Dynamics GP to Dynamics 365 Business Central migration: 4-week assessment

Upgrade your ERP system to the modern cloud-based solution, Dynamics 365 Business Central, for enhanced functionality, scalability, and security. Our Migration Assessment service is tailored to help businesses currently using Dynamics GP understand the benefits, challenges, and urgency of migrating to Dynamics 365 Business Central. With Dynamics GP nearing the end of mainstream support, now is the time to plan your migration and ensure a smooth transition to a supported platform.

Deliverables:

- **Current state assessment report:** Documentation of your current Dynamics GP environment, emphasizing the risks of remaining on unsupported software.
- **Migration readiness report:** Analysis of your system's readiness for migration, including immediate data cleansing and preparation requirements.
- **Migration roadmap:** Step-by-step plan outlining the migration process, emphasizing the timelines and risks of delaying migration.
- **Cost-benefit analysis report:** Comprehensive report detailing the expected costs and benefits of the migration before GP support expires.
- **Risk mitigation plan:** Strategies to address potential challenges and ensure a successful migration before the end of GP support.
- **Post-migration support plan:** Recommendations for post-migration support and optimization to maximize the benefits of Dynamics 365 Business Central with ongoing Microsoft support and updates.

Advantages:

Minimize downtime and risks: Benefit from a tailored migration strategy and comprehensive risk mitigation plan designed to ensure a smooth transition with minimal disruption to your business operations.

Customized Migration Strategy: Receive a tailored migration plan designed specifically for your business needs, minimizing downtime and ensuring a smooth transition to Dynamics 365 Business Central.

Target audience

Companies using Dynamics GP	Organizations looking to upgrade their ERP system to Dynamics 365 Business Central before the end of GP support.
Business owners and IT managers	Decision-makers responsible for the migration process and ensuring alignment with business objectives before GP support ends.
Finance managers	Professionals seeking to improve financial management and streamline operations through a modern cloud-based ERP solution before GP support expires.
