Education,**
and so much more.

Interactive & Empathetic

Our patented Digital Brain™ models human biological and neural systems. Our multimodal Digital People truly 'read' users' emotions via camera and microphone technology, giving relevant, emotive responses that build trust and loyalty.

GPT / LLM Agnostic

Powered by Biological AI, your Digital Person can be trained on any LLM – e.g. your company's secure, content-specific model, or simply plug and play with GPT integration.
