Copilot for Microsoft 365 Readiness Assessment

Learn how to embrace the AI-powered future of work

What is the Readiness Asessment?

The Bulletproof team will help your organization prepare to deploy Copilot for Microsoft 365 in a manner that is manageable and a fit for your business.

Our Team will:

☑ Assess your readiness for Copilot for M365

☑ Help in your information governance development

☑ Provide recommendations for your rollout

The Benefits

Understanding your current data and the governance state - critical to ensure what Copilot for Microsoft 365 will use as its data source.

Tap into a team of Information Management and Data Security experts.

Gain best practices based on our own and client experience to ensure effectiveness.

Leverage a standard framework and process to ensure optimal quality.

Better understanding of your Copilot for Microsoft 365 readiness, use cases, and potential ROI.

Get more engaged business units that will understand the overall impact.

The Process

We will guide you by bringing our best practice approach to your preparation and deployment.

This includes a stakeholder engagement, a baseline review of existing information management related policies and standards, and a technical examination of current setup, and a licensing review.

This is all supported by active knowledge transfer to users and technical staff.

Plan

- Scope and vision
- Requirements
- Stakeholders
- Schedule
