

# From ideas to insights: CENTERSIGHT scale

# It's in our DNA: IoT & Analytics

**20 yrs**

of shaping the market

**100+**

experts for your project

**200+**

projects implemented

**CLOUD**

solutions made in Munich

**KUKA**

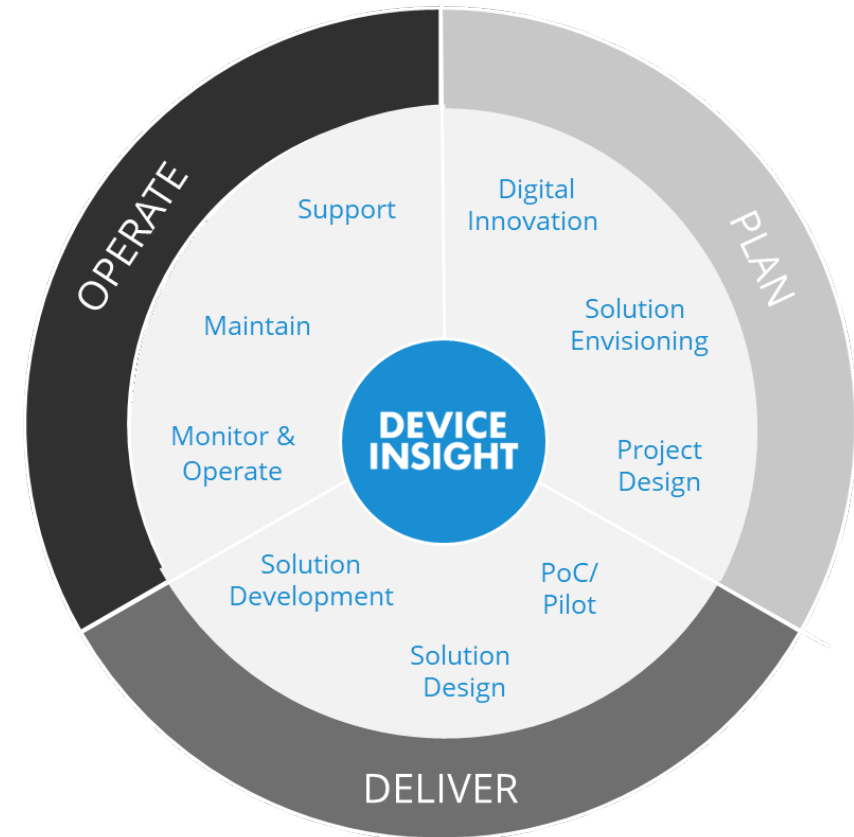

company since 2019

# Device Insight Value Stack

Full-stack IoT & analytics competence

...combined with 360° Service

# IoT Solution Approaches

Combining the best of both worlds

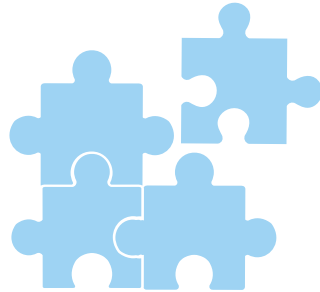

**Hyperscale Cloud  
PaaS**

**IoT for  
digital transformation**

**Device Insight  
Solutions**

**Combining the best of  
both worlds**

