CB EXCHANGE SERVER SYNC
for Gmail and Google Workspace

Synchronize Exchange, Office 365, Outlook, Hotmail, Gmail and G Suite Calendars

Stop missing appointments! Stop switching between Outlook and Gmail and losing track of you what you have to do.

Here is the solution for the secure synchronization of calendars data between Exchange Server and Gmail or G Suite.

You can synchronize multiple accounts hosted in Exchange Server or Office 365 with Gmail. Plus, you can migrate them for good, if needed, and have no downtime.

For your synchronization needs

- Get a single merged calendar - sync calendar data of personal and professional accounts – more than showing calendars side by side – you get everything merged into one.

- Get remote access - Sync calendar availability with company internal exchange server

- One-way or two-ways - Migrate all Exchange calendars into G Suite or vice versa

- Coexistence of different servers – Ongoing sync, perfect for Mergers and Acquisitions

- External vendors - Allow sync & writing to internal calendar in a controlled way
