The Art & Science Of Prompting

1. Tell Copilot what you need

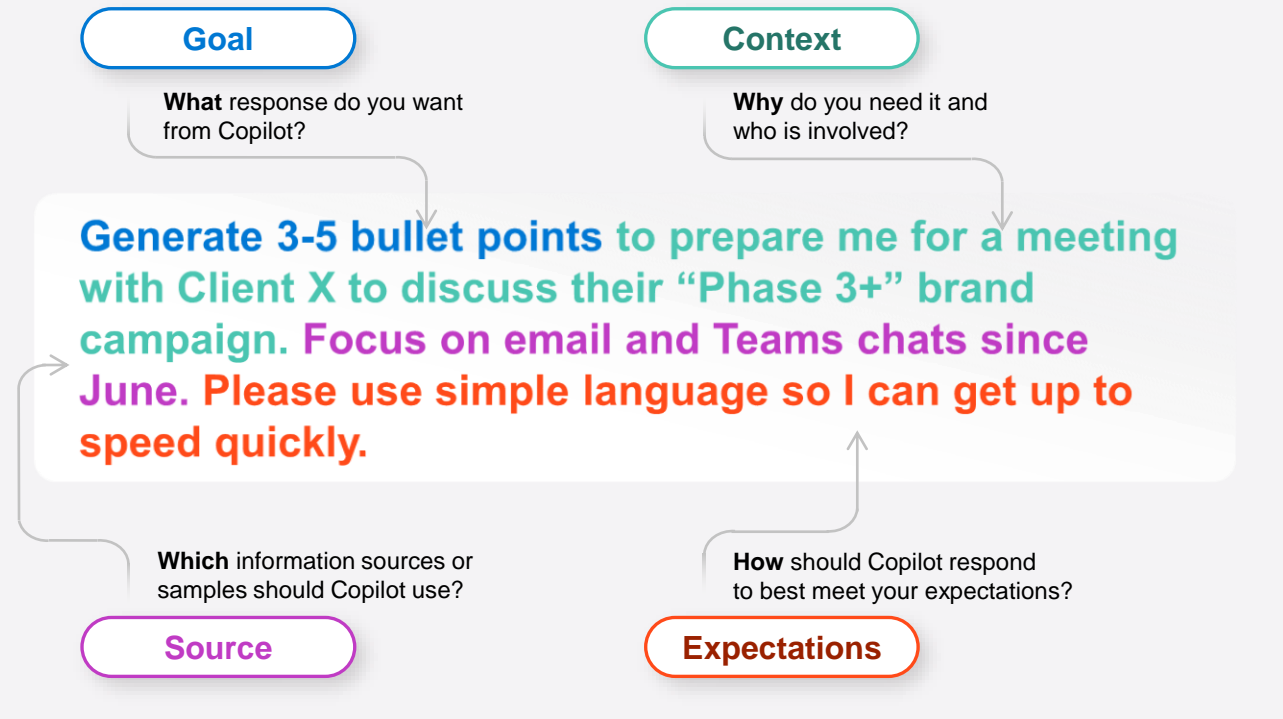

There are many types of prompts you can use depending on what task you want done.

- ✓ **Learn about projects and concepts:**
“What is [Project X] and who are the key stakeholders working on it?”
- ✓ **Edit text:**
“Check this product launch rationale for inconsistencies.”
- ✓ **Transform documents:**
“Transform this FAQ doc into a 10-slide onboarding guide.”
- ✓ **Summarize information:**
“Write a session abstract of this [presentation].”
- ✓ **Create engaging content:**
“Create a value proposition for [Product X].”
- ✓ **Catch-up on missed items:**
“Provide a summary of the updates and action items on [Project X].”

Prompts are how you ask Copilot for Microsoft 365 to do something for you — like creating, summarizing, editing, or transforming. Think about prompting like having a conversation, using plain but clear language and providing context like you would with an assistant.

2. Include the right prompt ingredients

To get the best response, it's important to focus on some of the key elements below when phrasing your Copilot prompts.

The Art & Science Of Prompting

3. Keep the conversation going

Following up on your prompts helps you collaborate with Copilot to gain more useful, tailored responses.

Generating content ideas

Lead with broader requests, then give specific details about the content.

Gaining insights

Ask for a summary of a specific file, then ask relevant questions to gain deeper insights.

Enabling insightful meetings

Request a meeting recap, then ask for more information about what you should know.

Translating languages

Ask Copilot to translate a sentence to one of the supported languages, then ask for more context or a regional dialect.

Storytelling assistance

Ask Copilot to write a story, then guide it by giving more specific, relevant details.

Solving technical problems

Present a technical problem, then narrow it down, or ask for step-by-step guidance.