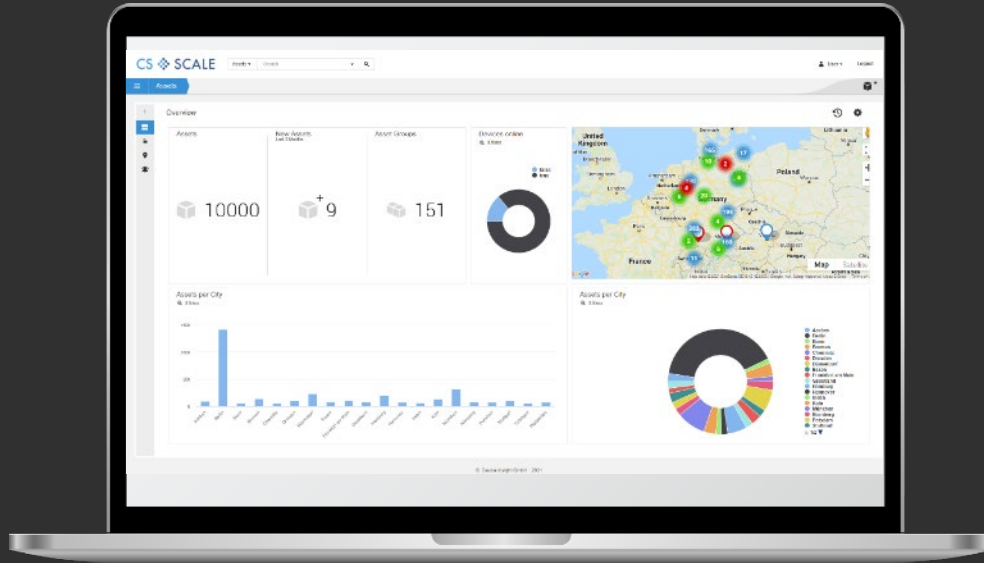

**Ready to Use  
IoT SaaS**

**IoT as a tool  
for a specific task**

# CENTERSIGHT scale IoT Framework

**Adaptable.** Use case specific customizations

**Extensible.** With Full REST API

**Scalable.** Natively built on Microsoft Azure

Enabling scalable & customized IoT portal solutions that integrate seamlessly

**Asset Management & Search**

**Device Management Integration**

**Data Modelling**

**Power BI Integration**

**Digital Twin**

**Alert Integration**

**Time Series Analysis**

**Notification Integration**

**Asset & Asset Group Dashboards**

**Enterprise Integration Bus**

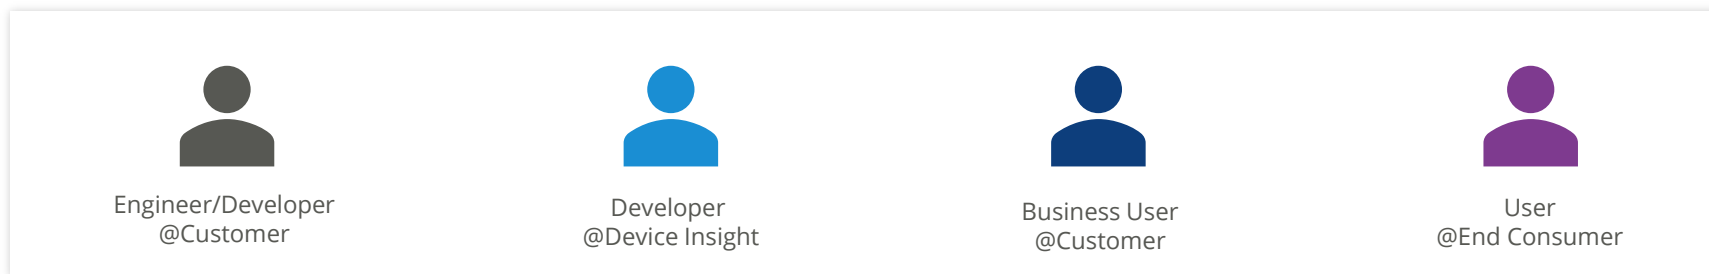

