Anticipate, Adapt, Excel: Forecasting the Future of Demand

Ever felt the pressure of not knowing how much steel to import or export, fearing overstock or stockouts?

Enter *thouSense*, our demand forecasting and planning solution.

By simply feeding in your historical demand data, thouSense delivers accurate demand forecasts. What's more, it factors in hierarchy, promotions, weather, and macroeconomic datasets to ensure you're always a step ahead in your procurement strategy.

Don't let uncertainty hold you back!

We're excited to provide you with a 30-day free trial of thouSense (and we can even extend it to 2 months if you're interested).

Your Opportunity Awaits!

HEAR FROM OUR CUSTOMERS
From Steel Struggles to Supply Chain Triumph

"We engaged with Thoucentric to address our price and demand forecasting challenges. Although their prior experience didn't encompass the steel industry, their dedication to comprehending the nuances of our sector and tailoring their *thouSense* and *PriceVision* solutions to our specific requirements was exemplary."

– CEO & Director of a Steel import export major
