ESG & Sustainability

Empower ESG compliance and improve sustainability

An end-to-end solution to accelerate organizational sustainability and ESG performance

Whether it's complying with regulations, harnessing the power of AI, or fostering collaborative innovation, the path to sustainability is both a business opportunity and a moral imperative. HSO can help address the complex landscape of environmental, social, and governance (ESG) reporting while driving innovation and sustainability.

ESG Data Management **Enhanced Insights** **Scenario Modeling** **Automated Reporting**

ESG Data Management
• Easily collect, centralize, and manage data related to environmental metrics and generate a complete view of sustainability and ESG performance

Enhanced Insights
• Generate interactive dashboards and reports to visualize your ESG data, enabling more informed decision-making and transparency in sustainability reporting

Scenario Modeling
• Leverage "What-If Analysis" for different scenarios and get insights into the impact of changes in energy consumption and operational practices on emissions and sustainability goals

Automated Reporting
• Automate the generation of sustainability reports, save time and resources while ensuring accuracy and consistency in reporting

Powered by Microsoft

HSO's ESG & Sustainability solution extends the power of the Microsoft Sustainability Manager with our DnA accelerators.

With AI-infused automation, deep data & analytics capabilities and configurable BI tools, you can harness the power of Microsoft to drive automation, real-time actionable insights and deliver results.