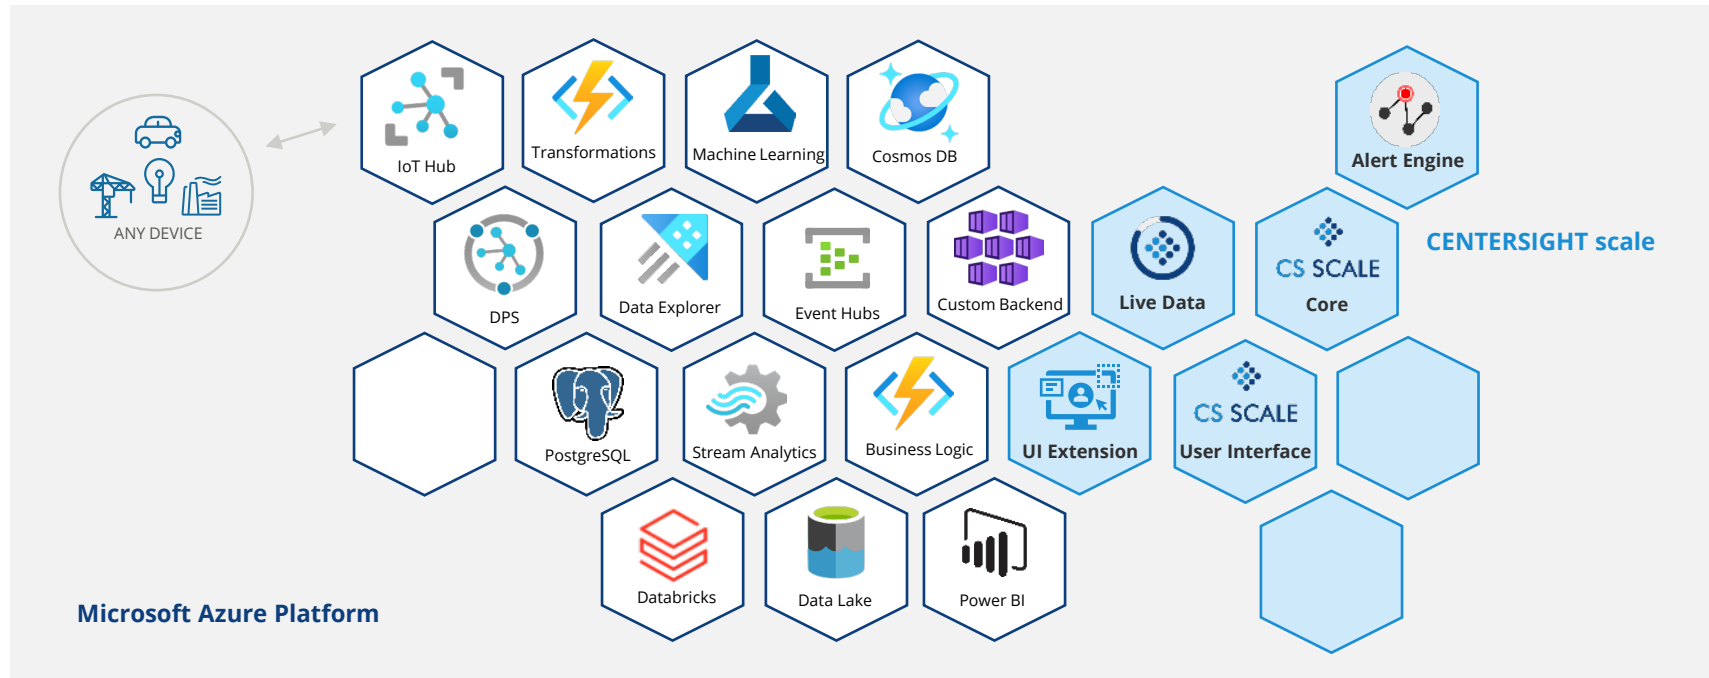

**Multi-dimensional User & Access Management**

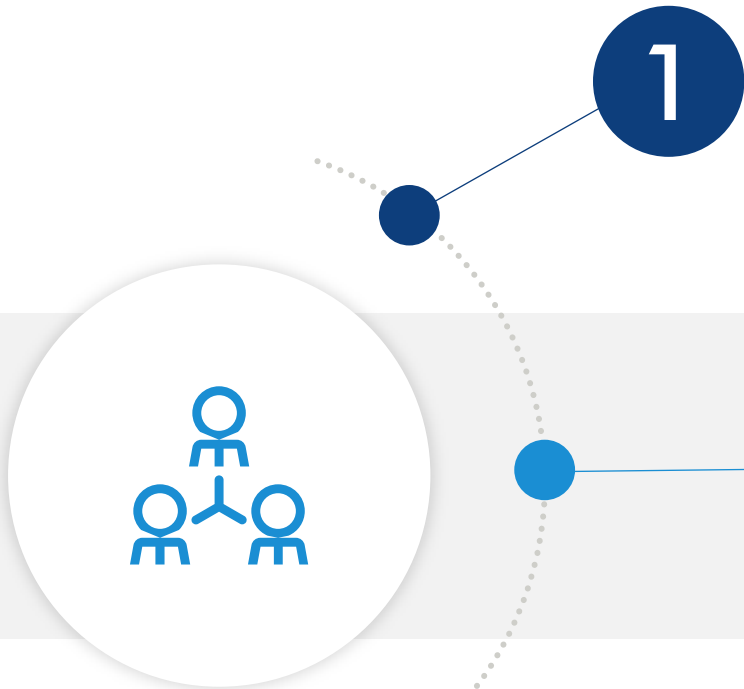

**Ready UI Framework**

# IoT Application Framework with Native Azure Integration

Solutions built on Azure IoT to maximize flexibility and sustainability

# Flexible collaboration scenarios

1

## Agile Device Insight Team

Development of applications and services by Device Insight, in close, agile coordination with customer

2

## Joint Customer – Device Insight Team

Joint development of applications and services, with the advantage of sharing know-how, experience and technology optimally

