Accigo Network Assessment

Accigo is a full Microsoft partner with vast experience in understanding the importance of secure and reliable Network. Due to our understanding of how Cyber security and applications rely on good Network planning and monitoring, our Network Service Offer is designed to provide comprehensive networking solutions tailored for companies that need reliable, secure, and high-performance network infrastructures to serve the company effectively.

- **Elevate Your Business Connectivity with Our Premier Network Service Offer**

Transform your business operations with a state-of-the-art network infrastructure tailored to meet the demands of the modern digital landscape. Our comprehensive Network Service Offer is designed to bring reliability, security, and efficiency to the forefront of your business, ensuring that you stay connected to your clients and ahead of the competition.

- **Custom Network Solutions**
- **Bespoke Design**: Our expert engineers will craft a network solution that fits your unique business needs, ensuring scalability and flexibility.
- **Cutting-Edge Technology**: Harness the power of the latest networking hardware and software to propel your business forward.
- **Unmatched Security**
- **Robust Protection**: Safeguard your sensitive data with advanced cybersecurity measures, including firewalls, intrusion detection systems, and regular security audits.
- **Compliance Assurance**: Stay compliant with industry standards and regulations, protecting your reputation and customer trust.
- **Seamless Implementation**
- **Minimal Downtime**: Experience a smooth transition with our meticulous planning and execution, keeping your business operational during the network upgrade.
- **Professional Configuration**: Our certified technicians will configure your network for optimal performance and ease of use.
- **Ongoing Support**
- **Monitoring**: Rest easy knowing that our team is continuously monitoring your network to prevent and quickly resolve any issues.
- **Dedicated Assistance**: Gain access to our responsive support team, ready to assist with any questions or challenges that arise.
- **Investment in Your Success**
- **Cost-Effective Solutions**: We offer competitive pricing without compromising on quality, ensuring you get the best return on your investment.
- **Future-Ready Networking**: As your business evolves, so will your network. We're committed to keeping you at the cutting edge of connectivity.

Unlock the full potential of your business with our Network Service Offer. Contact us today to schedule a consultation and take the first step towards a more connected future.

3-Month Azure Network Assessment Offer

1 Month 1: Azure Network Analysis

In the first week, we will initiate the project with a kickoff meeting to understand your objectives and review your existing Azure network documentation. The second week will be devoted to inventorying your Azure resources and creating a network topology map. During the third week, we will establish performance and security baselines, analyzing metrics to identify any issues. To conclude the month, we will compile our findings and provide preliminary recommendations.

2 Month 2: In-Depth Security & Compliance Check

The fifth week will see us conducting a detailed security audit and reviewing Azure security center alerts. In the sixth week, we'll assess your compliance with standards like GDPR or HIPAA and examine Azure policies for governance. The following week, we will formulate a strategy for security and performance optimizations. We will then review our progress with you at the mid-assessment point and adjust our plans if needed.

3 Month 3: Implementation & Optimization

Commencing the ninth week, we will start implementing security enhancements and performance optimizations. The tenth week will involve monitoring these changes and adjusting as necessary. In the eleventh week, we'll conduct a final security and compliance review to ensure adherence to Azure best practices. We will wrap up the assessment in the final week with a comprehensive report detailing our actions, the current network state, and recommendations for the future.

To engage with us for this comprehensive Azure Network Assessment, please get in touch to schedule your assessment.
