Intelligent Business Automation

A governed path from idea to automated processes for your organization:

1 **Basic tech setup:** We enable one-time Power Platform CoE and Governance setup.

2 **Envisioning & value mapping workshop:** Onboarding on best practices and possibilities, brainstorming on 20-30 practical scenarios tailored to your business needs, prioritization of the most valuable scenarios, and mapping of the necessary steps to bring them to life.

3 **Design & Build workshops:** we design and transform your prioritized ideas into real business automation.
