

No-Code. No Limits

True No Code Solution for Rapid App Development

Exceptional UX

Creating beautiful user journeys

Data Driven

Advanced Data Modelling without the cost

Seamless Integration

Effortlessly connect to third party systems.

Genaiera

Accelerating Power Apps Development with AI-Driven Innovation

Genaiera Features

INTELLIGENT USER STORY GENERATION

Genaiera interprets the intended purpose of an app and automatically generates comprehensive user stories, setting a clear development path.

AUTOMATED DATA MODELING

Genaiera crafts a robust data model, essential for structuring any application, ensuring efficiency and coherence in the app's backbone.

DYNAMIC SAMPLE DATA CREATION

This feature generates relevant sample data, streamlining the testing and validation process.

ADVANCED FORM BUILDING

Genaiera's automated form-building capabilities are unprecedented, enabling the creation of complex, interactive forms for detailed data collection.

INSTANT VISUALIZATIONS

Instant integration of customizable components like charts and dashboards facilitates enhanced data visualization.

SEAMLESS INTEGRATION

Harness the full potential of Power Automate within your applications to effortlessly connect with an expansive network of over 1000 external services.

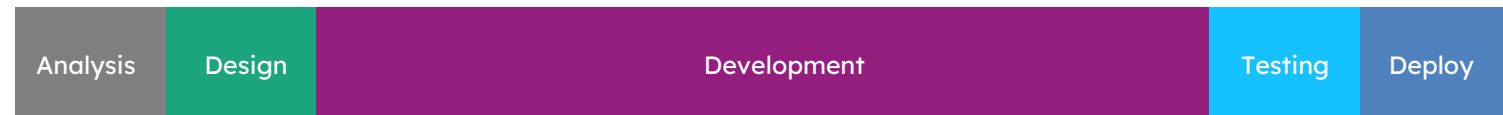

Innovation Efficiencies

Increase ROI by transitioning to Genaiera
