Building Blocks

Landing Zone - Structure

An Azure Landing Zone provides a foundational environment for deploying and managing workloads in Azure, ensuring best practices in areas like networking, identity management, governance, security, and management. It offers a scalable and secure framework that aligns with enterprise requirements, streamlining the path to a successful cloud adoption.

Structure

Effective Landing Zone Setup

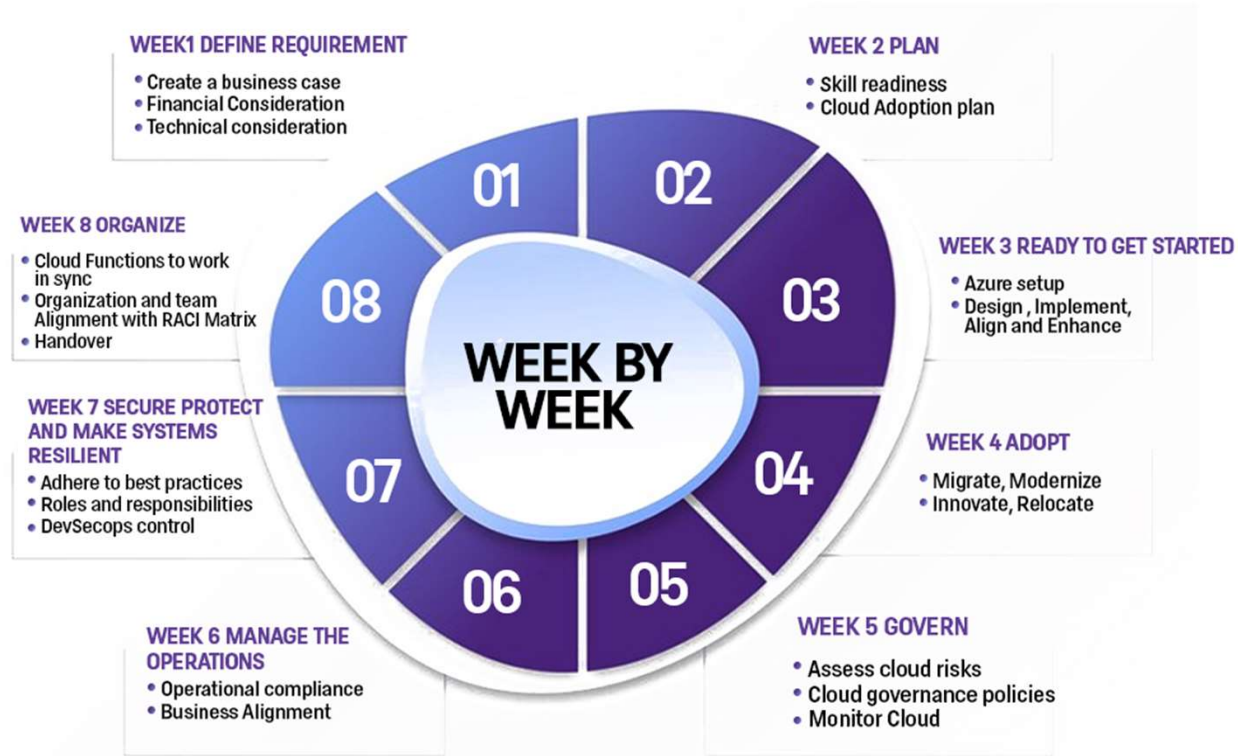

Peritos offers comprehensive Azure Landing Zone setup services, ensuring seamless integration of networking, identity management, governance, security, and management practices. Our expertise guarantees a scalable, compliant, and secure cloud foundation, tailored to meet your enterprise's specific needs.

Landing Zone

Week-wise Plan

Our detailed week-wise plan ensures a structured and comprehensive approach to cloud adoption and management. From defining requirements and skill readiness to securing systems and operational compliance, each week focuses on critical aspects for a successful cloud transformation.

About us

Peritos is a global IT Consulting, Solutions and Services provider firm. Our vision is to be a world-class IT solution and service provider creating value and excellence for our clients and partners

We focus on using emerging, disruptive technologies such as cloud, AI/ML, IoT, analytics, etc. to provide powerful solutions and products for clients across industries.

We started our operations in 2013 and we are now a registered firm in India, New Zealand, Australia and US.
