Turbulent times call for disruptive SRM Supplier Relationship Management for the 21st Century

About Suppeco

We are an Azure native cloud SRM leader. Our customers appreciate the importance of going beyond contract performance; seeking exponential value through the top line. Truly reciprocal co-resilient relationships, that explore trust, shared values and innovation, enhanced collaboration, and thought leadership.

What we offer

With Suppeco you create dynamic narrative which is entirely more valuable than simply creating more KPI dashboards! We do those too!

Suppeco is a leader in the unstructured operational data space. Our digital relationship layer charts live performance narrative across the ecosystem, from red to green, or green to red. It's literally the difference between learning and course correction along the way and remediating after the event.

- Elevate insights beyond KPIs with real time performance narrative
- Benefit from actionable visibility to continuously improve
- Leverage the power of real time data deep into the operational footprint
- Empower your operational workforce to collaborate easily at scale
- No need to log-in. Data follows users. Never miss another deadline
- Contracts storage, events management, KPI creation suite

What our customers are saying

Ultimately business is about driving value, increasing profit and reducing cost. Suppeco is helping us see how all those things are infinitely more achievable by unlocking our supplier relationships and exploring what we can do together.

Simon King, Head of Supplier Operations, BAE Systems Digital Intelligence

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
