Ooredoo to onboard around 2 million people in a very short time.

ooredoo˙

"Ondato has aligned perfectly with our priorities, responding rapidly and iterating on their offering to help us achieve our desired delivery. Through direct collaboration and problem-solving, we have formed a mutually beneficial partnership that has improved integration and allowed us to become a digital-first telco provider in the MENA region."

Ooredoo

What is Ondato?

Ondato is a tech company that streamlines KYC and AML-related processes for businesses. Our SaaS-based solutions offer AML compliance processes from an identity verification service and business onboarding to the entire client lifecycle and user-based management. Our culture is based on cooperation with our clients, and by solving their business problems, we're contributing a safer digital space for everyone.

Benefits:

- ✔ Global coverage for 192 countries
- ✔ 15,000+ AML sources available for most accurate data
- ✔ 24/7 support to answer any questions you may have
- ✔ Simple, easy-to-use process with no additional IT resources