Helpful hints to keep in mind

Know Copilot's limitations

Copilot is limited to your current conversation, so give lots of details.

Use quotation marks

This helps Copilot know what to write, modify, or replace for you.

Be professional

Using polite language improves Copilot's response.

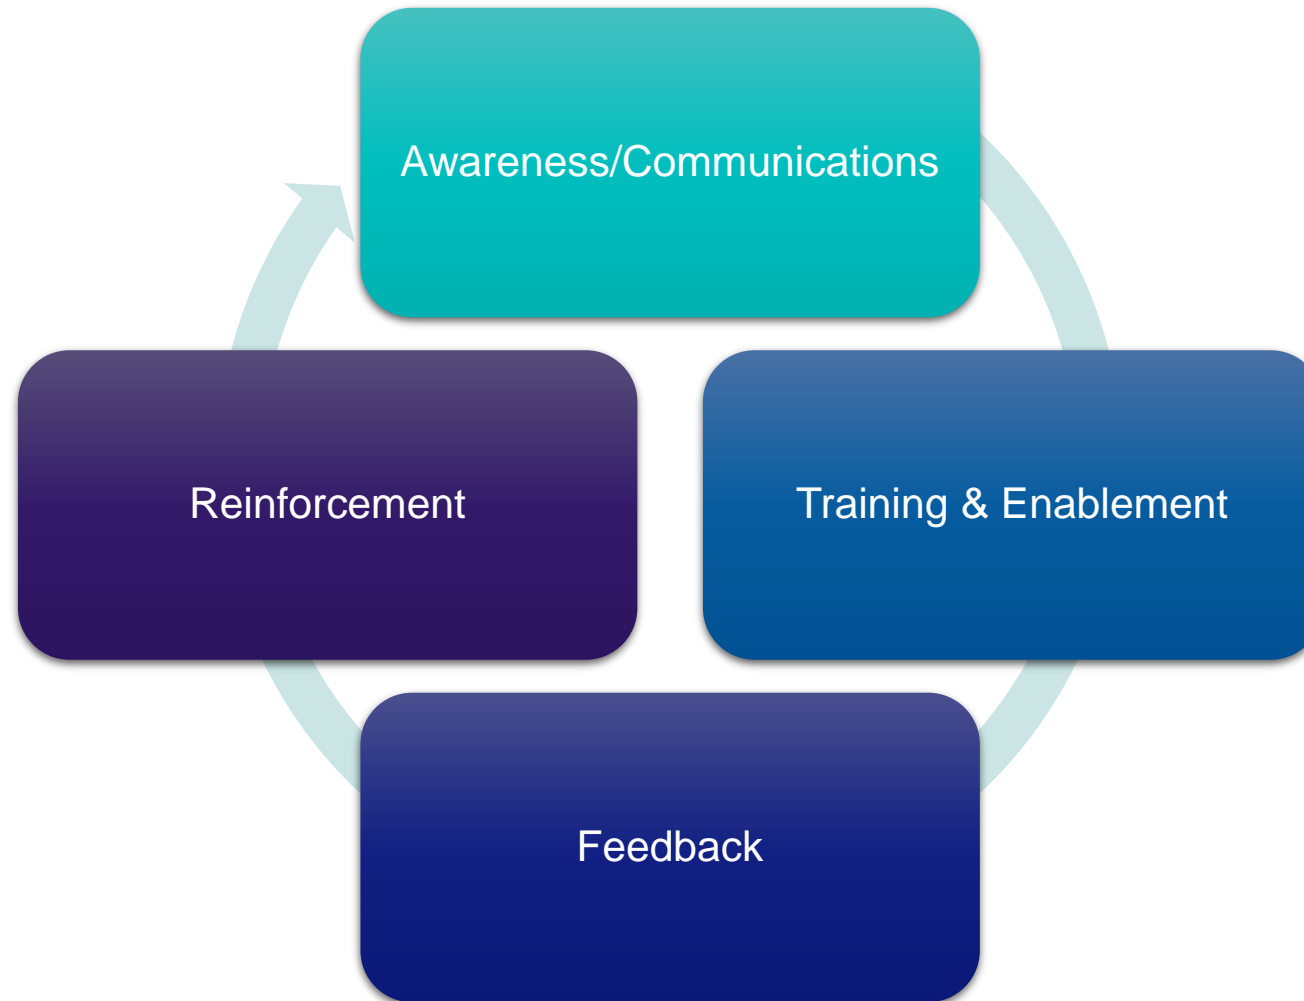

Communicate clearly

Pay attention to punctuation, grammar, and capitalization.

Start fresh

Avoid interrupting and type "new topic" when switching tasks.
