

TANGRA METAVERSE

Transforming virtual learning,
trainings, and events into
engaging, interactive,
and fun experiences

<https://tangra.link>

TANGRA LEARNING

Beautiful, professional-looking, immersive metaverse spaces for classes, trainings, workshops, conferences, and events

1

Classroom

Breakout rooms for group discussions

Laser pointer and **shared notes**

Uploaded or **AI-generated images**

Quick **polls, surveys, and pop quizzes**

2

Communication

Voice and chat conversations

Crowd control: **mute one or all**

Schedule and join sessions via a link

Presentations: **share screen, play videos**

3

Avatars

Avatars can **walk, run, sit, raise/clap hands**, and even **dance**

Preset and customizable **photorealistic** avatars

Lip-sync for more real-life conversations

AI assistants greet visitors, **speaking their language**

USER DATA IS SAFE WITH US

Data privacy and security is something we take very seriously.

- **Data Privacy**

Tangra is **GDPR, CCPA, COPPA, and FERPA** compliant

- **Private Rooms**

Conversations, chats, and screenshare streams are **private** and not accessible outside the room

- **Data Security**

We do **not** store, share, or sell users' passwords or financial information

- **Data Encryption**

Tangra uses the best in class technologies for **secure** data storage, transfer, and **encryption**

Our Product

Transforming virtual learning, training, and events into engaging, interactive, and fun experiences. For real!

We offer **beautiful, professional-looking, immersive metaverse spaces** for classes, trainings, and events.

Tangra is easily accessible over web, **no VR headsets required.**

Tangra is the only metaverse that can have **1,000 avatars** in the same space at the same time.
