# Mobility Suites Main Features

## APPLICATION DISTRIBUTION MADE EASY

Securely and silently install in-house apps and easy to control which apps are allowed to install in your corporate mobile device

## REALTIME DEVICE INFORMATION

View detail reports of telco provider information, location, battery information, last check-in and activities related to your devices

## ANTI-THEFT DEVICE PROTECTION

By activating the force lock down mode, you can lock all functionality of your devices, so the device cannot be used and cannot be wiped

## POWERFUL FUNCTIONAL RESTRICTION

The best way to fully control your employee devices such as always on GPS location, disable SD card, disable camera, block factory reset and disable device administrator

## CORPORATE BRANDING

Change your device home screen with your company logo or custom wallpaper

## ACCURATE DEVICE LOCATION TRACKING

Track the location of your employee in real-time using mobile devices and keep their movement history report for 30 days

## CUSTOMIZABLE

Custom feature based on your company needs and integrate your application with our sharing API platform

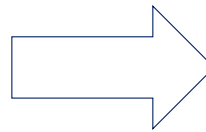

# Application Distribution – Silent Push App

**Before:**

Require no interaction  
and any permission  
from user.

# Real Time Device Information

The screenshot displays the Helios Mobility Suite interface. On the left is a dark sidebar with navigation options: MAIN NAVIGATION (Dashboard, Users, Groups, Devices), MESSAGING (Notification), MDM FEATURES (Policy, Wifi Config), and MAM & MCM FEATURES (Applications, Block URL). The main content area shows a table of managed devices. Below the table is a purple header for 'SUMMARY DEVICE', followed by a detailed view of a device with sections for Phone (Serial Number, IMEI, Battery Level, Signal Strength) and System (OS Version, Processor, Network Operator, Licence). A 'WIPE DEVICE' button is visible on the right side of the detailed view.

MODEL	SERIAL NUMBER	LICENSE STATUS	LICENSE PERIOD	USER	LAST CHECKIN	ACTION
SM-G965F	R58K32XR54J	Active	-324	Galaxy S9+	0d 1h 0m	UNENROLL
SM-G570Y	RR8J30B9S4Y	Active	-365	Galaxy J5	0d 0h 0m	UNENROLL

**SUMMARY DEVICE**

**Phone**

- Serial Number: RR8J30B9S4Y
- IMEI: 353421087372646
- Battery Level: 4%
