

WorkPlace as a Service

Workspace as a service is a new trend in the business world that is changing the way companies think about work. In this type of service, companies rent fully equipped and ready-to-use workspaces instead of building their own facilities

The Spirit of Freedom

Enhancing your Human Capital

The question is Where and When

Flexibility

Workspaces offer the flexibility that companies need to adapt to changes in the market and an increasingly mobile workforce.

Creative Desing

Workspaces are designed to encourage creativity and collaboration, leading to greater innovation and productivity.

Breakout Areas

Workspaces feature comfortable and relaxing breakout areas, contributing to employee satisfaction and emotional well-being.

www.eekox.com

The Spirit of Creativity

Technology

State-of-the-art technology facilities are included in the services, enabling businesses to work more efficiently and effectively.

Benefits for companies

Cost Savings

Companies save money by not having to build and maintain their own facilities.

Flexibility

Companies can add or reduce space as needed, allowing them to be more agile in an ever-changing business world.

Efficiency

Companies can focus on their core business instead of worrying about facility management.

Benefits for workers

● Creativity

Workspaces are designed in a way that encourages innovation and creativity.

● Comfort

Workers can enjoy a comfortable and modern workspace.

● Fun

Workspaces are attractive and offer many opportunities to socialise and enjoy work.

The Spirit of Productivity

The importance of flexible working

Flexible to suit circumstances

Workers can work in environments that suit their needs, allowing them to be more productive and happier.

Location flexibility

Workers can work from anywhere, allowing them to have a better quality of life and not have to deal with traffic congestion.

Flexibility in working hours

Workers can work flexible hours and adjust their working time according to their personal needs.

The Ability to Choose

All the spaces in just one place!

The question is Where

Workspace management as a service

Open Communication

It is important that employees feel listened to and appreciated in their workplace.

Personalisation

It is essential that employees have the possibility to personalise their workspace in order to feel more comfortable and motivated.

Community management

It is important to build a community in the workspace to encourage collaboration and creativity.

The Spirit of Creativity

Quality equipment

It is important to provide high quality equipment that meets the needs of employees so that they can work more efficiently and effectively.

Conclusion

● Connecting workers

Workspace as a service is an innovative way to connect workers and improve business productivity.

● Evolution of Work

Workspace as a service is an evolution of the way we work and reflects the needs of the modern workforce.