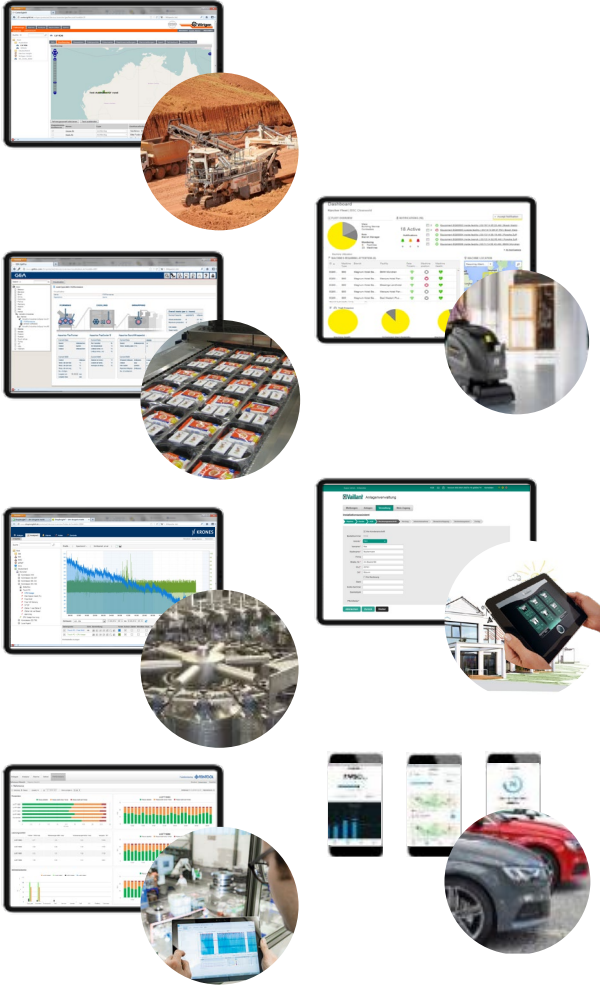

3

## Customer Application Engineering Teams

Customer AEs develop services and applications independently and without Device Insight in order to complete the IoT platform

# Use cases and applications

## Project examples

Monitoring and Predictive Maintenance

Value Chain Process Optimization

Quality Assurance & Compliance

Fleet and Equipment Management

Customer Insights & Personalization

New Development Business Models

Fraud, Risk and Anomaly Management

Real Time Demand Chain Management

We help you to realize  
IoT projects.

# Transforming insights into actions.
