

# GRANT+

A cloud-based tool for Grants management, leveraging MS Dynamics 365 and Power Apps.

May 29, 2024

## There is growing demand for easy online funding services at all levels.

The intake and assessment of multiple funding requests creates administrative burden that can be overwhelming, and expensive to manage. Companies are constantly under pressure to improve services that they provide to the end user.

### Primary challenges

Getting approvals on funding requests later than expected can put Key Performance Indicators (KPI), return on investment reporting and timely funding support at risk. Firms need to adapt easily to meet expectations.

### Ideal solution

Grant+ takes this challenge head on with an advanced grants management digital service delivery tool designed to provide secure online services and give administrators the flexibility to handle demands effectively.

### Desired outcomes

With Grant+, firms can provide clients a user-friendly self-serve tool that includes registrations, submissions, reviews, payments and progress tracking status reports by leveraging MS Dynamics 365 & Power Platform.

# What is Grant+?

Grant+ provides a library of grant management services that empowers any organization to manage grant and contribution programs efficiently, bringing the power of Microsoft to the granting professional.

## Web Portal Features

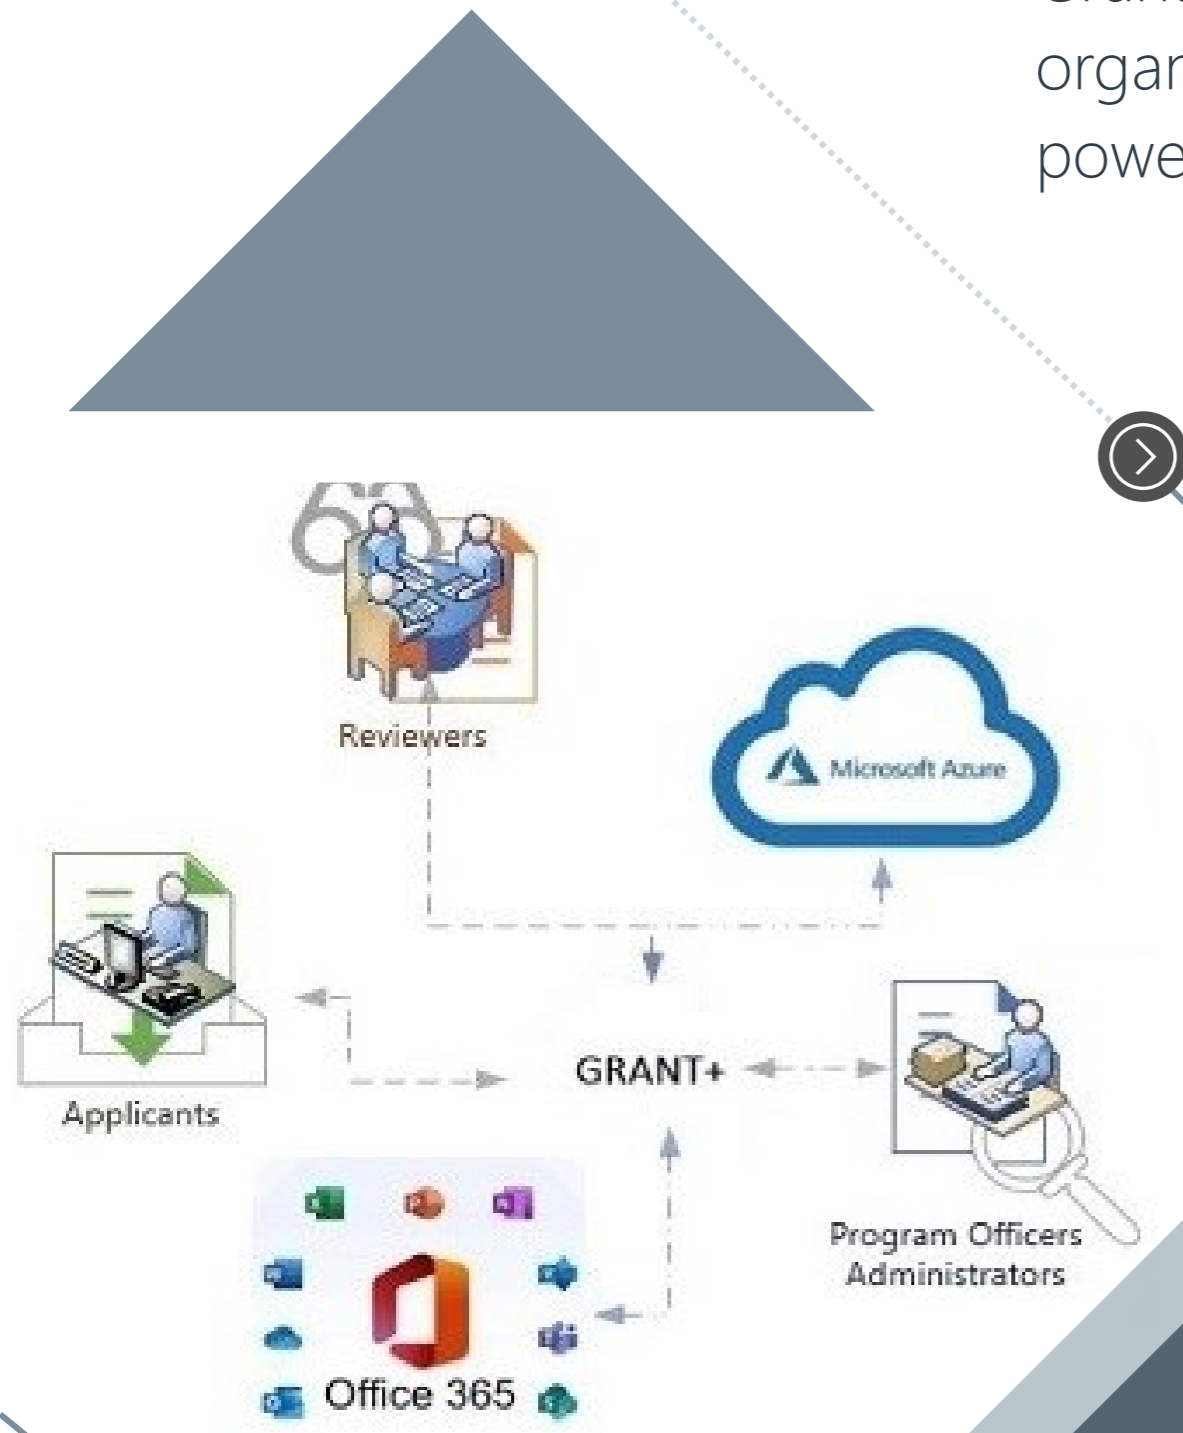

Secure access to portal, online profiles & forms, multi-lingual, WCAG 2.1AA compliant, mobile compatible.

## Program Office Admin Features

Administer Funding Programs, Agreements, Amendments to Applications or Agreements, Payments, Close out.

## Facilitates Performance Reporting

Enable dashboards & reports on funding requests awarded, total value, or summary of the results to date.

# Eperformance, Grant+, and Microsoft Power Platform

With a constant need for efficient automation & enhanced performance to shorten timeline to design, build and deploy solutions, Eperformance strives to rapidly implement optimized solutions using MS Power Platform - for legacy system migration, deliver business goals or providing support to manage, extend or complement existing solutions.

## Integrate MS in Business Decisions

Our certified experts can plan, architect & implement strategically to align business objectives with technology needs to maximize return on investment.

## Build on CRM capabilities

The guidance, tools, templates and best practices used by Eperformance can help increase the consistency, quality & success of MS CRM engagements.

## Integration to other tools

Integrate with Microsoft Teams, Office, SharePoint or use Power automate for 3rd party tool access like DocuSign, SAP, Oracle Financials etc.
