Our idea is simple

Kunjani combines online meeting systems and blended learning games.

Sticky, fast & fun

Combining the structure of a game, sound learning methodologies and Teams meetings, Kunjani is a unique and essential tool for professionals hosting meetings in any field.

1

Accelerate learning

Kunjani meetings are specifically designed to optimise the varied skills and learning preferences of your team.

2

Maximise engagement

There are points, time limits and interesting activities to fuel the fun.

3

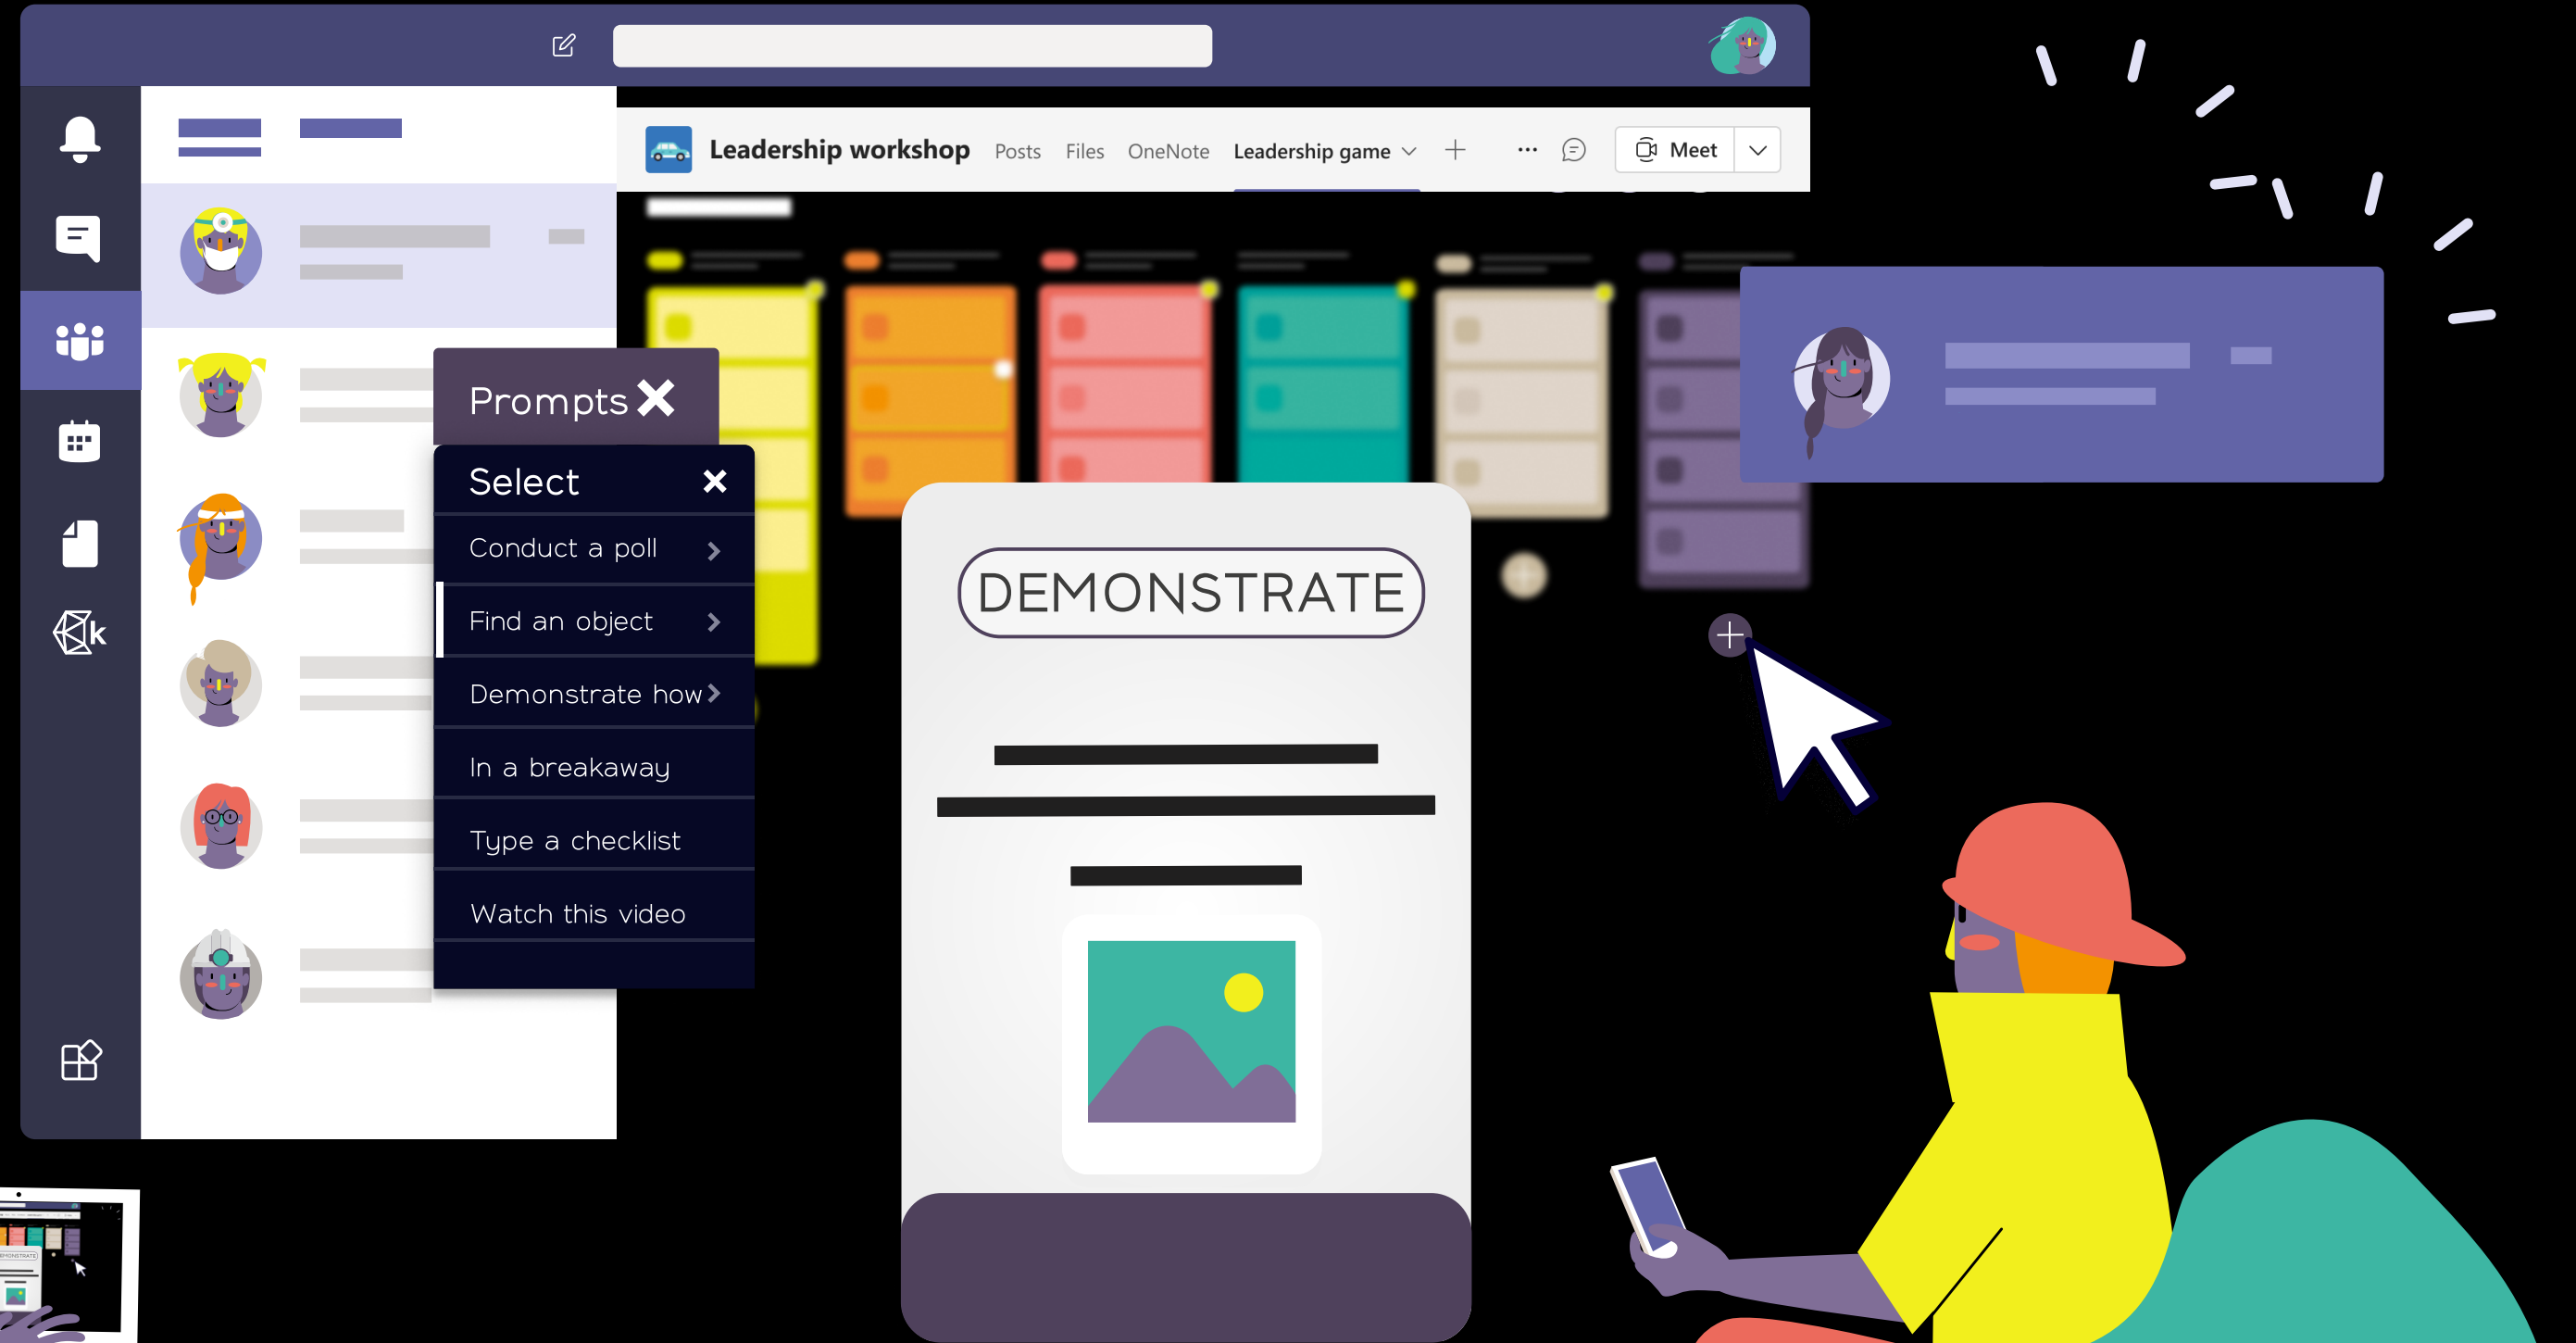

Enhance Microsoft Teams features

Kunjani activities complement existing Teams meeting features like: chat, whiteboard, breakout rooms and presentations.

In **minutes** you can gamify your next meeting

1

Create

Before a meeting, you can create your own deck on a topic of your choice. Get inspired with our carefully crafted prompts to guide you.

2

Customise

Preview and edit public deck templates within Teams. Load the dice to add structure to game play.

3

Collaborate

Invite co-facilitators to collaborate with you on a deck. In a Team channel. You can preview and edit each other's contributions in real-time. Use the chat to discuss. Get creative!
