Simpli Contract
Intelligently Simple

Let's **Simplify** Contracting!

Contract Lifecycle Management (CLM)

Platform Overview

Built to Simplify Contracts for You!

SimpliContract - a SaaS-based and AI-powered (NLP & OCR) end-to-end enterprise contract lifecycle management platform.

Democratizes authoring & establishes powerful post-signature contract management practices with power of AI.

Supports organizations across the contract lifecycle & enables effective collaboration for internal and external stakeholders.

Built by technologists, lawyers & contract management experts - giving you the best in technology, domain expertise & process transformation.

Contractual Challenges & Impact

Simpli Contract
Intelligently Simple

Contracting Time

Longer sales/ procurement cycles

- Contract creation, negotiation & approvals take forever

- No standardization in templates & clauses, self service options

Contract Visibility

Terms, renewals & payments

- Missed payments, renewals & obligations

- Inordinate time spent on reviewing existing contracts

Compliance

Process, templates & clauses

- Multiple teams, different systems & processes.

- Localized regulations in research, development & sales

Audit Capabilities

Risk

- Lack of a robust audit trail & user control resulting in data leakage

- Ability to audit at individual contracts from creation to closure

Lack of Insights

Access to contextual data

- Unable to negotiate better, implement or measure metrics

- Cycle time, clause changes (frequency), contract performance

End-to-end CLM Platform

Modules & Features Addressing All Your Needs

Simpli Contract
Intelligently Simple

Contract Authoring	Contract Repository	Contract Management	Analytics & Insights	Enterprise Integrations	Data Extraction
Guided Request	Smart Search	Obligation Tracking	Custom Dashboard	Outlook & Word	Clause Extraction

Enterprise Grade Offering

Beyond digital signatures & contract repositories…
built for an enterprise.

Integration
with enterprise applications
(ERP, CRM, eSign, P2P, S2P, MS Word)

Collaboration
across functions
(legal, sales, procurement, finance…)

Coverage
of all contract types
(buy-side, sell-side, employee…)

Repository
of all legacy contracts with access restrictions

Insights
on templates, clauses & exceptions for better control & compliance

SaaS-based + Quick Implementation

Configurable platform

- Robust architecture.
- Beyond customizing just business rules, approvals & escalations...
- ... you can go deeper and configure workflows at entity, template, clause-level.
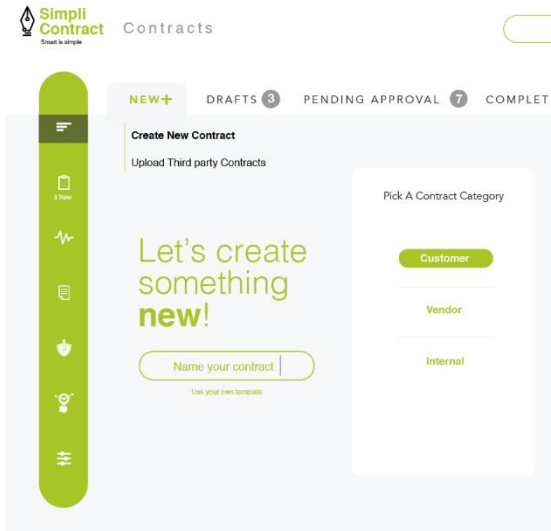

Agile integrations

- Seamless integration and data exchange with your enterprise apps.

User-friendly & Intuitive Design

Co-created with lawyers, customers & industry mentors.

Easy to use

Designed on customer feedback.

High adoption

Intuitive for business users across the spectrum.

Personalized

Flexible and adapts to your needs.
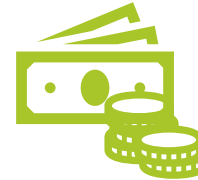

CLM Value Proposition

Quicker Revenue

40% reduction in contract authoring time.

Quicker revenue realization (18% of sales cycle spent on contracting).

Reduced Costs

Reduction in revenue leakage – 9% of bottom line.

Optimized spend & 10-12% reduction in expenses.

Improved Compliance

Reduced risk – 2% of annual costs.

Real-time contractual insights for improved compliance.

End-to-end CLM platform

One platform for legal, sales & procurement teams.

Quick deployment

Simplify contracts across the enterprise in just 3 months
