# Discover actionable insights to guide your critical changes in SAP

INTRODUCING

ActiveDiscover

Change is the only constant in today's rapidly evolving business landscape.

Basis Technologies empowers the world's best-performing organizations to control the Lifecycle of Change, from discovery to delivery.

Successfully managing change in the SAP landscape has become an essential matter for business leaders. However, navigating the complex processes of SAP systems can be daunting, leading to inefficiencies and even downtime, costing considerable time and money.

Basis Technologies offers the best way to manage change in your SAP landscape, providing market-leading solutions that enable your business to power innovation, drive growth and eliminate risk.

ActiveDiscover empowers you to gain comprehensive insights during the first phases in the Lifecycle of Change, helping you to confidently embrace every change.

ActiveDiscover empowers your business to:

Improve Accuracy

Understand the impact of change across your business to achieve effective transformation

▶ ActiveDiscover offers a comprehensive view of the scope of your changes

▶ Identify potential issues early in the planning cycle, allowing for adjustments before problems occur

▶ Gain complete visibility and make data-driven decisions for your SAP projects

Reduce Risk

Assess the outcome of change before it happens to make decisions based on reliable insights

▶ ActiveDiscover's powerful impact analysis capabilities enable you to identify potential hazards and eliminate unplanned downtime

▶ Make informed decisions based on real-world usage data and detailed risk profiles

▶ Plan and mitigate risk proactively for a safe and effective digital transformation

▶ Optimize business synergy by prioritizing and managing multiple projects simultaneously without adversely affecting each other

Lower Cost

Reduce the financial burden of change by gaining complete oversight of transformation

▶ ActiveDiscover identifies and prioritizes the most critical areas of the business impacted by a change

▶ Focus testing where it matters most, reducing costs and freeing up vital expertise

▶ Save time and money while completing projects on time and on budget

▶ Maximize return on human capital by automating processes and enabling your workforce to focus on high-value activities

ActiveDiscover   **Basis Technologies**

The key features of ActiveDiscover

Experience the robust functionality of ActiveDiscover and see how it drives innovation, growth, and eliminates risk.
