

# Finchloom+ for Intune

Monthly Managed Service for Devices (PC, Mac, Mobile)

# Device Management issues facing Organizations

- Long turnaround for new or changing employees
- Inconsistent OS versions, Apps, and patch levels
- Ability to secure and protect company data

## Who is this for?

- Commercial, Academic, Non-Profit with an IT Department
- Using Intune for device management with 100+ users
- Don't want to use internal resources for mundane work
- Looking to bring consistency and modern management techniques

## Why Managed Services with Finchloom+?

- We are Microsoft Experts in Modern Work
- Fine tuning of your Intune tenant to security best practices
- AutoPilot for Company owned devices for simple device deployment and re-deployment
- Mobile Device Management
- Patch Management, OS Updates, and Software App Distribution
- Company Data protection

# Customer Success Stories

(Names Hidden for Privacy)

- Manufacturing Customer 1 – 2000 Users – Dropship new PCs to new employees via AutoPilot – improved new user time to work by 2 days
- Commercial Customer 2 – 300 Users – Able to re-deploy internal IT Engineer to work on Collaboration projects instead of managing devices
- Non-Profit Customer 3 – 800 Users – Allow temporary and contractor work staff to securely use BYOD to access their work content

## What's Included? How Does it Work?

- Finchloom+ for M365 Intune Monthly Managed Services
  - Intune Setup and Best Practices Assessment and Implementation
  - Intune Monitoring for Compliance and updated settings
  - Remediation of non-compliant devices
