

# Copilot for Microsoft 365 journey

## How we help with **Softchoice Services:**

- 1** Build a business case, roadmap, and adoption plan through expert-led discussions with our Journey Architects and a personalized **Copilot Planning Workbook**.
- 2** Understand technical requirements to get your environment ready with a **Copilot Readiness Assessment**.
- 3** Uncover the art of the possible and empower your end users with **Copilot Adoption and Change Management Services**.
- 4** Optimize your environment and deploy Copilot with confidence with **Copilot Implementation Services**.
- 5** Optimize and maintain value of Copilot investment over time with **Copilot Support and Lifecycle Services**.

# Softchoice's early adopter experience

As a member of Microsoft's Early Access Program, we were among the first companies to use Copilot in a real-world environment. These are some of the highlights from our initial three-week user study:

- **100% utilization rate** (persona development and change management were critical).
- Immediate productivity gains were **1 to 1.6 hours** per user per week.
- Users that adopted a Copilot-first mindset reported savings of **multiple hours** per week.

Business Group: Learning & Dev't  
Persona: Content Creator

- **70% reduction** in time spent creating four eLearning modules (1 month vs. 3 months).
- Avoided outsourcing costs.

Business Group: Marketing & Sales  
Persona: Content Creator

- **62% reduction** in time creating customer-facing presentations (3 hours vs. 8 hours).
- **67% reduction** creating detailed service descriptions (1 day vs. 3 days).

Business Group: Public Sector Sales  
Persona: Content Creator

- **50% reduction** in time spent reviewing bid proposals (1 day vs. 2 days).
- **97% reduction** creating technical review meeting summaries (3-5 minutes vs. 3-4 hours).

Business Group: Customer Success  
Persona: Delivery Agent

- **75% reduction** in time documenting meeting summaries & next steps (10 minutes vs. 40 minutes).
- **75% reduction** documenting 9 CSAT meetings (90 minutes vs. 6 hours).

# Our value and key differentiators

## We know the whole Copilot journey.

We have the end-to-end technical and consulting capabilities to help you build a Copilot strategy and roadmap, get your people and technology ready, secure your data, deploy and scale access, and sustain adoption over time.

## We know Microsoft better than anyone.

- Microsoft partner for 30+ years
- Azure Expert MSP
- 300+ Microsoft certifications
- 5 Solutions Partner designations and 9 Advanced Specializations across Azure, Modern Work and Security
- 20 million+ unique seats managed across Microsoft Office 365 workloads

## We know from experience.

As a member of Microsoft's Early Access Program, we were among the first companies to use Copilot in a real-world environment.

We documented our deployment from start to finish and use learned best practices to lead others.
