

# On-Premises Dynamics to Dynamics 365 Migration

## 1-Day Assessment

Receive a professional assessment of what it will take for your organization to migrate.

Interested in making the move to Dynamics 365? Migrating from an on-premises Dynamics CRM to online Dynamics 365 has numerous benefits including access to the latest releases, online-exclusive features, improved security and more. Altriva Solutions makes the process easier, faster and more efficient using a tried and tested methodology for on-prem to cloud migrations and an experienced team of Dynamics 365 consultants.

During your assessment, Altriva will get know your business processes and environments to identify your specific migration needs. Beyond providing technical expertise, our consultants can identify and recommend opportunities to enhance performance, review current processes, evaluate system usage and data volumes, identify plugins and integrations that may require revision, and provide insight into new, unused, and underutilized features.

### Deliverables

- ✓ A custom migration proposal with implementation timeline and cost estimate

**Contact us to discuss the details of Altriva's migration assessment and to determine if it can be utilized for your organization.**

### Agenda

- Intros & topic review
- Review current business processes, system usage, and architecture
- Evaluate goals for online migration and opportunities for improvement
- Discuss migration options & requirements
- Q & A
- Next steps
