

Assessment for migration from Dynamics AX to Dynamics 365 Finance and Supply Chain Management

Are you considering upgrading from Dynamics AX to Dynamics 365 Finance and Supply Chain Management? Our comprehensive assessment service is designed to help you understand the scope, benefits, and approach for a successful migration. We analyze your current Dynamics AX setup, identify potential challenges, and provide a clear roadmap for the transition to Dynamics 365, ensuring minimal disruption to your business operations.

Advantages:

Comprehensive system analysis: Gain a thorough understanding of your current Dynamics AX environment with an in-depth review of customizations, integrations, and data structures, ensuring a well-informed migration strategy.

Customized Migration Strategy: Receive a tailored migration plan designed specifically for your business needs, minimizing downtime and ensuring a smooth transition to Dynamics 365 Finance and Supply Chain Management.

Deliverables

- **Current state assessment report:** Detailed documentation of your current Dynamics AX environment, including customizations and integrations.
- **Migration readiness report:** Analysis of your system's readiness for migration and identification of key areas needing attention.
- **Migration roadmap:** Step-by-step plan outlining the migration process, timelines, and resource requirements.
- **Cost-benefit analysis report:** Comprehensive report detailing the expected costs and benefits of the migration.
- **Risk mitigation plan:** Strategies to address potential challenges and ensure a successful migration.

Target audience

Businesses currently using Dynamics AX	Companies looking to upgrade their ERP system to leverage the advanced features of Dynamics 365 Finance and Supply Chain Management.
IT managers and decision makers	Professionals responsible for overseeing the ERP systems and seeking to understand the benefits and process of migration.
